docket. Staff further respectfully requests that t	he ALJ adopt the procedural schedule agreed to		
by the parties in this proceeding.			
OAR 860-038-0400(8)(a) provides that	Staff and other interested persons may file		
written comments on a renewable portfolio imp	lementation plan (RPIP) within 45 calendar days		
6 of its filing, and that the electric company then has 30 days to file a written response to any			
17 comments filed. Additionally, Staff "should present its recommendation at a Commission public			
meeting within 120 days of the implementation plan filing date." <i>Id.</i> OAR 860-083-0005(2)			
9 provides that the Commission may waive any of the Division 083 rules upon request or its own			
motion for good cause shown.			
Given the importance of PacifiCorp's (c	or Company) filing in light of the recently enacted		
SB 1547 and recent staffing changes, Staff belie	eves there is good cause in this case to waive the		
provisions in OAR 860-038-0400(8)(a) in order	to allow for additional time for discovery and		
analysis prior to comments filed by Staff and in	tervenors. Staff's proposed schedule, shown		
below, allows for a final Commission action on	PacifiCorp's RPIP no later than six months after
