

ORDER NO. 17 308

ENTERED AUG 11 2017

**BEFORE THE PUBLIC UTILITY COMMISSION
OF OREGON**

UM 1835

In the Matter of

AVANGRID RENEWABLES LLC,

2016 Renewable Portfolio Standard
Compliance Report.

ORDER

DISPOSITION: STAFF'S RECOMMENDATION ADOPTED

This order memorializes our decision, made and effective at our August 8, 2017 Regular Public Meeting, to adopt Staff's recommendation in this matter. The Staff Report with the recommendation is attached as Appendix A.

Dated this 11th day of August, 2017, at Salem, Oregon.

Lisa D. Hardie
Chair

Stephen M. Bloom
Commissioner

Megan W. Decker
Commissioner

A party may request rehearing or reconsideration of this order under ORS 756.561. A request for rehearing or reconsideration must be filed with the Commission within 60 days of the date of service of this order. The request must comply with the requirements in OAR 860-001-0720. A copy of the request must also be served on each party to the proceedings as provided in OAR 860-001-0180(2). A party may appeal this order by filing a petition for review with the Circuit Court for Marion County in compliance with ORS 183.484.

ORDER NO.

17 308

ITEM NO. CA5

PUBLIC UTILITY COMMISSION OF OREGON
STAFF REPORT

PUBLIC MEETING DATE: August 8, 2017

REGULAR _____ CONSENT X EFFECTIVE DATE August 9, 2017

DATE: July 26, 2017

TO: Public Utility Commission

FROM: Paul Rossow *PR*

THROUGH: *J* Jason Eisdorfer and *JC* John Crider

SUBJECT: AVANGRID RENEWABLES, LLC: (Docket No. UM 1835) 2016
Renewable Portfolio Standard Compliance Report.

STAFF RECOMMENDATION:

Staff recommends that, based upon the Avangrid Renewables, LLC's (Avangrid) 2016 Renewable Portfolio Standard (RPS) Compliance Report (Compliance Report) for 2016, the Commission: (1) find that Avangrid complied with the RPS for the 2016 compliance period; and (2) direct Avangrid to retire the renewable energy certificates (RECs) identified in its Compliance Report, and to provide a Western Renewable Energy Generation Information System (WREGIS) retirement report to the Commission, subject to appropriate non-disclosure agreements, within 30 calendar days of the Commission's Order.

DISCUSSION:

Issue

Whether Avangrid's Compliance Report for the year 2016, filed on May 10, 2017, complies with all applicable laws.

Applicable Laws

ORS 469A.065 requires electricity service suppliers (ESS) to meet RPS requirements that are applicable to the electric utilities that serve the territories in which the ESS sells electricity to retail electricity customers.

Docket No. UM 1835
July 26, 2017
Page 2

OAR 860-083-0350(1)(b) requires that each ESS subject to Oregon's RPS provide an annual report demonstrating its compliance or explain in detail its failure to comply with the RPS. OAR 860-083-0350(2) sets forth specific information that the ESS must address in its Compliance Report.

Among other reporting details required by OAR 860-083-0350(2)(a-s), the Compliance Report must contain a complete accounting of the RECs used for compliance in the compliance year, separating the RECs into bundled or unbundled categories, showing clearly which generating unit produced the RECs, and the total cost of compliance.

OAR 860-083-0300(2)(a) defines the compliance cost limit for an ESS as four percent of the weighted average of the average retail revenues per megawatt-hour (MWh) of the electric companies in whose service areas the ESS sells electricity. One REC is issued per megawatt-hour of renewable generation produced. See OAR 330-160-0015(16).

Analysis

RPS compliance may be demonstrated through the retirement of RECs that are maintained through the WREGIS. RECs may be either bundled with energy or exchanged separate from the energy (unbundled).

As an ESS, Avangrid must meet the requirements of the RPS that apply to the electric utilities that serve the territories serviced by Avangrid. Avangrid serves customers in the territory of Pacific Power. Therefore, for the compliance year 2016, Avangrid must meet its RPS target through the retirement of RECs equal to 15 percent of its retail load or provide an alternative compliance payment. Avangrid's 2016 RPS Compliance Report demonstrates compliance with the RPS through the use of unbundled RECs.

There are two mechanisms that serve as cost protections for Oregon consumers – an alternative compliance payment (ACP) mechanism and a cost cap on RPS expenditures equal to four percent of annual revenue requirement. In lieu of procuring renewable resources, utilities are allowed to pay an ACP and the funds are placed in a holding account to be spent on energy conservation programs or for procuring additional eligible resources.¹

Staff is in agreement with Avangrid's calculation of the total cost of compliance and the percentage of revenue requirement that this cost represents. Staff found that Avangrid's total cost of compliance is below the cost cap of four percent of revenue requirement established by law.

¹ See ORS 469A.180(4), OAR 860-083-0300(2)(a), and OAR 860-083-0300(3)(b)(A).

Docket No. UM 1835
July 26, 2017
Page 3

Conclusion

Staff finds that Avangrid's 2016 Report demonstrates that it complied with the RPS by the purchase and planned retirement of unbundled RECs equivalent to 15 percent of the electricity that Avangrid sold to retail electricity consumers.

PROPOSED COMMISSION MOTION:

- (1) Find that Avangrid has complied with Oregon's Renewable Portfolio Standard during the 2016 compliance period; and
- (2) Avangrid is directed to retire the RECs identified in its Compliance Report and to provide a WREGIS retirement report to the Commission, subject to appropriate non-disclosure agreements, within 30 calendar days of this Order.
