

Application of Frontier Communications
Appendix B
Statement Regarding Use of Third Parties

As Senior Vice President and General Manager of Frontier Communications, I have responsibility for network construction, operation and maintenance for the state of Oregon. Frontier owns, constructs, operates and maintains the entire FiOS (FTTP) GPON network including all aggregation points in Oregon. Frontier's fiber to the home network has been in place for several years and all technical upgrades and expansion of the network has been completed by Frontier employees. Equipment in the Central Office provided by Calix and Juniper are provided per Frontier specifications and installed by Frontier employees. All required work concerning the scope of this project will be completed by Frontier.

The Company hereby commits that should its network depend on a third party to provide the qualified service (as that term is defined in OAR 860-200-0050(5)), the Company will use commercially reasonable practices to ensure that the use of any third party will not impede the performance of the project's infrastructure in providing the Company's qualified service.
