3. If the petitioner is an organization, the number of members in and the purposes of the organization:

List of Members attached

4. The nature and extent of the Petitioner's interest in the proceeding is:

Blu. is a natural gas fuel retailer that designs, builds, and operates stations around the country. Our near-term plans for expansion include sites in Oregon. NW Natural's proposal to extend its scope of service to natural gas vehicle fueling infrastructure is of deep concern to Blu. Natural gas vehicle fueling is a competitive market, and the involvement of a regulated utility in this space will result in an unlevel playing field, and is anti-competitive.

5. The issues the Petitioner intends to raise at the proceeding are:

1. HPGS is a competitive market. The involvement of a regulated utility in that market stifle competition and inhibit development.
2. Other related matters.

6. The special knowledge or expertise of the Petitioner that would assist the Commission in resolving the issues in the proceeding is:

Blu.'s experience in building and operating natural gas fueling stations in a variety of markets across the United States will help Commissions make a well-informed decision.

7. Based on the information provided above in accordance with the Commission's rules of procedure, I request to participate in this proceeding as an intervenor. I or the organization that I represent will not unreasonably broaden the issues, burden the record, or unreasonably delay the proceeding. OAR 860-001-0300.
