Privacy Policy

SAFELINK WIRELESS® service is U.S. government supported program for Income eligible households provided by TracFone Wireless.

Please read the TRACFONE Privacy Policy.

TRACFONE Wireless has instituted a comprehensive set of privacy policies and procedures to ensure that its Web site visitors' privacy is never compromised. The purpose of this privacy notice is to inform our Web site visitors of the type of information that TRACFONE, or a credit card processing partner acting on its behalf, collects from the Web site, how the information is gathered, how it is utilized, how long it is retained and how visitors can restrict its use or disclosure.

The primary focus of TRACFONE's privacy policy is to ensure that all Web site visitors' customer identification, which we term "customer identifiable information," is kept private at all times. As the term suggests, "customer identifiable information" is information which can be associated with a specific individual or entity, including, for example, a customer's name, address, or telephone number, e-mail address and information about online activities that are directly linked to them.

The collection of customer identifiable information is a critical element in the day-to-day operation of the Web site to allow TRACFONE to maintain the highest level of customer service for all Web site visitors. It is a common practice and often a necessity for companies, governments, or other organizations to collect customer identifiable information in order to conduct business and offer services.

TRACFONE always strives to safeguard the customer identifiable information obtained from its Web site users and visitors (collectively, "customers") from any unauthorized intrusions.

TRACFONE may contact people on the home phone number they enter on our website, input into our automated phone system or give to an agent in case of technical difficulties, promotions and/or reminders.

General

TRACFONE will not sell, trade, or disclose to third parties any customer identifiable information derived from the registration for, or use of, a TRACFONE product or service -- including customer names and addresses -- without the consent of the customer. TRACFONE will, however, disclose customer identifiable information as required by subpoena, search warrant, or other legal process or in the event that such customer is engaging in unlawful use of our Web site.

When TRACFONE uses third parties to perform services on its behalf, TRACFONE will request that such third parties protect your customer identifiable information consistently with this privacy policy. However, we cannot ensure that all of your customer identifiable information will never be disclosed, as regulatory and/or other requirements may make disclosure necessary.

Collection and Use:

In some instances, TRACFONE may collect information that is not "customer identifiable information." Some examples of this type of information include the type of Internet browser you are using, the type of operating

system you have configured on your computer, and the domain name of the Web site and/or Internet Service Provider from which you are linked to our Web site. TRACFONE primarily uses this information for market research and optimizing its systems in order to deliver the best customer experience possible.

TRACFONE may collect and use customer identifiable information for various purposes, including but not limited to, billing purposes, to provide or change service, to anticipate and resolve problems with your service, or to inform you of products and services that better meet your needs. This means that TRACFONE may use your customer identifiable information, in conjunction with information available from other sources, to market new services that may be of interest to you, but TRACFONE will not disclose your customer identifiable information to third parties who want to market products to you.

Declining e-mail offers:

TRACFONE will only send our customers e-mail regarding promotional offers or other news if a customer specifically grants us permission. A customer has the right to choose not to receive TRACFONE e-mail direct marketing communications by simply notifying us of their preference. This process is commonly termed opting-out or unsubscribing. At any time, a customer can unsubscribe from our e-mail list by clicking on the unsubscribe link found at the bottom of every message or promotion delivered electronically to our customers. Upon such choice, TRACFONE (a) will not contact that customer directly with TRACFONE promotional messages, and (b) will not use customer identifiable information obtained from that customer's registration to contact that customer with TRACFONE product or service messages. A customer may also choose not to receive such messages by notifying TRACFONE via fax or mail.

Security:

TRACFONE has gone to great lengths to implement technology and security features to safeguard the privacy of your customer identifiable information from unauthorized access or improper use, and TRACFONE, based on its judgment, will continue to enhance its security procedures as new technology becomes readily available. However, since there is no such thing as "perfect Internet security", TRACFONE cannot provide any guarantees of 100% security compliance.

E-mail Contents:

TRACFONE will not read or disclose to third parties private e-mail communications that are transmitted using TRACFONE services except as required to operate the service or as otherwise authorized by law.

Improper Conduct:

TRACFONE may also use customer identifiable information to investigate and help prevent potentially unlawful activity or activity that threatens the network or otherwise violates the customer agreement for that service.

Account Information:

TRACFONE honors requests from customers for account information and will correct any such information, which may be inaccurate. Customers may contact TRACFONE to verify that appropriate corrections have been made.

Cookies

When you visit our Web site, we may store information on your computer that allows us to identify you immediately. This process is often referred to as "cookie" technology. More specifically, a cookie is a commonly used Internet standard which stores, in a very small text file on the customer's hard disk, information specific to the customer. Our Web site makes limited use of cookies in an effort to improve our level of service to our Web site visitors. Cookies cannot be accessed by any other Web site other than the Web site issuing the cookie. The private features of our Web site are only accessible when cookies are enabled in the customer's browser. If a customer does not wish to utilize cookies, this feature may be disabled within the customer's Web browser. However, by disabling cookies, a customer will not have access to private areas of our Web site through that browser.

It is possible that on some occasions, these third party Web sites may in fact collect personal information from our customers. We recommend that you examine the privacy policies of such third party Web sites prior to submitting any personal information, as they may differ from ours.

In some instances, our Web site content is also featured on other Web sites with differing or non-existent privacy policies. These Web sites may collect personal information from their customers that may or may not be used in conjunction with our Web site information. Prior to supplying any personal information to any third party company linking to our Web site, please read and understand their privacy policy.

Advertisements

Advertisements may appear on pages throughout our Web site. Some advertisements may request information directly from our customers or take our customers to Web sites that may request personal information. TRACFONE has no control over its advertisers' privacy policies, so please examine the privacy policy of any company advertising on our Web site prior to submitting any personal information.

Third Party Advertising Companies

We may use third-party advertising companies to serve ads on our behalf. These companies may employ cookies and action tags (also known as single pixel gifs or web beacons) to measure advertising effectiveness. Any information that these third parties collect via cookies and action tags is completely anonymous. If you would like more information about this practice and your choices, click here. You may also visit the Advertising.com Privacy Policy, click here.

Surveys

Occasionally, we may conduct surveys on our Web site. Surveys are conducted at random and are completely voluntary to our Web site visitors. The survey may require a customer to provide customer identifiable information in exchange for the information or services provided by the survey. We may use this information in an aggregate manner to better tailor the type of services, information, and advertising that are provided on our Web site.

Policy Changes

TRACFONE reserves the right to change its privacy policy by publishing new terms on its Web site at any time and your access and use of the TRACFONE Web site thereafter constitutes your acknowledgment and acceptance of such amended policy. This privacy policy does not create any legal right for you or any third parties.

Children

TRACFONE Web sites are not structured to attract children under the age of 13. TRACFONE believes there is no information on its Web site, which is inappropriate or objectionable for viewing by children.

TRACFONE does not knowingly, directly or passively, collect information from children under the age of 13. If we create offers and products that make it appropriate to collect information from children under the age of 13, we will notify you of the change in this Policy. We also will ask a parent to confirm his/her consent in advance of any collection, use or disclosure of that information. We do not collect any information that is not submitted to us. We only use personally identifiable information so that we may better understand our users' needs and send information to users regarding new services or offerings, including but not limited to any sweepstakes or other offering. We do not sell any personally identifiable information or disclose any personally identifiable information to third parties.

Ordering online products and services from TRACFONE is limited to adults (ages 18+). However you should be aware that wireless devices and services purchased for family use may be used by minors without the knowledge of TRACFONE. If that happens, any information collected from the usage will appear to be the personal information of the actual adult subscriber and treated as such under this Policy.

SAFELINK WIRELESS Œ
Terms and Conditions of Service

Please read these SAFELINK WIRELESS Terms and Conditions of Service carefully. SAFELINK WIRELESS is a service of TracFone Wireless, Inc. ("TracFone Wireless"). These SAFELINK WIRELESS Terms and Conditions of Service are a legally binding agreement between you and TracFone Wireless. They contain important information about your legal rights and require that certain disputes be resolved through Arbitration instead of a court trial. TracFone Wireless reserves the right to change or modify any of these SAFELINK WIRELESS Terms and Conditions of Service at any time and at its sole discretion. Any changes or modifications to these SAFELINK WIRELESS Terms and Conditions of Service will be binding upon you once posted on the SAFELINK WIRELESS website at www.safelink.com. You should check the SAFELINK website regularly for updates to these terms.

By enrolling in the SAFELINK WIRELESS Program (the “SAFELINK WIRELESS Program” or “SAFELINK Program”) and by using the SAFELINK WIRELESS service (the “SAFELINK WIRELESS Service” or “SAFELINK Service”), you (“You”), the participant, acknowledge and agree to the following terms and conditions:

1. SAFELINK WIRELESS PROGRAM DESCRIPTION.

SAFELINK WIRELESS Service is funded by the Universal Service Fund Lifeline program and administered by the Universal Service Administrative Company. In order to qualify for enrollment in the SAFELINK WIRELESS Program, a person must meet certain eligibility requirements set by each state where the SAFELINK Program is offered. These requirements are based on a person's participation in a state or federal support program(s) or by meeting certain income requirements based upon the Income Poverty Guidelines as defined by the US Government. Federal law limits the availability of the SAFELINK Program. The SAFELINK Program allows one (1) enrollment per “household” and only the “head of household” may apply. The SAFELINK Program permits only one Lifeline benefit per household, therefore, no person currently living in the household may receive Lifeline benefits from any other Lifeline program. Applicants for the SAFELINK Program must complete an application form, provide supporting documentation that they meet the eligibility requirements and certify, under penalty of perjury, that they:

• Are eligible for and currently receive benefits from the public assistance program(s) identified in the application form.

• Are a “head of household.”

• Do not currently receive lifeline support for a telephone line serving their residential address and no other resident in their household participates in the Lifeline program. If the applicant is already participating in another Lifeline program, then the applicant agrees to cancel their current household Lifeline support provider in order to enroll in the SAFELINK Program.

• Are not claimed as a dependent on another person's federal or state income tax return.

• Will notify SAFELINK Wireless by calling 1-800-SAFELINK if and when they no longer qualify for any of the public assistance programs identified in their application form.
• Will notify SAFELINK Wireless of any change of address by calling 1-800-SAFELINK.

• Reviewed the information contained in their application and it is true and correct to the best of their knowledge and belief.

Applicants who qualify and are enrolled in the SAFELINK Program will receive a free cellular phone provided by TracFone Wireless together with a free allotment of airtime minutes each month for up to one year. TracFone Wireless will determine at its sole discretion whether or not an applicant meets the eligibility requirements to participate in the SAFELINK Program. The monthly airtime minutes provided by the SAFELINK Program will vary from state to state (in Washington state, the number of monthly airtime minutes is 68 under Plan Option 1) and will be based upon the Plan Option selected. Please call SAFELINK WIRELESS at 1-800-SAFELINK or visit our website at www.safelink.com for further information.

Applicants who do not meet the eligibility requirements will receive written notification, via US Mail, of the reason for their non-eligibility. Upon enrollment in the SAFELINK Program, You will be qualified to participate for up to one (1) year. To continue your enrollment in the SAFELINK Program after the initial year, You must verify annually that you are qualified for continued enrollment in the SAFELINK Program as required by your state Public Service Commission, Public Utility Commission or other agency administering the SAFELINK Program in Your state. TracFone Wireless will also conduct verification drives for each state according to its rules. If TracFone Wireless determines during its verification drive, or at any other time, that a customer fails to continue to qualify for the SAFELINK Program, such customer will immediately be deemed ineligible to participate in the SAFELINK Program, will be de-enrolled from the SAFELINK Program and will no longer receive the free monthly minutes. SAFELINK Customers who are no longer eligible (for any reason) for enrollment in the SAFELINK Program must immediately notify SAFELINK Wireless that they no longer meet the eligibility requirements for enrollment. A SAFELINK customer's enrollment may also be cancelled upon the request of a state and/or federal authority.

TracFone Wireless and SAFELINK WIRELESS reserve the right to cancel the enrollment of any customer and/or permanently deactivate any customer's SAFELINK WIRELESS phone for fraud, misrepresentation or other misconduct as determined solely by TracFone Wireless. While participating in the SAFELINK Program, a customer shall not be permitted to sell, rent, give away or in any way allow another person to use the cellular phone or SAFELINK Service provided to him/her by SAFELINK WIRELESS. IT IS A VIOLATION OF FEDERAL AND STATE LAW TO SELL OR GIVE AWAY THE SAFELINK CELLULAR PHONE OR SAFELINK SERVICE PROVIDED TO YOU BY SAFELINK WIRELESS. Any violation of this prohibition will be reported to the appropriate legal authorities for prosecution. In addition, if TracFone determines, in its sole discretion, that a SAFELINK WIRELESS customer has violated these prohibitions, TracFone Wireless will the permanently de-enroll the customer from the SAFELINK Program, their phone will be permanently deactivated and the customer's personal information will be permanently flagged so that the customer may not re-enroll in the SAFELINK Program in the future. If you have any questions, concerns, comments or complaints regarding the SAFELINK Program or Service, offerings or products, please call SAFELINK WIRELESS Customer Care at 1-800-SAFELINK. You may also contact your state's Public Service Commission/Public Utility Commission.

2. ACTIVATION AND USE OF YOUR SAFELINK WIRELESS PHONE.

Upon enrollment in the SAFELINK Program, you will receive a pre-activated SAFELINK WIRELESS phone delivered to your home address noted in the application. You must accept the SAFELINK WIRELESS telephone number assigned to your SAFELINK WIRELESS phone at the time of activation and you will acquire no proprietary interest in any number assigned to you. The wireless telecommunications networks used to transmit calls for the SAFELINK WIRELESS Service are owned and operated by various licensed commercial mobile radio service providers ("Carriers"), not SAFELINK WIRELESS or TracFone Wireless. The number assigned to your SAFELINK WIRELESS phone at the time of activation will not be changed for any reason unless required by a Carrier or if the number is lost following the deactivation of your phone. You may not select a number to be assigned to your SAFELINK WIRELESS phone. Your SAFELINK WIRELESS phone can only be used through TracFone Wireless, and cannot be activated with any other wireless or cellular service. SAFELINK WIRELESS Services are provided at TracFone Wireless' discretion. Some functions and features referenced in the Manufacturer's manual provided with your SAFELINK WIRELESS phone may not be available on your SAFELINK WIRELESS handset. TracFone Wireless may modify or cancel any SAFELINK Service or take corrective action at any time without prior notice and for any reason, including but not limited to your violation of these terms and conditions of service.

3. AIRTIME RATES, USAGE AND INCLUDED MONTHLY MINUTES.

While you are enrolled in the SAFELINK Program, you will receive a free monthly allotment of airtime minutes as provided for the SAFELINK Program approved in your state and the minute Plan that you select. SAFELINK WIRELESS airtime is issued in minute (or unit) increments. Units are deducted from the SAFELINK WIRELESS phone at a rate of one (1) unit per minute or partial minute of use. There is no additional charge for nationwide long distance. If you are on Plan 1, there is no additional charge for international long distance to countries designated at www.tracfone.com. SAFELINK offers three plans that are currently available to all new and existing SAFELINK customers. Each plan offers different benefits, features and carryover options. The 3 Plans that are currently available are:

	Free Monthly Minutes Included in Plan	Unused Minutes Carryover Each Month	Text Message Charge*	Free International Long Distance	Voicemail Caller ID Call Waiting
Plan 1	68 in all states (80 in MA)	Yes	3 Texts/1 Minute	Yes	Yes
Plan 2	125	Yes	1 Text/1 Minute	No	Yes
Plan 3	250	No**	1 Text/1 Minute	No	Yes

*These text messaging rates will apply even if a different text messaging rate is stated on an airtime card. **With Plan 3, your phone will reset to 250 minutes each month when your monthly minutes are delivered and all unused minutes, including airtime minutes that you have purchased and free monthly minutes from the previous month, will be lost.

New SAFELINK customers must choose a plan upon enrollment. Existing SAFELINK customers who wish to switch plans may do so at www.safelink.com or by calling 1-800-SAFELINK. If you switch plans before the 25th day of any given month, the change will be effective the following month. If you switch plans on or after the 25th day of the month, the change will be effective in the second month following your request to switch plans. You may use your free monthly allotment of airtime minutes to place or receive calls, to send or read text messages or multi-media messages and to access the internet (with certain models of phones). In order to receive your monthly allotment of minutes, you will need to leave your SAFELINK WIRELESS phone powered “on” during the first few days of each month. If you DO NOT receive your monthly allotment of minutes because your phone was not “ON” at the beginning of the month or your phone does not automatically retrieve minutes when powered “ON.” You may self-retrieve by following the instructions below. If for any reason these instructions do not work on your handset, please call us at 1-800-378-1684.

Airtime minutes will be deducted for all time during which your SAFELINK WIRELESS phone is connected to, or using, the wireless system of any Carrier. Use of a wireless system typically begins when you press the "send," "call" or other key to initiate or answer a call and does not end until you press the "end" key or the call is otherwise terminated. Airtime minutes are deducted for all incoming and outgoing calls, including incoming call waiting calls, simultaneous calls, calls to toll free numbers, 411, 611, Customer Care, and to access your voice mail. For simultaneous calls, such as incoming call waiting and 3-way calling (where available) airtime minutes will be deducted for each call. Airtime minutes are not deducted for calls to 911, and all handsets will be able to call 911 even if they have no airtime remaining. Customers in the State of Washington will not be charged for calls to Customer Care if they dial 611 directly from their handset. For outbound calls, you may be charged airtime for incomplete and/or busy-no answer calls. Airtime minutes will be deducted for use of other services such as text messaging and accessing the TracFone Wireless Mobile Web ("WAP"). No credit or refund is given for dropped calls. Customers in the State of Washington who have a problem with their SAFELINK Wireless service and are unable to resolve it by contacting Customer Care, may contact the Washington State Attorney General, Consumer Protection Division, by calling 1-800-551-4636.

5. TEXT MESSAGING.

You may use your free monthly allotment of minutes to send and/or open text messages. Text messages sent to you by SAFELINK WIRELESS are free of charge. The charge to send or open an incoming text message using your SAFELINK WIRELESS phone will vary depending upon your plan. Under Plan 1, you will be charged 0.3 minutes per text message for sending and 0.3 minutes per text message for opening a received text message. Under Plans 2 and 3, you will be charged 1 minute per text message for sending and 1 minute per text message for opening a received text message. If you have exhausted your free monthly allotment of minutes, you will need to purchase and redeem additional airtime minutes in order to continue to send text messages and open incoming text messages and to place and receive voice calls. If you do not want minutes deducted from your SAFELINK WIRELESS phone for text messaging, then do not send text messages or open incoming text messages. SAFELINK WIRELESS

does not allow international text messages. Attempting to send international messages could result in service deactivation and de-enrollment from the SAFELINK Program. Please note that SAFELINK WIRELESS does not generally participate in Premium SMS services or campaigns. Premium SMS refers to text messages that are sent to a designated "short code" or buying or attempting to buy SMS services from anyone other than SAFELINK WIRELESS. Premium SMS campaigns include activities such as casting a vote, expressing your opinion, playing a game, subscribing to a service, or interactive television programs. You should not attempt to participate in Premium SMS campaigns unless it is a SAFELINK WIRELESS authorized campaign. Any text message you send to a "short code" will in all likelihood not go through. Any charges you may incur as a result of any attempts to participate in Premium SMS services or campaigns not authorized by SAFELINK WIRELESS are not refundable whether you incur charges as deductions from your SAFELINK WIRELESS phone or from your credit card. You may purchase from SAFELINK WIRELESS ring tones, graphics and certain information services. You may utilize multi-media services with certain SAFELINK WIRELESS models of phones. See SAFELINK WIRELESS Data Services below for more information.

6. INTERNATIONAL CALLING.

International calling is available only if you are enrolled in Plan 1. If you selected Plan Option 1, you may use your SAFELINK WIRELESS phone to make international calls to landlines and some cellular phones in some countries at no additional charge (see www.tracfone.com for available countries and details). The countries where international calling is available under Plan 1 are subject to change at any time without prior notice. In order to place an international call, you will need to dial 1-800-706-3839 (the International Long Distance ("ILD") access number) and follow the instructions. If you are calling from Alaska, Hawaii or the US Virgin Islands, the ILD Access number you should dial is 305-938-5673. Airtime deductions for international calls begin the moment the ILD access number is dialed and apply to dropped calls, misdialed numbers and busy destination numbers. When placing international calls, you may experience connection failures more frequently than calls made within the United States. SAFELINK WIRELESS will not credit airtime minutes deducted for unsuccessful calls. You will not be able to make or receive calls on your SAFELINK WIRELESS phone when you are located outside of the United States, Puerto Rico or the U.S. Virgin Islands (the "Coverage Area"). Any attempt to make or receive calls when you are located outside of the Coverage Area could result in service deactivation and de-enrollment from the SAFELINK Program. International calling is not available under Plan Option 2 or 3.

You agree not to unlock, re-flash, tamper with or alter your SAFELINK WIRELESS phone or its software, enter unauthorized PIN's, engage in any other unauthorized or illegal use of your SAFELINK WIRELESS phone or the Service, or assist others in such acts, or to sell and/or export SAFELINK WIRELESS handsets outside of the United States. Doing so could result in the immediate termination of your service and de-enrollment from the SAFELINK Program. The Carriers, TracFone Wireless, or its service providers, may, from time to time, remotely update or change the encoded information on your SIM card. Your SAFELINK WIRELESS phone is restricted from operating when you are located anywhere outside of the United States, Puerto Rico or the U.S. Virgin Islands, including offshore or in international waters. Any such calls are considered unauthorized usage by TracFone Wireless for which your service will be immediately suspended. In the event of suspension for this or any other unauthorized usage, you will not be entitled to receive any refunds for unused airtime.

11. COVERAGE MAPS AND ROAMING.

You will find coverage maps on our website at www.tracfone.com. These maps are for general informational purposes only. Actual coverage and service areas may vary from the maps and may change without notice. TracFone Wireless does not guarantee coverage or service availability. Even within a coverage area, factors such as terrain, weather, structures, foliage, signal strength, traffic volumes, service outages, network changes, technical limitations, and your equipment may interfere with actual service, quality and availability. "Roaming" occurs when a subscriber of one wireless service provider uses the facilities of another wireless service provider. Roaming most often occurs when you make and receive calls outside of the network coverage area of your service provider. When your SAFELINK WIRELESS phone is roaming, an indicator light on your handset may display the word "Roam" or "RM" on the screen while the phone is not in use. There are no additional charges for roaming calls for the SAFELINK WIRELESS phone you were provided. Availability, quality of coverage and Services while roaming are not guaranteed.

12. LIMITATIONS OF SERVICE AND USE OF EQUIPMENT.

Service is subject to transmission limitations caused by certain equipment and compatibility issues, atmospheric, topographical and other conditions. Further, service may be temporarily refused, limited, interrupted or curtailed due to system capacity limitations, technology migration or limitations imposed by the Carrier, or because of equipment modifications, upgrades, repairs or relocations or other similar activities necessary or proper for the operation or improvement of the Carrier's radio telephone system. At anytime, TracFone Wireless reserves the right to substitute and/or replace any SAFELINKE WIRELESS equipment (including handsets) with other SAFELINK WIRELESS equipment including handsets of comparable quality. Some functions and features referenced in the Manufacturer's manual for a particular SAFELINK WIRELESS handset may not be available on your phone. TracFone Wireless does not warrant or guarantee availability of network or of any Services at any specific time or geographic location or that the Services will be provided without interruption. Neither TracFone Wireless, nor any Carrier, shall have any liability for service failures, outages or limitations of Service. Because of the risk of being struck by lightning, you should not use your SAFELINK WIRELESS phone outside during a lightning storm. You should also

All reported lost and stolen phones will be permanently deactivated. The replacement phone will include only 10 minutes of lost airtime. Any additional airtime that you may have had on your lost phone will not be replaced. In the event you lose your replacement phone or it is stolen, you will need to purchase an additional phone. If a phone is lost or stolen while in transit to the customer before the customer receives the phone, the lost phone and airtime may be replaced as a onetime courtesy in TracFone's sole discretion.

16. EMERGENCY CALLS.

SAFELINK Wireless customers have access to 911. Occasionally, however, callers may attempt to call 911 in areas where there is no wireless coverage. If there is no wireless coverage, your call to 911 may not go though and You should dial 911 from the nearest landline phone.

17. DATA SERVICES.

ith certain SAFELINK WIRELESS phone models, you can download ring tones, graphics, access information services such as news, weather and sports ("Information Services") and utilize multi-media messaging services ("MMS") (ringtones, graphics, Information Services and MMS are collectively referred to as "Data Services") through our Wireless Mobile Web ("WAP"). Data Services are additional Services offered by us at an additional charge in the form of a debit of minutes for Your use of such services.

Accessing and Purchasing Data Services. In order to purchase, download or access Data Services, your handset must have active service and sufficient available airtime minutes. Your handset will not let you open the WAP browser without an airtime balance of at least 10 minutes. Each time you access our Wireless WAP with your handset's browser, 0.5 units per minute will be deducted from your handset ("Access Charges"). Access Charges are deducted in full minute increments. WAP access of less than 60 seconds is rounded up to the next full minute. Access Charges begin when your handset makes a data connection. This should occur shortly after you open your browser, send or receive a multi-media message (e.g., a picture), initiate a content download, view subscribed Information Services or if WAP access is initiated for any other purpose. Access Charges end when the data connection terminates. This should occur shortly after you close your browser, successfully receive or send a multi-media message (e.g., a picture), after a successful content download or after any other closure of a WAP session. The WAP access duration and the related Access Charges are NOT determined from the exact moment you press a button on your handset to open or close the browser.

In addition to the Access Charges, there will be an additional one-time charge for any content you select to download ("Content Charge"). The Content Charges vary depending on the type of content. You will be advised of the Content Charges prior to finalizing your purchase. The Data Services you purchase and download may only be used or viewed on the handset for which they were purchased and cannot be transferred to any other device, including a new or replacement handset. Data Services are non-refundable and non-transferable.

Purchase Options for Data Services: You may purchase Data Services either through your handset's WAP browser or through the Internet (accessed with a personal computer) at www.tracfone.com

When you purchase Data Services from the Internet at www.tracfone.com, the Content Charge will be shown in both U.S. Dollars and in minutes. You will have the opportunity to select one of two payment options: (1) using a credit card to pay the purchase price shown, or (2) a direct deduction of minutes from your SAFELINK WIRELESS handset. If you buy a TracFone card the number of minutes to be charged is based on the last airtime card added to your handset. See Purchasing Data Services With Airtime Minutes below.

How to purchase from the Internet (www.tracfone.com): Go to "Downloads and More" at www.tracfone.com and enter your SAFELINK WIRELESS serial number (ESN /IMEI) and SAFELINK Wireless Number. This will take you to the Wireless Data Services content catalog where you can browse, sample and purchase ringtones and/or graphics. After you find a title and select "Buy," you will be presented with the two purchase options described above.

How to purchase through your handset's WAP browser: Select "BROWSER" on your handset then select "Start Browser" and you will be presented with a menu. When you use your handset's WAP browser to purchase Data Services, only the unit charge purchase option is available. You may not purchase Data Services through your handset using a Credit card. Note: Ringtones can only be sampled at www.tracfone.com

Purchasing Data Services With Airtime Minutes: If you add TracFone airtime cards, the charges for Data Services purchases are determined by the last airtime card added to your handset. The chart below details the number of minutes you will be charged for each dollar you spend for the Data Services you purchase. Your phone will be assigned the appropriate dollar-to-minute conversion factor each time an airtime card is added to your handset. This provision is intended to encompass all disputes or claims arising out of your relationship with TracFone Wireless, arising out of or relating to the SAFELINK Service or any equipment used in connection with the SAFELINK Service (whether based in contract, tort, statute, fraud, misrepresentation or any other legal theory). All issues are for the arbitrator to decide, including the scope of this arbitration clause, but the arbitrator is bound by the terms of this agreement. You and TracFone Wireless agree that any arbitration will be conducted on an individual basis and not on a consolidated, class wide or representative basis. Further, you agree that the arbitrator may not consolidate proceedings or more than one person's claims, and may not otherwise preside over any form of a representative or class proceeding, and if this preclusion of consolidated, class wide or representative proceedings is found to be unenforceable, then this entire arbitration clause shall be null and void. All fees and expenses of arbitration will be divided between you and TracFone Wireless in accordance with the WIA Rules, except that TracFone Wireless will reimburse you for the amount of the filing fee in the event you prevail in the arbitration. Each party will bear the expenses of its own counsel, experts, witnesses, and preparation and presentation of evidence. If for any reason this arbitration provision is deemed inapplicable or invalid, or to the extent this arbitration provision allows for litigation of disputes in court, you waive to the fullest extent permitted by law, (i) the right to a trial by jury and (ii) any claims for punitive or exemplary damages. Unless TracFone Wireless and you agree otherwise, the location of any arbitration shall be Miami, Florida. Except where prohibited by law, TracFone Wireless and you agree that no arbitrator has the authority to award punitive damages or any other damages not measured by the prevailing party's actual damages. Neither you nor TracFone Wireless shall disclose the existence, contents, or results of any arbitration, except to the extent required by law. Judgment on the award rendered may be entered by any court of competent jurisdiction.

This Agreement shall be construed under the laws of Florida, without regard to its choice of law rules, except for the arbitration provision contained in these Terms and Conditions, which will be governed by the Federal Arbitration Act. This governing law provision applies no matter where You reside, or where You use or pay for the Services.
