DISPOSITION: PROCEDURES ADOPTED

On June 11, 2004, a telephone conference was held in this proceeding for the purpose of identifying the Issues for which there existed factual disputes that might require that an evidentiary hearing be conducted. The parties mutually agreed that the potential for factual disputes existed only with respect to Issues 4 and 5. It was further agreed that, in an effort to remove the factual disputes from those issues, Western Radio Services Co. would prepare a schematic diagram of its proposed means of interconnection with the Qwest Corporation (Qwest) network and that counsel for Qwest would prepare a list of documents relative to Issue 5.

It was agreed that the parties would exchange the prepared materials with each other no later than June 14, 2004, and that they would endeavor to submit those materials by joint stipulation to the Commission as shortly thereafter as practicable. No other changes to the schedule were made at the conference.

Dated at Salem, Oregon, this 11th day of June, 2004.
