

Enclosed please find a copy of AT&T's § 63.71 Application, which was filed with the FCC. This courtesy copy is provided in compliance with 47 C.F.R. § 63.71(a).

Date of Planned Service Discontinuance:

Effective on or after October 1, 2020, pending regulatory approval, AT&T All In One Local Exchange Service will be discontinued and will no longer be available for purchase by new or existing customers.

Points of Geographic Areas of Service Affected:

AT&T will no longer offer AT&T All In One Local Exchange Service throughout its service territory in Arizona, Colorado, Minnesota, Nebraska, Oregon, Utah, and Washington.

Brief Description of Type of Service Affected:

AT&T All In One Local Exchange Service provides small business customers with an analog communications channel that allows them to place and receive local voice phone calls and facilitates intrastate and interstate long distance calls.

AT&T is discontinuing AT&T All In One Local Exchange Service because demand has declined significantly. The public convenience and necessity will not be impaired by the discontinuance of this service because there are alternative voice services available to these customers, including AT&T's Office@Hand service, which is a cloud-based IP service that enables customers to connect seamlessly on almost any device using only one number for all their business voice, fax, and text messages. Further, AT&T is a reseller in the affected service areas and replacement services are also available from other carriers, such as CenturyLink, the incumbent local exchange carrier throughout the affected service area.¹

¹ AT&T's action to discontinue AT&T All In One Local Service is not a "Technology Transition" as defined in 47 CFR 63.60(i) because customers are not required to replace their service with a different technology or medium for transmission. CenturyLink continues to offer TDM-based local voice service throughout AT&T's service area included in this discontinuance.
