ORDER NO. 19-087

ENTERED Mar 14, 2019

BEFORE THE PUBLIC UTILITY COMMISSION OF OREGON

UM 1810

In the Matter of

PACIFICORP, dba PACIFIC POWER,

ORDER

Application for Transportation Electrification Programs.

DISPOSITION: ORDER NO. 18-075 AMENDED

We amend Order No. 18-075 to address an element of that decision which would inadvertently limit the duration of PacifiCorp, dba Pacific Power's transportation electrification pilot programs. PacifiCorp filed a motion to amend Order No. 18-075 on February 25, 2019. The motion explains that the stipulation attached and incorporated in the order includes language that was drafted assuming that programs could be implemented over three years; but used language that included specific dates. The overall length of the proceeding resulted in firm fixed dates referred to in the stipulation creating restrictions in the program that inadvertently limited programing to less than three years.

PacifiCorp's motion to amend Order No. 18-075 should be granted. The intent of the parties in pursuing the stipulation we approved in Order No. 18-075 was to instigate three years of pilot programing. Parties that signed the stipulation support PacifiCorp's request, and no party opposes it.

ORDER

It is ordered that:

1. Order No. 18-075 is amended as described in PacifiCorp's motion. The approved stipulation is amended as outlined below.

Paragraph 2 of the original Stipulation is modified to read as follows:

Program expenses will be capped at \$1.85 million during the first three years of the pilot period. The company clarifies that only the Equipment and Installation line item in the proposed budget and a portion of the Program Administration directly attributable to bringing the charging pods into service will be treated as capital expenses. All other program costs will be treated as operations and maintenance (O&M) items.

Paragraph 7 of the original Stipulation is modified to read as follows:

Program expenses during the three-year pilot period will be capped at \$1.105 million, less a reduction of 50 percent of the company's initial proposed budgets for Customer Communications and Community Events, which the Stipulating Parties agree will be used as described in item 17 below.

Paragraph 9 of the original Stipulation is modified to read as follows:

Program expenses will be capped at \$1.685 million during the three-year pilot period. The company clarifies that all line items in the proposed program expenses are O&M items.

Paragraph 21 of the original Stipulation is modified to read as follows:

PacifiCorp will provide progress updates on all transportation electrification pilot programs and pilots to the Commission by March 31, 2019, and March 31, 2020.

Paragraph 22 of the original Stipulation is modified to read as follows:

PacifiCorp will provide a report to the Commission on all pilot activities, including the results of program evaluation activities, by June 30, 2021.

2. The remainder of Order No. 18-075 is unchanged.
