

**BEFORE THE PUBLIC UTILITY COMMISSION
OF OREGON
UM 1509**

In the Matter of)	NOTICE OF ADDITIONAL UNDERLYING CARRIER
i-wireless, LLC)	
Application for Designation as an Eligible Telecommunications Carrier in Oregon for the Purpose of Offering Lifeline Service to Qualified Households)	EXPEDITED CONSIDERATION REQUESTED

i-wireless, LLC d/b/a Access Wireless (“i-wireless” or the “Company”) hereby notifies the Public Utility Commission of Oregon (“Commission”) that i-wireless is in process of transitioning from Sprint Spectrum L.P. (“Sprint”) to T-Mobile USA, Inc. (“T-Mobile”) as the Company’s underlying facilities-based wireless network provider (“Underlying Carrier”).

BACKGROUND

i-wireless was designated by the Commission as an Eligible Telecommunications Carrier (“ETC”) and Eligible Telecommunications Provider (“ETP”) by Order No. 15-300 entered September 29, 2015 in this docket (“ETC Designation Order”) for the purpose of offering Lifeline and Oregon Telephone Assistance (OTAP) services in Oregon. The Commission expanded i-wireless’ designated ETC/ETP service area by Order No. 16-426 entered November 8, 2016 (“Expansion Order”). Paragraph 14 of the adopted Stipulation attached to the ETC Designation Order as Appendix A states:

“[I]f i-wireless discontinues or expands the use of Sprint facilities to provide Lifeline services in Oregon, or expands coverage through use of wireless facilities of another carrier, it will file notice with the Commission in Docket No. UM 1509 at least thirty (30) days prior to the network change. After notice is filed, Staff will perform a review of i-wireless's remaining wireless coverage and may

recommend that the Commission modify i-wireless's designated service area as may be appropriate.”

i-wireless was required to enter into an agreement with T-Mobile as an underlying carrier due to a merger between Sprint and T-Mobile approved by the Federal Communications Commission (“FCC”)¹ which initiated the gradual consolidation of the Sprint network under T-Mobile and necessitated that i-wireless transition to enrolling customers on the T-Mobile network.

DISCUSSION

Use of the T-Mobile wireless network will allow i-wireless to service additional zip codes in Oregon. i-wireless provides the attached revised zip code list (Exhibit A) and designated service area map (Exhibit B) to reflect the additional zip codes, as well as a T-Mobile wireless coverage map (Exhibit C). i-wireless commits to offering Lifeline and OTAP services to eligible residents in the expanded service area subject to the conditions in Order No. 15-300 and consistent with applicable state and federal requirements.

i-wireless is aware of seven (7) zip codes that will remain on the legacy Sprint network through the end of 2021 or until T-Mobile transitions to incorporate the respective zip codes into the upgraded T-Mobile network: 97130, 97135, 97147, 97200, 97336, 97444, and 97465. i-wireless has six (6) Lifeline subscribers within these zip codes and does not anticipate any service disruption to these subscribers (if i-wireless determines otherwise, the Company will provide advanced notice to the Commission and to affected subscribers).

Expansion of i-wireless’ designated service area will serve the public interest by making the Company’s Lifeline services available to more low-income Oregonians, as well as prevent any disruption of service as the Company ultimately transitions from Sprint to T-Mobile.

¹ See FCC 19-103, Order released Nov. 5, 2019, WT Docket 18-197.

CONCLUSION

Based on the foregoing, i-wireless respectfully requests that the Commission permit the expansion of i-wireless' ETC and ETP service area to encompass T-Mobile's network coverage.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Sam Bailey", written over a horizontal line.
