Subject: Extension of Time  
(Docket No. UM 1538)

Request by PGPV, LLC for a waiver of the 12-month solar photovoltaic system installation requirement pursuant to OAR 860-084-0210 (1)

To Whom it May Concern,

We would like to request an extension for the following project:

PGE Tracking #: 05M2J4  
Size: 100 KW  
Deadline: 1/25/2017  
Extension Deadline Requested: 5/31/17

This system was awarded a slot in the VIR program on 1/13/16 for a cold storage building that was not yet constructed at the time the award was granted. The original award letter contained an incorrect VIR rate, the corrected award letter was re-issued on 1/25/16. The building's construction took longer than planned as some structural issues were encountered during the process that required correction before the system could be installed on the roof. We were given the green light to install the system mid-December 2016; however, due to poor weather the system's installation has been delayed. The solar panels, inverter and other necessary materials have been acquired and are on site waiting to be installed during the first stretch of decent weather. As we have a number of other projects currently under construction, we would like to request an extension deadline of 5/31/17. This will allow us ample time to complete the installation.

**Company Background:**

Energy Wise Lighting, Inc. and their sister company PGPV, LLC are the largest owners of solar PV systems on K-12 schools, Boys and Girls Clubs and other non-profits in the State. We've installed over 125 solar PV systems under the VIR program in Oregon, ranging in size from 5 to 500 KW, for a total installed capacity of over 5 MW. Over the next 15 years, our systems will inject millions of dollars back into Oregon schools, nonprofits and farmers in the form of host fees.

Sincerely,

/s/ Peter Greenberg
