RE: Progress Report of Detail Inspections on PacifiCorp Owned Structures from 2008-2017

Please find attached PacifCorp's completed worksheet (PUC Form FM231) attached to the notification letter of October 17, 2017 from the Oregon Public Utilities Commission. As a result of this notification and the Oregon Administrative Rules, PacifiCorp undertook an extensive analysis of each facility point recorded within its facility point inspection system (FPI) to determine the progress of detailed inspections for all facilities to which this rule applies during the period 1/1/2008-12/31/2017. From that analysis it has been determined that the company has a small number of facility points that appear to have missing inspections during the 10 year period. These are reported by groups below, for which the company has also included its corrective plan in the second column of the table below. By the company's calculations it appears that no more than 0.43% may have been missed during the 10 year time period.
