

**BEFORE THE PUBLIC UTILITY COMMISSION
OF OREGON**

UM 1788

In the Matter of

PORTLAND GENERAL ELECTRIC
COMPANY,

2016 Revised Renewable Portfolio
Implementation Plan.

RULING

DISPOSITION: MOTION GRANTED; RULE WAIVED; SCHEDULE
ADOPTED

On August 17, 2016, Commission Staff filed an unopposed request to waive the time set by OAR 860-083-0400(8) for filing comments in this docket. Staff also moves that the Commission adopt a procedural schedule agreed to by Portland General Electric Company, the Industrial Customers of Northwest Utilities, Renewable Northwest, the Citizens' Utility Board of Oregon, and Staff.

In support of its request, Staff states that the rule provides that Staff and other interested persons may file written comments within 45 calendar days of the filing, that the company has 30 days in which to file a written response and that Staff should present its recommendation at a Commission public meeting within 120 days of the filing date. However, Staff states that, in light of the complexity and importance of PGE's filing, the parties believe additional time is warranted. Staff states that the proposed schedule will allow for final Commission action no later than six months after the filing of PGE's Renewable Portfolio Standard Implementation Plan.

For good cause shown, OAR 860-083-0400(8) is waived and the following schedule is adopted:

Staff and Intervenor Opening Comments	September 12, 2016
PGE Response Comments	November 7, 2016
Staff Public Meeting Memo Posted on PUC Website (tentative)	December 9, 2016
Commission Special Public Meeting	December 15, 2016, 1:30 pm

Dated this 25th day of August, 2016 at Salem, Oregon.

Michael Grant
Chief Administrative Law Judge
