COMPANY PROFILE

Provide a brief narrative that covers the following areas:

- a. Brief company history
- b. Public services rendered
- c. Major goals and objectives
- d. Major operating divisions and functions
- e. Current and projected growth patterns
- f. Major transactions having a material effect on operations

Hiland Water Corporation is a water and sewer utility that was incorporated in 1997. It owns and manages water systems (including the one in this report) and one sewer system in the State of Oregon. Services include water system maintenance, improvements, customer service, and all other aspects contained in owning and managing water systems.

In general, Hiland's goals are to provide good water/sewer service to residential and commercial properties at a reasonable price. Hiland strives to grow, provide jobs, and provide value to its stakeholders.

Hiland is a small, privately-owned utility, and has no major operating divisions. It is administered from a central office located in Newberg, OR, which serves to coordinate the crew in the field, communicate with customers and other entities, receive payments, complete billing, and execute other tasks as needed. There is also a crew (provided by Olson, LLC) that serves to address emergencies on site at water systems, complete sampling & meter reading, and perform any other projects or required maintenance in the field.

During 2011, Hiland enjoyed a significant growth in its customer base of roughly 40%, establishing a new service area in Otis, both in a management capacity (as PUC appointed regents at Rose Lodge) and in an ownership capacity (at Echo Mt./Riverbend water systems). This growth has been accompanied by water system deficiencies that will require significant resources to address during 2012. While we do not have expectations for significant growth during 2012 (outside of our ongoing work in Otis), we will not hesitate to evaluate growth opportunities. Projected growth patterns beyond 2012 are currently unestablished.

2012 includes completing the acquisition of Bear Creek and Boulder Creek water systems at Rose Lodge. At a company level, we expect our efforts at these systems to continue to affect our operations, but the service and rates at the water utility in this report will not be affected.

**RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR
FEDERAL INCOME TAXES**

UTILITY OPERATIONS

The reconciliation should include the same detail as furnished on Schedule M-1 of the federal tax return for the year. The reconciliation shall be submitted even though there is no taxable income for the year. Descriptions should clearly indicate the nature of each reconciling amount and show the computation of all tax accruals. If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating intercompany amounts to be eliminated in such consolidated return. State names of group members, tax assigned to each group member, and basis of allocation, assignment, or sharing of the consolidated tax among the group members.
