

ORDER NO. 21-452

ENTERED Dec 02 2021

**BEFORE THE PUBLIC UTILITY COMMISSION
OF OREGON**

UM 1636(10)

In the Matter of

CASCADE NATURAL GAS
CORPORATION,

Application for Reauthorization for Deferral
of Environmental Remediation Expenses for
the Manufactured Gas Plant in Eugene,
Oregon.

ORDER

DISPOSITION: STAFF'S RECOMMENDATION ADOPTED

At its public meeting on November 30, 2021, the Public Utility Commission of Oregon adopted Staff's recommendation in this matter. The Staff Report with the recommendation is attached as Appendix A.

BY THE COMMISSION:

A handwritten signature in blue ink, appearing to read "Nolan Moser".

Nolan Moser
Chief Administrative Law Judge

A party may request rehearing or reconsideration of this order under ORS 756.561. A request for rehearing or reconsideration must be filed with the Commission within 60 days of the date of service of this order. The request must comply with the requirements in OAR 860-001-0720. A copy of the request must also be served on each party to the proceedings as provided in OAR 860-001-0180(2). A party may appeal this order by filing a petition for review with the Circuit Court for Marion County in compliance with ORS 183.484.

**PUBLIC UTILITY COMMISSION OF OREGON
STAFF REPORT
PUBLIC MEETING DATE: November 30, 2021**

REGULAR _____ **CONSENT** X **EFFECTIVE DATE** December 1, 2021

DATE: November 19, 2021

TO: Public Utility Commission

FROM: Mitchell Moore

THROUGH: Bryan Conway, John Crider, and Matt Muldoon **SIGNED**

SUBJECT: CASCADE NATURAL GAS:
(Docket No. UM 1636(10))
Requests reauthorization to defer costs associated with the Manufactured Gas Plant.

STAFF RECOMMENDATION:

Approve Cascade Natural Gas Corporation's (Cascade, CNG, or Company) request to defer expenses associated with the Manufactured Gas Plant (MGP) in Eugene, Oregon for the 12-month period beginning December 1, 2021.

DISCUSSION:

Issue

Whether the Commission should reauthorize deferral of costs associated with environmental remediation expenses at the MGP in Eugene, Oregon for the 12-month period beginning December 1, 2021.

Applicable Law

This application is filed by Cascade pursuant to OAR 860-027-0300 and ORS 757.259(2)(e), requesting authorization to defer environmental remediation costs and amounts from insurance recoveries because they are "[i]dentifiable utility expenses or revenues, the recovery or refund of which the commission finds should be deferred in order to minimize the frequency of rate changes or the fluctuation of rate levels or to match appropriately the costs borne by and benefits received by ratepayers."

Cascade Docket No. UM 1636(10)
November 19, 2021
Page 2

This deferral was approved originally by Order No. 13-004, and most recently reauthorized by Order No. 21-065.

Analysis

The MGP was constructed in 1907 as a coal carbonization process facility. In 1910-1911 the plant expanded and was converted to a water-gas processing facility. On January 1, 1929, a PacifiCorp predecessor sold the MGP and underlying property to Northwest Cities. In 1950, Northwest Cities ceased MGP gas operation and the plant was converted for propane-air gas storage and distribution. On October 12, 1953, Cascade merged with Northwest Cities. Cascade sold the MGP and property to a predecessor of Northwest Natural five years later, in 1958. Eugene Water & Electric Board, PacifiCorp, and Cascade entered into a participation agreement for site investigation and remediation on February 26, 1996.

In 2012, Cascade submitted its first application to defer expenses associated with environmental remediation of the MGP site.

In January of 2015, the Department of Environmental Quality issued a Record of Decision that identified and authorized specific remediation measures. The Company continues to pursue insurance recovery of remediation costs which will be used to offset expenses.

As of September 30, 2021, the current deferral balance is \$1.23 million and includes all remediation work, preliminary investigation, outside legal costs and interest accrual. Cascade has also begun amortizing the balance through base rates set in the most recent general rate case UG 390.

Cascade reports that the remediation work has been completed, and expects only outside legal costs to pursue insurance recovery remain. Insurance recovery is anticipated to be settled during this deferral period and would offset the deferral balance.

Description of Expense

The Company is deferring its share of all related environmental costs and insurance proceeds that are associated with the MGP project. These costs include, but are not necessarily limited to, investigation, monitoring, legal, study, oversight, remediation, and pursuit of insurance recoveries.

Cascade Docket No. UM 1636(10)
November 19, 2021
Page 3

Proposed Accounting

Cascade proposes to record the deferrals in a sub account of FERC Account 186 (Miscellaneous Deferred Debits). In the absence of deferral approval, Cascade would record the environmental costs of labor to FERC Account 920, Administrative and General Salaries, and the costs of outside services (e.g. consulting) to FERC Account 923, Outside Services Employed.

Estimated Deferrals in Authorization Period

Cascade expects to defer ongoing outside legal costs to pursue insurance recovery during the requested authorization period.

Deferrals during Current Period

The Company estimates that its year-end 2021 deferral balance is approximately \$1,225,635.

Amortization continues through Schedule 197, along with a prudence review conducted in the Company's two most recent general rate cases – UG 347 and UG 390.

Information Related to Future Amortization

- Earnings review – An earnings review should be conducted prior to future amortization.
- Prudence Review – A prudence review is a requirement of the earnings review which does apply to this deferral. The prudence review should extend to the accounting methodology used to calculate any amount to be amortized.
- Sharing – Whether sharing will be limited to the results of the earnings review or take some other form has not yet been determined in this docket.
- Rate Spread/Design – Costs are spread to all customer classes on an equal cents per therm basis.
- Three Percent Test (ORS 757.259(6)) – The three percent test measures the annual overall average effect on customer rates resulting from deferral amortizations. The three percent test limits (exceptions at ORS 757.259(7), (8), and (10)) the aggregated deferral amortizations during a 12-month period to no more than three percent of the utility's gross revenues for the preceding calendar year. The limit for these deferrals will be determined at the time of amortization. The three percent test is applicable to this deferred account.

Conclusion

Staff supports Cascade's request to reauthorize the deferral of environmental remediation costs.

The Company's application meets the requirements of ORS 757.259 and OAR 860-027-0300, and the rationale for this deferral is still valid. For these reasons, Staff recommends Commission approval.

PROPOSED COMMISSION MOTION:

Approve Cascade's filing for reauthorization to defer expenses associated with the Manufactured Gas Plant in Eugene, Oregon for the 12 months beginning December 1, 2021.

CNG UM 1636(10) Gas Plant Deferral
