Subject: Request for waiver and extension of time (Docket No. UM 1538) pursuant to OAR 860-084-0210 (1)

To Whom it May Concern,

We would like to request an extension for the following project:  
Bella Vida Vineyard #C4C364  
Size: 9.72 kw  
Original Deadline: 04/15/2014  
Extension Requested: 60 days; 6/15/2014

Reason for extension

The system is designed, the contract has been signed, the customer has issued the first deposit check and permits are in process. There should be enough time to finish the system within the time allowed. It is not a large system, nor is the installation particularly problematic. However, we felt it prudent to ask for a short extension to allow for possible equipment or permitting delays.

Steven Whiteside, the owner of Bella Vida, has his primary business in Tucson, AZ. As with many winery owners, aesthetics are extremely important and extra care was taken in the design of the system. But with Mr. Whiteside's travel schedule, we were only able to meet and agree on the final design aspects this week. The contract was signed and the check was issued at the same meeting. Again, we are confident in our ability to complete the system but would like a bit more time to be sure.

Respectfully submitted,

Steven Whiteside, Owner  
Bella Vida Vineyards

Alan Hickenbottom  
Christenson Electric, Inc.
