

ORDER NO. 16 385

ENTERED OCT 18 2016

**BEFORE THE PUBLIC UTILITY COMMISSION  
OF OREGON**

UM 1497(6)

In the Matter of

AVISTA CORPORATION dba AVISTA  
UTILITIES,

Application for Reauthorizing Deferral of  
Certain Costs Related to Purchased Gas Cost  
Differences.

ORDER

DISPOSITION: STAFF'S RECOMMENDATION ADOPTED

At its Special Public Meeting on October 18, 2016, the Public Utility Commission of Oregon adopted Staff's recommendation in this matter. The Staff Report with the recommendation is attached as Appendix A.

BY THE COMMISSION:

  
**Kristi Collins**  
Commission Secretary

A party may request rehearing or reconsideration of this order under ORS 756.561. A request for rehearing or reconsideration must be filed with the Commission within 60 days of the date of service of this order. The request must comply with the requirements in OAR 860-001-0720. A copy of the request must also be served on each party to the proceedings as provided in OAR 860-001-0180(2). A party may appeal this order by filing a petition for review with the Circuit Court for Marion County in compliance with ORS 183.484.

ITEM NO. CA12

PUBLIC UTILITY COMMISSION OF OREGON  
STAFF REPORT  
PUBLIC MEETING DATE: October 18, 2016

REGULAR \_\_\_\_\_ CONSENT X EFFECTIVE DATE November 1, 2016

DATE: October 9, 2016

TO: Public Utility Commission

FROM: Mitchell Moore *MP m*

THROUGH: *JE* Jason Eisdorfer and Marc Hellman *AK*

SUBJECT: AVISTA UTILITIES: (Docket No. UM 1497(6)) Requests reauthorization to defer Purchased Gas Cost differences.

**STAFF RECOMMENDATION:**

Staff recommends the Commission approve Avista Utilities' (Avista or Company) application to defer purchased gas cost differences for the 12-month period beginning November 1, 2016.

**DISCUSSION:**

Issue

Whether the Commission should approve Avista's request to use deferred accounting for purchased gas cost differences for the 12-month period beginning November 1, 2016.

Applicable Law

The Purchase Gas Adjustment (PGA) mechanism was originally established by the Commission in Order No. 89-1046 to minimize the frequency of gas cost-related rate changes and the fluctuation of rate levels in accordance with ORS 757.259(2)(e) and OAR 860-027-0300(4).

Unless subject to an automatic adjustment clause under ORS 757.210(1), amounts deferred under ORS 757.259(5) are allowed in rates only to the extent authorized by the Commission in a proceeding under ORS 757.210, to change rates, upon a prudence review, and review of the utility's earnings. With some exceptions, a company's amortization of amounts deferred under ORS 757.259(5) cannot exceed an amount equal to three percent of the company's gross revenues from the preceding year.

[ORS 757.259(6)]. Commission Order No. 08-263 sets out the applicable interest rates to use for deferral accounts and to use when such amounts are amortized.

Previous approval of this deferral was most recently granted by Order No. 14-320.

### Discussion and Analysis

#### Description of Expense

The purpose of this deferral is to account for the monthly difference between gas costs expected to be collected from customers and gas costs actually collected, as set forth in Schedule No. 461 – Purchased Gas Cost Adjustment Provision – Oregon. The monthly differences arise because the rates associated with gas costs are calculated using forecasted gas prices and therms. A request to amortize the accumulated deferral is made annually, effective November 1.

#### Proposed Accounting

Avista proposes to continue deferring to sub-accounts of FERC Account 191 for subsequent distribution to, or collection from, customers consistent with the dictates of the PGA methodology. Gas cost differences will be segregated between commodity-related and demand-related cost differences. Absent deferred accounting, the charges incurred for gas costs would be recorded using standard accounting procedures and customers would not incur the benefits or costs associated with changes in the cost of gas.

#### Estimated Deferrals in Authorization Period

The goal of the PGA mechanism is to match gas costs incurred by the Company with gas costs included in customer rates. Any differences are the result of unexpected weather or volatility in gas prices, thereby making an accurate estimation of the deferred amount unlikely.

#### Information Related to Future Amortization

- Earnings Review – An annual spring earnings review will be conducted pursuant to OAR 860-022-0070.
- Prudence Review – Prior to amortization, a prudence review will be conducted. The review should include verification of the accounting methodology used to determine the final amortization balance.
- Sharing – Due to Avista's previous sharing election related to the 2016-2017 PGA year, 90 percent of the difference between actual commodity costs and the commodity costs collected from customers will be deferred. Avista will absorb the other 10 percent. The commodity portion of purchased gas cost differences

include purchasing natural gas, the variable cost of transporting the gas from the supply basin to the citygate, the benefits received from storage optimization, off-system sales, and other miscellaneous costs or benefits. One hundred percent of the demand portion of the purchased gas cost differences will be deferred. The demand portion includes fixed pipeline costs, capacity releases, and miscellaneous pipeline related refunds or surcharges.

- Rate Spread/Design – Prudently incurred gas cost differences that have been correctly accounted for should be developed into a rate per therm based on estimated usage for the upcoming PGA year.
- Three Percent Test [ORS 757.259(6)] – The three percent test measures the annual overall average effect on customer rates resulting from deferral amortizations. The three percent test limits [exceptions at ORS 757.259(7) and (8)] the aggregated deferral amortizations during a 12-month period to no more than three percent of the utility's gross revenues for the preceding year.
- This deferral is subject to the exception at ORS 757.259(7) that allows the Commission to consider an overall average rate impact greater than that specified in subsection (6) for natural gas commodity and pipeline transportation costs incurred by a natural gas utility, if the commission finds that allowing a higher amortization rate is reasonable under the circumstances.

#### Conclusion

Avista's application for reauthorization of deferred accounting meets the requirements related to the establishment of the PGA mechanism, as well as the requirements of ORS 757.259 and OARs 860-027-0300, and should be approved.

#### **PROPOSED COMMISSION MOTION:**

Approve Avista's application for reauthorization to defer gas cost-related differences associated with the PGA mechanism for accounting purposes for the 12-month period beginning November 1, 2016.
