

ORDER NO. 20-223

ENTERED Jul 15 2020

**BEFORE THE PUBLIC UTILITY COMMISSION  
OF OREGON**

UM 1843(3)

In the Matter of

IDAHO POWER COMPANY,

Application for Reauthorization to Defer  
Costs Associated with Boardman Operating  
Life Adjustment Variances.

ORDER

**DISPOSITION: STAFF'S RECOMMENDATION ADOPTED**

At its public meeting on July 14, 2020, the Public Utility Commission of Oregon adopted Staff's recommendation in this matter. The Staff Report with the recommendation is attached as Appendix A.

BY THE COMMISSION:

**Nolan Moser**

Chief Administrative Law Judge

A party may request rehearing or reconsideration of this order under ORS 756.561. A request for rehearing or reconsideration must be filed with the Commission within 60 days of the date of service of this order. The request must comply with the requirements in OAR 860-001-0720. A copy of the request must also be served on each party to the proceedings as provided in OAR 860-001-0180(2). A party may appeal this order by filing a petition for review with the Circuit Court for Marion County in compliance with ORS 183.484.

**PUBLIC UTILITY COMMISSION OF OREGON  
STAFF REPORT  
PUBLIC MEETING DATE: July 16, 2020**

**REGULAR** \_\_\_\_ **CONSENT**  X  **EFFECTIVE DATE**  June 1, 2020

**DATE:** July 6, 2020

**TO:** Public Utility Commission

**FROM:** Mitchell Moore

**THROUGH:** Bryan Conway, Michael Dougherty, John Crider, and Matt Muldoon **SIGNED**

**SUBJECT:** IDAHO POWER COMPANY:  
(Docket No. UM 1843(3))  
Requests reauthorization to defer revenues and costs associated with  
Boardman Operating Life Adjustment.

**STAFF RECOMMENDATION:**

Staff recommends the Public Utility Commission of Oregon (Commission) approve Idaho Power Company's (Idaho Power, IPC, or Company) request to defer costs and revenues related to Boardman Operating Life Adjustment variances for the 12-month period beginning June 1, 2020.

**DISCUSSION:**

Issue

Whether the Commission should approve Idaho Power's reauthorization request to defer, for future true-up, the decommissioning revenues collected and costs incurred as a result of the early retirement of the Boardman power plant (Boardman).

Applicable Law

Idaho Power submitted its deferral application on May 29, 2020, pursuant to ORS 757.210, ORS 757.259, and OAR 860-027-0300. ORS 757.259 provides the Commission with authority to authorize the deferral of utility revenues and expenses for later inclusion in rates only to the extent authorized by the Commission in a proceeding under ORS 757.210. ORS 757.210 sets forth the law regarding utility filings of any rate or schedule of rates stating or establishing a new rate or schedule of rates that are fair,

just, and reasonable. OAR 860-027-0300 is the Commission's rule governing the use of deferred accounting by energy and large telecommunications utilities.

### Analysis

#### *Background*

In June 2012, the Commission issued Order No. 12-235, approving the establishment of Schedule 92, the balancing account to track the cumulative difference between actual revenues and the Company's revenue requirement resulting from the early shutdown of Boardman. Idaho Power owns a 10 percent interest in Boardman.

On May 12, 2017, Idaho Power filed revisions to Schedule 92, adding language indicating the Boardman Operating Life Adjustment as an automatic adjustment clause (AAC) to promote consistency among similar AACs. At its May 30, 2017, public meeting, the Commission approved Idaho Power's Advice No. 17-04, establishing an automatic adjustment clause for collection of Boardman early retirement costs, including separately tracking decommissioning costs and revenues to promote transparency.<sup>1</sup>

#### *Proposed Accounting*

Idaho Power proposes to record the deferred costs and revenues in FERC Account 182 (Regulatory Assets) until decommissioning activities are concluded. The net balance in Account 182 will earn interest equal to Idaho Power's current authorized rate of return (ROR) of 7.757 percent.<sup>2</sup> Once decommissioning activities have finished, the net balance in the balancing account will be recovered or refunded in customer rates, through a surcharge or credit, as appropriate.

#### *Estimated Deferrals in Authorization Period*

Idaho Power estimates the deferral account will be approximately \$521,000 at October 30, 2020, representing the Oregon jurisdictional portion of Boardman decommissioning costs. Because deferred amounts associated with decommissioning costs are dependent on factors that cannot be precisely forecasted, Idaho Power is unable to provide a precise estimate of the total deferred amount.

*Information Related to Future Amortization*

- Earnings Review – ORS 757.259(5) requires the Commission to review the utility's earnings at the time of application to amortize the deferral for amounts deferred pursuant to ORS 757.259(2)(e). Recovery of amounts will not be subject to an earnings test.
- Prudence Review – For amortization, a prudence review should be completed to verify prudence of the costs.
- Sharing – Staff does not recommend any sharing of the cost being considered for deferral.
- Rate Spread/Design – The incremental revenue requirement will be recovered based on the marginal cost of generation approved in the Company's last general rate case. Demand and energy revenue will be increased by an equal percentage.
- Three Percent Test (ORS 757.259(6)) – The three percent test measures the annual overall average effect on customer rates resulting from deferral amortizations. The three percent test limits the aggregated deferral amortizations during a 12-month period to no more than three percent of the utility's gross revenues for the preceding year. Subsection (8) permits the Commission to allow an overall average rate impact greater than three percent for an electric utility upon an earnings review that includes an estimate of the utility's cost of capital for the deferral period. The Commission also has the discretion to consider estimated changes in the electric utility's costs and revenues during the deferral period.

Conclusion

As the Company's application meets the requirements of ORS 757.259 and OAR 860-027-0300, Staff recommends the Commission approve Idaho Power's application. Staff further notes that the Company's request in this case is consistent with its recovery of decommissioning costs associated with the early retirement of its Boardman power plant.
