NIPPC is a trade association whose members include private industry participants active in the Pacific Northwest and Western energy markets. The purpose of NIPPC is to represent the interests of independent power producers and marketers in developing rules and policies that help achieve a competitive electric power supply market in the Pacific Northwest.

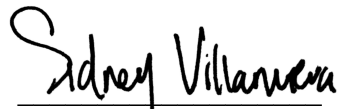

NIPPC has a substantial interest in this proceeding, because PacifiCorp's interpretation of the Commission's policy on renewable avoided costs rates openly discriminates against large QFs and could have a significant impact on the power market in Oregon. Independent power producers, including NIPPC's members such as Cypress Creek, have energy projects above the Commission's standard contract size and are therefore directly affected by the need for the Commission to uphold its position on this issue.

NIPPC has participated in numerous regulatory proceedings intended to promote competitive markets, including the Commission's bidding guidelines, and the utilities' most recent requests for proposals to add resources. NIPPC's intervention will assist the Commission in resolving the issues and will not unreasonably broaden the issues, burden the record, or delay this proceeding. Finally, NIPPC's interests are not adequately represented by any other party in this proceeding.

WHEREFORE, NIPPC respectfully requests that the Commission grant its petition to intervene with full party status in this proceeding and to appear and participate in all matters as may be necessary and appropriate; and to present evidence, call and examine witnesses, cross-examine witnesses, present argument, and to otherwise fully participate in the proceedings.

Dated this 4th day of November 2016.

Respectfully submitted,

Sidney Villanueva
