PUC Form FM231

PUC 10 year inspection report

FTX Networks did not submit a 5 year progress report in 2013 because it was incorporated in that year.

FTX Networks has not been able to inspect 100% of its facilities in the five years it has been a utility. However, FTX Networks is making sure to exceed the recommended 10% per year inspection rate. We will be fully prepared to submit the next 5 year update with 50% of facilities inspected, and to have 100% of facilities inspected before the net 10 year report.
