**Re: Withdrawal of Tariff Advice No. 16-16  
Docket No. UM 1801 – In the Matter of the Application of IDAHO POWER  
COMPANY for Authority to Implement Revised Depreciation Rates for Electric  
Plant-in-Service**

Attention Filing Center:

On December 28, 2016, Idaho Power Company ("Idaho Power" or "Company") filed tariff sheets pursuant to the Procedural Schedule adopted in Docket No. UM 1801, Idaho Power's request for authority to implement revised depreciation rates for electric plant-in-service. The tariff sheets reflected the rates resulting from Idaho Power's proposed increase in the Company's Oregon jurisdictional revenue requirement of \$721,548. On May 5, 2017, the Public Utility Commission of Oregon ("Commission") Staff ("Staff"), the Citizens' Utility Board of Oregon, and Idaho Power filed a stipulation resolving all issues associated with Idaho Power's request, agreeing to an increase in the Oregon jurisdictional revenue requirement of \$300,000 effective June 1, 2017.

In addition to Docket No. UM 1801, the stipulation filed in Docket No. UE 314, Idaho Power's Annual Power Cost Update, if approved, will result in changes to base rates effective June 1, 2017, or changes to the same tariff sheets filed in Advice No. 16-16. As a result, Commission Staff agreed that the Company should withdraw Tariff Advice No. 16-16 and instead submit one compliance filing to update tariff sheets resulting from the final orders in both Docket Nos. UM 1801 and UE 314.

If you have any questions regarding this withdrawal, please call Senior Regulatory Analyst Courtney Waites at (208) 388-5612.

Very truly yours,
