Subject: Filing Dates

As we discussed at the telephone conference this morning, Sierra Club's motion for a concurrent schedule is denied. The following filing dates are adopted:

Sierra Club's Motion Challenging Designation of Confidential Information

PacifiCorp Response – September 5, 2014
Sierra Club Reply – September 19, 2014

Sierra Club's Violation of Protective Order

Sierra Club's Reply – September 5, 2014

It was also agreed that, in responding to Sierra Club's Motion, PacifiCorp will make best efforts to describe and explain the confidentiality of oral discussions at the August 6 workshop. Upon reviewing the response, Sierra Club may request the workshop be transcribed for a more detailed explanation.

Finally, Sierra Club may request an oral argument before the Commission on the violation of the protective order – a request that PacifiCorp would not oppose.
