Reconsideration of Order No. 05-1050.)	

DISPOSITION: CAPTION CHANGED TO REFLECT
RECONSIDERATION PORTION OF DOCKET

Docket No. UE 170 has two related, but separate, proceedings occurring simultaneously. One proceeding involves the Klamath irrigation rate issue, while the other proceeding is the reconsideration of the general rate case order. Additionally, each proceeding is assigned to a different Administrative Law Judge. In an attempt to easily distinguish the filings as to which docket they apply, please change the caption of all future filings in the reconsideration docket to the caption used above. The Administrative Hearings Division will then place the term "RECON" in the subject line of all emails containing links to new filings in the reconsideration docket, as well as the first word in the docketed filing's description. Hopefully, this will help the parties sort through the numerous filings.

Dated this 19th day of January 2006.

Kathryn A. Logan
Administrative Law Judge
