

**BEFORE THE PUBLIC UTILITY COMMISSION
OF OREGON**

UCB 67

REVTEK LLC,

Complainant,

vs.

NORTHWEST NATURAL GAS
COMPANY,

Defendant.

MEMORANDUM

On August 5, 2016, I issued a ruling adopting the following schedule:

EVENT	DATE
Last Day to Request Discovery	August 25, 2016
Joint Issues List and Stipulated Facts due	September 9, 2016
Hearing (if necessary, due to existence of contested issues or facts)	To Be Determined
Parties' Opening Briefs due	September 22, 2016
Parties' Reply Briefs due	October 5, 2016

Pursuant to that schedule, on September 9, 2016, the parties filed a Joint Issues List and Stipulated Facts. The sole issue the parties identified in this proceeding was the following:

Whether NW Natural appropriately applied the Weather Adjustment Rate Mechanism ("WARM") to complainant's June bills following the 2014-2015 winter heating season.

The issue described by the parties does not indicate that there are any material facts in dispute. Consequently, unless the Commission is notified on or before Monday, September 19, 2016 at 4:00 p.m. that there are disputed facts and that a hearing is being requested, the parties will be deemed to have waived their opportunity for a hearing and the Commission will rely upon the briefing process according to the adopted schedule. Any request for a hearing must identify the factual issues in dispute.

Dated this 15th day of September, 2016, at Salem, Oregon.

Allan J. Arlow
Administrative Law Judge
