Re: UM-1514 – Informational Filing – RECAP Timeline

In accordance with Commission Order No. 17-429 (Appendix A – Updates Required Subsequent to Program Roll-out), Portland General Electric Company (PGE) plans to run the loss of load probability model, Renewable Energy Capacity Planning (RECAP) in support of its 2019 Integrated Resource Plan (IRP). Consequently, we plan to have results available by August 8, 2019 as part of PGE's IRP filing.

Thank you for your assistance in this matter. If you have any questions or require further information, please call Alex Tooman at (503) 464-7623.
