

ORDER NO. 18 156

ENTERED MAY 08 2018

**BEFORE THE PUBLIC UTILITY COMMISSION
OF OREGON**

UM 1807(1)

In the Matter of

NORTHWEST NATURAL GAS
COMPANY, dba NW NATURAL,

Application for Authorization to Defer Certain
Expenses and Revenues Associated with
Costs of Hiring a Third-Party Evaluator.

ORDER

DISPOSITION: STAFF'S RECOMMENDATION ADOPTED

At its public meeting on May 8, 2018, the Public Utility Commission of Oregon adopted Staff's recommendation in this matter. The Staff Report with the recommendation is attached as Appendix A.

BY THE COMMISSION:

Michael Dougherty
Chief Operating Officer

A party may request rehearing or reconsideration of this order under ORS 756.561. A request for rehearing or reconsideration must be filed with the Commission within 60 days of the date of service of this order. The request must comply with the requirements in OAR 860-001-0720. A copy of the request must also be served on each party to the proceedings as provided in OAR 860-001-0180(2). A party may appeal this order by filing a petition for review with the Circuit Court for Marion County in compliance with ORS 183.484.

ORDER NO. 18 156

ITEM NO. CA8

PUBLIC UTILITY COMMISSION OF OREGON
STAFF REPORT

PUBLIC MEETING DATE: May 8, 2018

REGULAR _____ CONSENT X EFFECTIVE DATE January 5, 2018

DATE: May 1, 2018

TO: Public Utility Commission

FROM: Mitchell Moore *MP*

THROUGH: Jason Eisdorfer and John Crider *JE JC*

SUBJECT: NORTHWEST NATURAL: (Docket No. UM 1807(1)) Requests
Authorization for Deferred Accounting of Costs Associated with an
Interstate Storage Cost Allocation Study.

STAFF RECOMMENDATION:

Staff recommends that the Commission approve Northwest Natural's (NW Natural or Company) application for deferred accounting of costs for the twelve month period from January 5, 2018, to January 4, 2019, related to hiring a neutral third party to conduct an evaluation and cost allocation study (Study) of the Company's revenue sharing mechanisms associated with its interstate storage and optimization activities.

DISCUSSION:

Issue

Whether the Commission should approve NW Natural's request for deferred accounting for costs related to hiring a neutral third party to conduct a Study of the Company's revenue sharing mechanisms associated with its interstate storage and optimization activities.

Applicable Rule or Law

NW Natural submitted its deferral application on January 3, 2018, pursuant to ORS 757.259 and OAR 860-027-0300. ORS 757.259 provides the Commission with authority to authorize the deferral of utility revenues and expenses for later inclusion in rates. OAR 860-027-0300 is the Commission's rule governing the use of deferred accounting by energy and large telecommunications utilities.

Analysis

Background

In Docket No. UM 1654, *In the Matter of NW Natural, Investigation of Interstate Storage and Optimization Sharing*, the Commission reviewed NW Natural's revenue sharing arrangement relating to NW Natural's interstate storage and optimization activities.¹ In that docket, the Commission issued Order No. 15-066, which directed that a cost allocation study and evaluation be performed by a neutral third party (Study).² In the Order, the Commission authorized NW Natural to receive cost recovery for the Study.³ The Commission most recently approved deferral accounting for these costs On January 24, 2018 in Order No. 17-024

Following the issuance of the Order, NW Natural, the Staff of the Commission, the Citizens' Utility Board of Oregon, and the Northwest Industrial Gas Users formed a Steering Committee, as directed by the Commission. The Steering Committee selected and then hired Liberty Consulting Group as the third-party evaluator. The report was completed and filed with the Commission on February 18, 2018.

Reason for Deferral

NW Natural states that the granting of this Application will minimize the frequency of rate changes and match appropriately the costs borne by and benefits received by customers. The Company also notes that the Commission previously authorized NW Natural to recover the costs of the Study.

Proposed Accounting

NW Natural proposes to account for the costs associated with the consultant by recording the deferral in Account 186420. In the absence of approval of deferred accounting, NW Natural would record the amounts in an operations and maintenance account affecting the Company's income statement.

Estimated Deferrals in Authorization Period

In the previous deferral period for the 12 months beginning January 5, 2018, NW Natural deferred approximately \$290,800. Now that the report is complete, the Company does not anticipate significant costs to be incurred in the current period.

Information Related to Future Amortization

- Earnings Review – ORS 757.259(5) requires the Commission to review the utility's earnings at the time of application to amortize the deferral for amounts deferred pursuant to ORS 757.259(2)(e).
- Prudence Review – For amortization, a prudence review should be completed to verify prudence of the costs.
- Sharing – The Commission Order No. 15-066 did not mandate any sharing. Therefore Staff does not recommend any sharing of the cost being considered for deferral.
- Rate Spread/Design – Account balances will be spread to the appropriate customer classes on the same basis as was done in past Commission orders for these types of costs.
- Three Percent Test (ORS 757.259(6)) – The three percent test measures the annual overall average effect on customer rates resulting from deferral amortizations. The three percent test limits the aggregated deferral amortizations during a 12-month period to no more than three percent of the utility's gross revenues for the preceding year. Subsection (7) permits the Commission to allow an overall average rate impact greater than three percent for a natural gas utility if the commission finds that allowing a higher amortization rate is reasonable under the circumstances.

Conclusion

Staff concludes that the Company's application to authorize deferral of the costs associated with hiring a third party evaluation and cost allocation study of the Company's revenue sharing mechanisms associated with its interstate storage and optimization activities is consistent with ORS 757.259, and should be approved by the Commission.
