RE: LC 66 Errata Filing

Please find enclosed an original and one copy of an Errata to Portland General Electric Company's ("PGE") 2016 Integrated Resource Plan previously filed with the Commission on November 15, 2016. This Errata contains the following revisions:

- 1. Removal of a statement, made in error, on page 248, Section 9.1.1 of the IRP.
- 2. Rewording of a potentially ambiguous statement on page 108 of PGE's Reply Comments filed with the Commission on March 31, 2017 in Docket LC 66.
- 3. Table N-1, page 797 of IRP Appendices: corrected to reflect long-term energy storage capacity expansion. The previous table contained a data query error.
- 4. Table N-2, page 798 of IRP Appendices: corrected to reflect long-term energy storage capacity expansion. The previous table contained a data query error.
- 5. Figure N-1, page 798 of IRP Appendices: corrected to reflect long-term energy storage capacity expansion. The previous figure contained a data query error.
- 6. Table N-3, page 799 of IRP Appendices: corrected to reflect long-term energy storage capacity expansion. The previous table contained a data query error.

This is being filed by electronic mail with the Filing Center. It is also being served on the LC 66 service list via email only.

If you have any questions, please contact me at (503) 464-7580. Please direct all formal inquiries to the following e-mail address: pge.opuc.filings@pgn.com.

Sincerely,

atrick G. Hager

Manager, Regulatory Affairs

PGH/sp encls.

Errata

Strike the following sentence on page 248, Section 9.1.1, fourth paragraph:

"PGE owns and operates 4205 MW of transmission capacity under various contracts."

Errata

Change the following sentence on page 108 of OPUC Docket LC 66 Reply Comments:

"Importantly, coal dispatch changes across carbon price futures and is significantly reduced when higher carbon cost futures are simulated."

To:

"Importantly, coal dispatch changes across carbon price futures, and is significantly reduced when comparing the *Reference* CO_2 and High CO_2 cost futures to the No CO_2 cost future.
