Re: UM 1668 – Delay in Upgraded Lifeline Service Offerings of Boomerang Wireless, LLC

Dear Ms. Collins:

On June 2, 2017 and June 23, 2017, Boomerang Wireless, LLC (“Boomerang”) provided the Oregon Public Utility Commission (the “Commission”) with notices concerning proposed upgrades to Boomerang’s non-Tribal and Tribal Lifeline service plans in Oregon. As indicated in the notices, Boomerang planned to make its upgraded service plans available to customers beginning on July 5, 2017.

Because of unforeseen technical difficulties, Boomerang has not yet been able to launch the upgraded plans or make them available to customers. Boomerang will make a filing in this docket, UM 1668, within ten days of the date that the upgraded service plans are made available.

Once the new plans launch, they will be offered to new customers. Current customers who request the new plans will be switched to the new plans on their next monthly service anniversary following their request. Current customers who do not make a request will be upgraded on the next monthly service anniversary following their next annual recertification.

Please contact the undersigned if you have any questions regarding this filing.

Very truly yours,

DAVIS WRIGHT TREMAINE LLP
