THIS FILING IS

Item 1: ☑ An Initial (Original) Submission OR ☐ Resubmission No.

FERC FINANCIAL REPORT
FERC FORM No. 1: Annual Report of
Major Electric Utilities, Licensees
and Others and Supplemental
Form 3-Q: Quarterly Financial Report

These reports are mandatory under the Federal Power Act, Sections 3, 4(a), 304 and 309, and 18 CFR 141.1 and 141.400. Failure to report may result in criminal fines, civil penalties and other sanctions as provided by law. The Federal Energy Regulatory Commission does not consider these reports to be of confidential nature

Exact Legal Name of Respondent (Company)

PacifiCorp

Year/Period of Report End of: 2022/ Q4

FERC FORM NO. 1 (REV. 02-04)

### FERC Form

### INSTRUCTIONS FOR FILING FERC FORM NOS. 1 and 3-Q

### **GENERAL INFORMATION**

### I. Purpose

FERC Form No. 1 (FERC Form 1) is an annual regulatory requirement for Major electric utilities, licensees and others (18 C.F.R. § 141.1). FERC Form No. 3-Q (FERC Form 3-Q) is a quarterly regulatory requirement which supplements the annual financial reporting requirement (18 C.F.R. § 141.400). These reports are designed to collect financial and operational information from electric utilities, licensees and others subject to the jurisdiction of the Federal Energy Regulatory Commission. These reports are also considered to be non-confidential public use forms.

### II. Who Must Submit

Each Major electric utility, licensee, or other, as classified in the Commission's Uniform System of Accounts Prescribed for Public Utilities, Licensees, and Others Subject To the Provisions of The Federal Power Act (18 C.F.R. Part 101), must submit FERC Form 1 (18 C.F.R. § 141.1), and FERC Form 3-Q (18 C.F.R. § 141.400).

Note: Major means having, in each of the three previous calendar years, sales or transmission service that exceeds one of the following:

- 1. one million megawatt hours of total annual sales,
- 2. 100 megawatt hours of annual sales for resale
- 3. 500 megawatt hours of annual power exchanges delivered, or
- 4. 500 megawatt hours of annual wheeling for others (deliveries plus losses).

### III. What and Where to Submit

- a. Submit FERC Form Nos. 1 and 3-Q electronically through the eCollection portal at https://eCollection.ferc.gov, and according to the specifications in the Form 1 and 3-Q taxonomies.
- b. The Corporate Officer Certification must be submitted electronically as part of the FERC Forms 1 and 3-Q filings.
- c. Submit immediately upon publication, by either eFiling or mail, two (2) copies to the Secretary of the Commission, the latest Annual Report to Stockholders. Unless eFiling the Annual Report to Stockholders, mail the stockholders report to the Secretary of the Commission at:

Federal Energy Regulatory Commission 888 First Street, NE Washington, DC 20426

d. For the CPA Certification Statement, submit within 30 days after filing the FERC Form 1, a letter or report (not applicable to filers classified as Class C or Class D prior to January 1, 1984). The CPA Certification Statement can be either eFiled or mailed to the Secretary of the Commission at the address above.

The CPA Certification Statement should:

- a. Attest to the conformity, in all material aspects, of the below listed (schedules and pages) with the Commission's applicable Uniform System of Accounts (including applicable notes relating thereto and the Chief Accountant's published accounting releases), and
- b. Be signed by independent certified public accountants or an independent licensed public accountant certified or licensed by a regulatory authority of a State or other political subdivision of the U. S. (See 18 C.F.R. §§ 41.10-41.12 for specific qualifications.)

| Schedules                      | <u>Pages</u> |
|--------------------------------|--------------|
| Comparative Balance Sheet      | 110-113      |
| Statement of Income            | 114-117      |
| Statement of Retained Earnings | 118-119      |
| Statement of Cash Flows        | 120-121      |
| Notes to Financial Statements  | 122-123      |

e. The following format must be used for the CPA Certification Statement unless unusual circumstances or conditions, explained in the letter or report, demand that it be varied. Insert parenthetical phrases only when exceptions are reported.

"In connection with our regular examination of the financial statements of [COMPANY NAME] for the year ended on which we have reported separately under date of [DATE], we have also reviewed schedules [NAME OF SCHEDULES] of FERC Form No. 1 for the year filed with the Federal Energy Regulatory Commission, for conformity in all material respects with the requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases. Our review for this purpose included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

Based on our review, in our opinion the accompanying schedules identified in the preceding paragraph (except as noted below) conform in all material respects with the accounting requirements of the Federal Energy Regulatory Commission as set forth in its applicable Uniform System of Accounts and published accounting releases." The letter or report must state which, if any, of the pages above do not conform to the Commission's requirements. Describe the discrepancies that exist.

- f. Filers are encouraged to file their Annual Report to Stockholders, and the CPA Certification Statement using eFiling. Further instructions are found on the Commission's website at <a href="https://www.ferc.gov/ferc-online/ferc-online/frequently-asked-questions-faqs-efilingferc-online">https://www.ferc.gov/ferc-online/frequently-asked-questions-faqs-efilingferc-online</a>.
- g. Federal, State, and Local Governments and other authorized users may obtain additional blank copies of FERC Form 1 and 3-Q free of charge from https://www.ferc.gov/general-information-0/electric-industry-forms.

### IV. When to Submit

FERC Forms 1 and 3-Q must be filed by the following schedule:

- a. FERC Form 1 for each year ending December 31 must be filed by April 18th of the following year (18 CFR § 141.1), and
- b. FERC Form 3-Q for each calendar quarter must be filed within 60 days after the reporting quarter (18 C.F.R. § 141.400)

### V. Where to Send Comments on Public Reporting Burden.

The public reporting burden for the FERC Form 1 collection of information is estimated to average 1,168 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data-needed, and completing and reviewing the collection of information. The public reporting burden for the FERC Form 3-Q collection of information is estimated to average 168 hours per response.

Send comments regarding these burden estimates or any aspect of these collections of information, including suggestions for reducing burden, to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426 (Attention: Information Clearance Officer); and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503 (Attention: Desk Officer for the Federal Energy Regulatory Commission). No person shall be subject to any penalty if any collection of information does not display a valid control number (44 U.S.C. § 3512 (a)).

### **GENERAL INSTRUCTIONS**

- I. Prepare this report in conformity with the Uniform System of Accounts (18 CFR Part 101) (USofA). Interpret all accounting words and phrases in accordance with the USofA.
- II. Enter in whole numbers (dollars or MWH) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important. The truncating of cents is allowed except on the four basic financial statements where rounding is required.) The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to

FERC FORM NO. 1 (ED. 03-07)

determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting period, and use for statement of income accounts the current year's year to date

- III. Complete each question fully and accurately, even if it has been answered in a previous report. Enter the word "None" where it truly and completely states the fact.
- IV. For any page(s) that is not applicable to the respondent, omit the page(s) and enter "NA," "NONE," or "Not Applicable" in column (d) on the List of Schedules, pages 2 and 3.
- V. Enter the month, day, and year for all dates. Use customary abbreviations. The "Date of Report" included in the header of each page is to be completed only for resubmissions (see VII. below).
- VI. Generally, except for certain schedules, all numbers, whether they are expected to be debits or credits, must be reported as positive. Numbers having a sign that is different from the expected sign must be reported by enclosing the numbers in parentheses.
- VII. For any resubmissions, please explain the reason for the resubmission in a footnote to the data field.
- VIII. Do not make references to reports of previous periods/years or to other reports in lieu of required entries, except as specifically authorized.
- IX. Wherever (schedule) pages refer to figures from a previous period/year, the figures reported must be based upon those shown by the report of the previous period/year, or an appropriate explanation given as to why the different figures were used.
- X. Schedule specific instructions are found in the applicable taxonomy and on the applicable blank rendered form

Definitions for statistical classifications used for completing schedules for transmission system reporting are as follows:

FNS - Firm Network Transmission Service for Self. "Firm" means service that can not be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. "Network Service" is Network Transmission Service as described in Order No. 888 and the Open Access Transmission Tariff. "Self" means the respondent.

FNO - Firm Network Service for Others. "Firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. "Network Service" is Network Transmission Service as described in Order No. 888 and the Open Access Transmission Tariff.

LFP - for Long-Term Firm Point-to-Point Transmission Reservations. "Long-Term" means one year or longer and" firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. "Point-to-Point Transmission Reservations" are described in Order No. 888 and the Open Access Transmission Tariff. For all transactions identified as LFP, provide in a footnote the termination date of the contract defined as the earliest date either buyer or seller can unilaterally cancel the contract.

OLF - Other Long-Term Firm Transmission Service. Report service provided under contracts which do not conform to the terms of the Open Access Transmission Tariff. "Long-Term" means one year or longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions. For all transactions identified as OLF, provide in a footnote the termination date of the contract defined as the earliest date either buyer or seller can unilaterally get out of the contract.

SFP - Short-Term Point-to-Point Transmission Reservations. Use this classification for all firm point-to-point transmission reservations, where the duration of each period of reservation is less than one-year.

NF - Non-Firm Transmission Service, where firm means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions

OS - Other Transmission Service. Use this classification only for those services which can not be placed in the above-mentioned classifications, such as all other service regardless of the length of the contract and service FERC Form. Describe the type of service in a footnote for each entry.

AD - Out-of-Period Adjustments. Use this code for any accounting adjustments or "true-upo" for service provided in prior reporting periods. Provide an explanation in a footnote for each adjustment.

### DEFINITIONS

- 1. Commission Authorization (Comm. Auth.) -- The authorization of the Federal Energy Regulatory Commission, or any other Commission. Name the commission whose authorization was obtained and give date of the authorization.
- II. Respondent -- The person, corporation, licensee, agency, authority, or other Legal entity or instrumentality in whose behalf the report is made.

### **EXCERPTS FROM THE LAW**

### Federal Power Act, 16 U.S.C. § 791a-825r

 $Sec.\ 3.\ The\ words\ defined\ in\ this\ section\ shall\ have\ the\ following\ meanings\ for\ purposes\ of\ this\ Act,\ to\ with:$ 

- 3. 'Corporation' means any corporation, joint-stock company, partnership, association, business trust, organized group of persons, whether incorporated or not, or a receiver or receivers, trustee or trustees of any of the foregoing. It shall not include 'municipalities, as hereinafter defined;
- 4. 'Person' means an individual or a corporation:
- 5. 'Licensee, means any person, State, or municipality Licensed under the provisions of section 4 of this Act, and any assignee or successor in interest thereof;
- 7. 'municipality means a city, county, irrigation district, drainage district, or other political subdivision or agency of a State competent under the Laws thereof to carry and the business of developing, transmitting, unitizing, or distributing power; ......
- 11. "project' means. a complete unit of improvement or development, consisting of a power house, all water conduits, all dams and appurtenant works and structures (including navigation structures) which are a part of said unit, and all storage, diverting, or fore bay reservoirs directly connected therewith, the primary line or lines transmitting power there from to the point of junction with the distribution system or with the interconnected primary transmission system, all miscellaneous structures used and useful in connection with said unit or any part thereof, and all water rights, rights-of-way, ditches, dams, reservoirs, Lands, or interest in Lands the use and occupancy of which are necessary or appropriate in the maintenance and operation of such unit;

"Sec. 4. The Commission is hereby authorized and empowered

a. "To make investigations and to collect and record data concerning the utilization of the water 'resources of any region to be developed, the water-power industry and its relation to other industries and to interstate or foreign commerce, and concerning the location, capacity, development costs, and relation to markets of power sites; ... to the extent the Commission may deem necessary or useful for the purposes of this Act."

### "Sec. 304

a. Every Licensee and every public utility shall file with the Commission such annual and other periodic or special\* reports as the Commission may by rules and regulations or other prescribe as necessary or appropriate to assist the Commission in the proper administration of this Act. The Commission may prescribe the manner and FERC Form in which such reports shall be made, and require from such persons specific answers to all questions upon which the Commission may need information. The Commission may require that such reports shall include, among other things, full information as to assets and Liabilities, capitalization, net investment, and reduction thereof, gross receipts, interest due and paid, depreciation, and other reserves, cost of project and other facilities, cost of maintenance and operation of the project and other facilities, cost of renewals and replacement of the project works and other facilities, depreciation, transmission, distribution, delivery, use, and sale of electric energy. The Commission may require any such person to make adequate provision for currently determining such costs and other facts. Such reports shall be made under oath unless the Commission otherwise specifies\*.10

### "Sec. 309

The Commission shall have power to perform any and all acts, and to prescribe, issue, make, and rescind such orders, rules and regulations as it may find necessary or appropriate to carry out the provisions of this Act. Among other things, such rules and regulations may define accounting, technical, and trade terms used in this Act; and may prescribe the FERC Form or FERC Forms of all statements, declarations, applications, and reports to be filed with the Commission, the information which they shall contain, and the time within which they shall be field..."

### **GENERAL PENALTIES**

The Commission may assess up to \$1 million per day per violation of its rules and regulations. See FPA § 316(a) (2005), 16 U.S.C. § 825o(a).

### CORPORATIONS CONTROLLED BY RESPONDENT

- 1. Report below the names of all corporations, business trusts, and similar organizations, controlled directly or indirectly by respondent at any time during the year. If control ceased prior to end of year, give particulars (details) in a footnote. 2. If control was by other means than a direct holding of voting rights, state in a footnote the manner in which control was held, naming any intermediaries involved.

  3. If control was held jointly with one or more other interests, state the fact in a footnote and name the other interests.

- 1. See the Uniform System of Accounts for a definition of control.
  2. Direct control is that which is exercised without interposition of an intermediary.
  3. Indirect control is that which is exercised by the interposition of an intermediary which exercises direct control.
  4. Joint control is that in which neither interest can effectively control or direct action without the consent of the other, as where the voting control is equally divided between two holders, or each party holds a veto power over the other. Joint control may exist by mutual agreement or understanding between two or more parties who together have control within the meaning of the definition of control in the Uniform System of Accounts, regardless of the relative voting rights of each party.

(a) Concept: OfficerTitle

PacifiCorp sets forth compensation information for its "named executive officers" for the year ended December 31, 2022 consistent with Item 402 of Regulation S-K promulgated by the United States Securities and Exchange Commission, in its Annual Report on Form 10-K. Salary information of other officers will be provided to the Federal Energy Regulatory Commission upon request, but the company considers such information personal and confidential to such officers. See 18 C.F.R. §388.107(d),(f).

(b) Concept: OfficerNam

On April 13, 2022, Mr. William J. Fehrman resigned as PacifiCorp's Chair of the Board of Directors and Chief Executive Officer and Mr. Scott W. Thon was elected as PacifiCorp's Chair of the Board of Directors and Chief Executive Officer and Mr. Fehrman nor Mr. Thon received any direct compensation from PacifiCorp in 2022. PacifiCorp reimbursed its indirect parent company, Berkshire Hathaway Energy Company ("BHE"), for the cost of Mr. Fehrman's and Mr. Thon's time spent on matters supporting PacifiCorp, including compensation paid to them by BHE, pursuant to an intercompany administrative services agreement among BHE and its subsidiaries. For further information on executive compensation, refer to BHE's Annual Report on Form 10-K for the year ended December 31, 2022.

(c) Concept: OfficerName

On April 13, 2022, Mr. William J. Fehrman resigned as PacifiCorp's Chair of the Board of Directors and Chief Executive Officer and Mr. Scott W. Thon was elected as PacifiCorp's Chair of the Board of Directors and Chief Executive Officer and Mr. Scott W. Thon was elected as PacifiCorp in 2022. PacifiCorp reimbursed its indirect parent company, Berkshire Hathaway Energy Company ("BHE"), for the cost of Mr. Fehrman's and Mr. Thon's time spent on matters supporting PacifiCorp, including compensation paid to them by BHE, pursuant to an intercompany administrative services agreement among BHE and its subsidiaries. For further information on executive compensation, refer to BHE's Annual Report on Form 10-K for the year ended December 31, 2022.

### INFORMATION ON FORMULA RATES - Formula Rate Variances

- 1. If a respondent does not submit such fillings then indicate in a footnote to the applicable Form 1 schedule where formula rate inputs differ from amounts reported in the Form 1.

  2. The footnote should provide a narrative description explaining how the "rate" (or billing) was derived if different from the reported amount in the Form 1.

  3. The footnote should explain amounts excluded from the ratebase or where labor or other allocation factors, operating expenses, or other items impacting formula rate inputs differ from amounts reported in Form 1 schedule amounts.

  4. Where the Commission has provided guidance on formula rate inputs, the specific proceeding should be noted in the footnote.

### IMPORTANT CHANGES DURING THE QUARTER/YEAR

Give particulars (details) concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquiries. Each inquiry should be answered. Enter "none," "not applicable, "or "NA" where applicable. If information which answers an inquiry is given elsewhere in the report, make a reference to the schedule in which it appears.

- 1. Changes in and important additions to franchise rights: Describe the actual consideration given therefore and state from whom the franchise rights were acquired. If acquired without the payment of consideration, state that fact
- 2. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give names of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization.
- 3. Purchase or sale of an operating unit or system: Give a brief description of the property, and of the transactions relating thereto, and reference to Commission authorization, if any was required. Give date journal entries called for by the Uniform System of Accounts were submitted to the Commission.

  4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents, and other condition. State name of Commission authorizing lease and give reference to such authorization.
- 5. Important extension or reduction of transmission or distribution system: State territory added or reduction of transmission and thorization, if any was required. State territory added or reduction of transmission or distribution system: State territory added or reduction of transmission or distribution system: State territory added or reduction of transmission or distribution system: State territory added or reduction of transmission or distribution system: State territory added or reduction of transmission or distribution system: State territory added or reduction of transmission or distribution system: State territory added or reduction of transmission or distribution system: State territory added or reduction of transmission or distribution system: State territory added or reduction of transmission or distribution system: State territory added or reduction of transmission or distribution system: State territory added or reduction of transmission or distribution system: State territory added or reduction of transmission or distribution system: State territory added or reduction of transmission or distribution system: State territory added or reduction of transmission or distribution system: State territory added or reduction of transmission or distribution system: State territory added or reduction of transmission or distribution system: State territory added or reduction of transmission or distribution system: State territory added or reduction of transmission or distribution system: State territory added or reduction of transmission or distribution system: State territory added or reduction of transmission or distribution system: State territory added or reduction of transmission or distribution system: State territory added or reduction of transmission or distribution system: State territory added or reduction system: State territory made available to it from purchases, development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements, etc.
- 6. Obligations incurred as a result of issuance of securities or assumption of liabilities or guarantees including issuance of short-term debt and commercial paper having a maturity of one year or less. Give reference to FERC or State Commission authorization, as appropriate, and the amount of obligation or guarantee.
- 7. Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments.
- 8. State the estimated annual effect and nature of any important wage scale changes during the year.
- 9. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.

  10. Describe briefly any materially important transactions of the respondent not disclosed elsewhere in this report in which any such person had a material interest.
- 12. If the important changes during the year relating to the respondent company appearing in the annual report to stockholders are applicable in every respect and furnish the data required by Instructions 1 to 11 above, such notes may be included on this page.

  13. Describe fully any changes in officers, directors, major security holders and voting powers of the respondent that may have occurred during the reporting period.
- 14. In the event that the respondent participates in a cash management program(s). Additionally, please describe plans, if any to regain at least a 30 percent program (s).

### ITEM 1.

The following table includes new or modified franchise agreements. The fee represents the fee attached to the franchise agree

- (3) In Oregon, the first 3.5% of the franchise agreement fee is an expense to PacifiCorp and is embedded in rates. Any amount above the 3.5% is collected from customers and remitted directly to the applicable municipalities.
- Corp collects associated taxes from customers and remits them directly to the applicable municipalities. If applicable, franchise agreement fees are an expense to PacifiCorp and are embedded in rate

# ITEM 2.

# ITEM 3.

ITEM 4.None ITEM 5

For the twelve-month period ended December 31, 2022, PacifiCorp did not significantly increase or decrease its transmission or distribution territory. Refer to Page 424, Transmission lines added or altered of this Form No. 1 for additional information regarding transmission lines added or removed during the year

### ITEM 6.

Long-term Debt

In December 2022, PacifiCorp issued \$1.1 billion of its 5.350% First Mortgage Bonds due December 2053. PacifiCorp intends within 24 months of the issuance date to allocated to the same portion of a project that received allocation of proceeds under any other Green Financing Instrument; activities related to the exploration, production, transportation, or consumption of fossil fuels; or activities related to nuclear energy.

mber 31, 2022, PacifiCorp had regulatory authority from the Public Utility Commission of Oregon ("OPUC") and the Idaho Public Utilities Commission to issue an additional \$900 million of long-term debt. PacifiCorp must make a notice filing with the Washington Utilities and Transportation statement with the United States Securities and Exchange Commission of Oregon ("OPUC") to issue an additional \$900 million of long-term debt are as follows:

- OPUC Docket No. UF-4318, Order No. 20-393, dated November 3, 2020.
- IPUC Case No. PAC-E-20-15. Order 34831, dated November 12, 2020, effective through September 30, 2025.

PacifiCorp's Mortgage and Deed of Trust creates a lien on most of PacifiCorp's electric utility property, allowing the issuance of bonds based on a percentage of utility property additions, bond credits arising from retirement of previously outstanding bonds or deposits of cash. The amount of bonds that PacifiCorp and issuance are subject to a net earnings test. As of December 31, 2022, PacifiCorp estimated it would be able to issue up to \$8.5 billion of new first mortgage bonds under the most restrictive issuance are subject to market conditions, and amounts are further limited by regulatory authorizations or commitments or by covenants and tests contained in other financing agreements. PacifiCorp also has the ability to release property from the lien of the mortgage on the basis of property additions, bond credits or deposits of cash.

# STATEMENT OF RETAINED EARNINGS

- 1. Do not report Lines 49-53 on the quarterly report.
  2. Report all changes in appropriated retained earnings, unappropriated retained earnings, and unappropriated undistributed subsidiary earnings for the year.
  3. Each credit and debit during the year should be identified as to the retained earnings account in which recorded (Accounts 433, 436-439 inclusive). Show the contra primary account affected in column (b).
  4. State the purpose and amount for each reservation or appropriation of retained earnings.
  5. List first Account 439, Adjustments to Retained Earnings, reflecting adjustments to the opening balance of retained earnings. Follow by credit, then debit items, in that order.
  6. Show dividends for each class and series of capital stock.
  7. Show separately the State and Federal income tax effect of items shown for Account 439, Adjustments to Retained Earnings.
  8. Explain in a footnote the basis for determining the amount reserved or appropriated. If such reservation or appropriation is to be recurrent, state the number and annual amounts to be reserved or appropriated as well as the totals eventually to be accumulated.
  9. If any notes appearing in the report to stockholders are applicable to this statement, attach them at page 122.

### STATEMENT OF CASH FLOWS

- 1. Codes to be used:(a) Net Proceeds or Payments;(b)Bonds, debentures and other long-term debt; (c) Include commercial paper; and (d) Identify separately such items as investments, fixed assets, intangibles, etc.

  2. Information about noncash investing and financing activities must be provided in the Notes to the Financial statements. Also provide a reconciliation between "Cash and Cash Equivalents at End of Period" with related amounts on the Balance Sheet.

  3. Operating Activities Other: Include gains and losses pertaining to operating activities only. Gains and losses pertaining to investing and financing activities should be reported in those activities. Show in the Notes to the Financials the amounts of interest paid (net of amount capitalized) and income taxes paid.

  4. Investing Activities: Include at Other (line 31) net cash outflow to acquire other companies. Provide a reconciliation of the dollar amount of leases capitalized with the plant cost.

### NOTES TO FINANCIAL STATEMENTS

- 1. Use the space below for important notes regarding the Balance Sheet, Statement of Income for the year, and Statement of Retained Earnings for the year, and Statement of Cash Flows, or any account thereof. Classify the notes according to each basic statement, providing a subheading for each statement except where a note is applicable to more than one statement.

  2. Furnish particulars (details) as to any significant contingent assets or liabilities existing at end of year, including a brief explanation of any dividends in arrears on cumulative
- 3. For Account 116. Utility Plant Adjustments, explain the origin of such amount, debits and credits during the year, and plan of disposition contemplated, giving references to Commission orders or other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof
- 4. Where Accounts 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these items. See General Instruction 17 of the Uniform System of Accounts.
- 5. Give a concise explanation of any retained earnings restrictions and state the amount of retained earnings affected by such restrictions
- 6. If the notes to financial statements relating to the respondent company appearing in the annual report to the stockholders are applicable and furnish the data required by instructions above and on pages 114-121, such notes may be included herein.
- 7. For the 3Q disclosures, respondent must provide in the notes sufficient disclosures so as to make the interim information not misleading. Disclosures which would substantially duplicate the disclosures on take the interim information not misleading. Disclosures which would substantially duplicate the disclosures contained in the most recent FERC Annual Report may be omitted.

  8. For the 3Q disclosures, the disclosures shall be provided where events subsequent to the end of the most recent year have occurred which have a material effect on the respondent must include in the notes significant changes since the most recently completed year in such items as: accounting principles and practices; estimates inherent in the preparation of the financial statements; status of long-term contracts; capitalization including significant new borrowings or modifications of existing financing agreements; and changes resulting from business combinations or dispositions. However were material contingencies exist, the notes to the financial statements relating to the respondent appearing in the annual report to the stockholders are applicable and furnish the data required by the above instructions, such notes may be included herein.

### (1) Organization and Operations

PacifiCorp is a United States ("U.S.") regulated electric utility company serving retail customers, including residential, commercial, industrial, irrigation and other customers in portions of Utah, Oregon, Wyoming, Washington, Idaho and California. PacifiCorp owns, or has interests in, a number of thermal, hydroelectric, wind-powered and geothermal generating facilities, as well as electric transmission and distribution assets. PacifiCorp is subject to comprehensive state and federal regulation. PacifiCorp is an indirect subsidiary of Berkshire Hathaway Energy Company ("BHE"), a holding company based in Des Moines, lowa that owns subsidiaries principally engaged in energy businesses. BHE is a consolidated subsidiary of Berkshire Hathaway Inc. ("Berkshire Hathaway").

### (2) Summary of Significant Accounting Policies

Basis of Presentation

These financial statements are prepared in accoordance with the requirements of the Federal Energy Regulatory Commission ("FERC") as set forth in its applicable Uniform System of Accounts and published accounting other than accounting principles generally accepted in the United States of America ("GAAP"). These notes include certain applicable disclosures required by GAAP adjusted to the FERC basis of presentation and include specific information requested by the FERC.

The following are the significant differences between the FERC accounting and reporting standards and GAAP.

In accordance with FERC Order No. AC11-132, PacifiCorp does not eliminate intercompany profit on transactions with equity investees as would be required under GAAP. The accounting treatment described above has no effect on net income or the combined retained earnings of PacifiCorp and undistributed earnings of subsidiaries.

Costs of Removal

Estimated removal costs that are recovered through approved depreciation rates, but that do not meet the requirements of a legal asset retirement obligation ("ARO") are reflected in the cost of removal regulatory liability under GAAP and as accumulated provision for depreciation under the FERC accounting and reporting standards

mulated deferred income taxes are classified as net non-current assets are classified as net non-current assets and gross non-current assets and gross non-current liabilities. Additionally, there are certain presentational differences between FERC and GAAP for amounts related to unrecognized tax benefits associated with temporary differences in accordance with FERC guidance. For GAAP, unrecognized tax benefits associated with temporary differences are reflected as other liabilities, while for FERC the income tax impact of uncertain tax positions associated with temporary differences are reflected in accumulated deferred income taxes.

Interest and penalties on income taxes for GAAP are classified as income tax expense. All such amounts are classified as interest income, interest expense and penalties under the FERC accounting and reporting standards.

Pension and postretirement benefits other than nensions ("PBOP") are components of net periodic benefit costs, As required by GAAP. In accordance with other components of net periodic benefit costs are invested of several different component of net periodic benefit costs are invested with other component of net periodic benefit costs are invested by grant of the service cost component of net periodic benefit costs are invested by grant of the service cost component of net periodic benefit costs are invested by grant of the service cost component of net periodic benefit costs are invested by grant of the service cost component of net periodic benefit costs. As required by grant of the service cost component of the service cost costs are invested by grant of the service cost costs are invested by grant of the service costs are invested by grant of the service costs are invested by grant report the components of net periodic benefit costs for pension and PBOP on the statement of income and follows GAAP guidance to capitalize only the service cost component of net periodic benefit costs

Certain other reclassifications of balance sheet, income statement and cash flow amounts have been made in order to conform to the FERC basis of presentation. These reclassifications had no effect on net income

Jse of Estimates in Preparation of Financial Statements

ation of the financial statements in conformity with the FERC and GAAP requires management to make estimates and assumptions that affect the reported amounts of seets and liabilities, including for pension and other postretirement benefits; AROs; income taxes; unbilled revenue; valuation of certain financial assets and liabilities, including for pension and other postretirement benefits; AROs; income taxes; unbilled revenue; valuation of certain financial assets and liabilities, including for pension and other postretirement benefits; AROs; income taxes; unbilled revenue; valuation of certain financial assets and liabilities, including for pension and other postretirement benefits; AROs; income taxes; unbilled revenue; valuation of certain financial assets and liabilities, including for pension and other postretirement benefits; AROs; income taxes; unbilled revenue; valuation of certain financial assets and liabilities, including for pension and other postretirement benefits; AROs; income taxes; unbilled revenue; valuation of certain financial assets and liabilities, including for pension and other postretirement benefits; AROs; income taxes; unbilled revenue; valuation of certain financial assets and liabilities, including for pension and other postretirement benefits; AROs; income taxes; unbilled revenue; valuation of certain financial assets and liabilities and income taxes; unbilled revenue; valuation of certain financial assets and liabilities and liabilities are taxed assumptions and other postretirement benefits; AROs; income taxes; unbilled revenue; valuation of certain financial assets and liabilities are taxed assumptions and other postretirement benefits; AROs; income taxes; unbilled revenue; valuation of certain financial assets and liabilities are taxed assumptions and other postretirement benefits; and other postretirement benefits are taxed assumptions are taxed assu

Accounting for the Effects of Certain Types of Regulation

PacifiCorp prepares its financial statements in accordance with authoritative guidance for regulated operations, which recognizes the economic effects of regulation. Accordingly, PacifiCorp defers the recognition of certain costs or income if it is probable that, through the ratemaking process, there will be a corresponding increase or decrease in future rates. Regulatory assets and liabilities are established to reflect the impacts of these deferrals, which recognized in earnings in the periods the corresponding changes in rates occur

If it becomes no longer probable that the deferred costs or income will be included in future rates, the related regulatory assets and liabilities will be recognized in net income, returned to customers or re-established as accumulated other comprehensive income (loss) ("AOCI").

Fair Value Mea

Fair value is the price that would be received to sell an asset or paid to transfer a liability between market participants in the principal market or in the most advantageous market when no principal market or in the most advantageous market when no principal market or in the most advantageous market when no principal market or in the most advantageous market when no principal market or in the most advantageous market when no principal market or in the most advantageous market or paid to transfer a liability between market participants are assumed to be independent, knowledgeable, able and willing to transact an exchange and not under duress. Nonperformance or credit risk is considered when determining fair value. Accordingly, estimates of fair value presented herein are not necessarily indicative of the amounts that could be realized in a current or future market exchange.

Cash equivalents consist of funds invested in unner ymarket mutual funds, U.S. Treasury Bills and other investments with a maturity of three months or less when purchased. Cash and cash equivalents and restricted cash and cash equivalents in the Statements of Cash Flows is outlined below and disaggregated by the line items in which they appear on the Comparative Balance Sheets (in millions):

|  | 2022         | 2021 |
|--|--------------|------|
|  | <del>-</del> |      |
| Cash (131)   | \$ 21        | \$ 1 |
| Other special funds (128) Temporary cash investments (136)               | 34           | 7    |
| Temporary cash investments (136)   | 566          | 151  |
| Total cash and cash equivalents and restricted cash and cash equivalents | 621          | 159  |
|  |              |      |

urities are carried at fair value with realized gains and losses, as determined on a specific identification basis, recognized in and unrealized gains and losses recognized in earnings and unrealized gains and losses recognized in earnings.

Allowance for Credit Losse:

Trade receivables are primarily short-term in nature with stated collection terms of less than one year from the date of origination, and are stated at the outstanding principal amount, net of an estimated allowance for credit losses. The allowance for credit losses is based on PacifiCorp by its customers. This assessment requires judgment regarding the ability of customers to pay or the outcome of any pending disputes. In measuring the allowance for credit losses for trade receivables, PacifiCorp maintain utilizes credit losses. The allowance for credit losses is based on PacifiCorp by its customers. This assessment requires judgment regarding the ability of customers to pay or the outcome of any pending disputes. In measuring the allowance for credit losses, which is included in accumulated provision for uncollectible accounts on the Comparative Balance Sheet, is summarized as follows for the years ended December 31 (in millions):

|  | 2022 | 2021  |
|--|------|-------|
|  |      |       |
| Beginning balance                            | 3 18 | \$ 17 |
| Charged to operating costs and expenses, net | 18   | 13    |
| Write-offs, net Ending balance               | (17) | (12)  |
| Ending balance                               | 3 19 | \$ 18 |
| ·  |      |       |

PacifiCorp employs a number of different derivative contracts, which may include forwards, options, swaps and other agreements, to manage price risk for electricity, natural gas and other commodities and are stated at estimated fair value unless they are designated as normal purchases or normal sales and qualify for the exception afforded by GAAP. Derivative balances reflect offsetting permitted under master netting agree counterparties and each collateral paid or received under such agreements.

dity derivatives used in normal business operations that are settled by physical delivery, among other criteria, are eligible for and may be designated as normal purchases or normal sales. Normal purchases or normal sales contracts are not marked-to-market and settled amounts are recognized as operating revenue or operations expenses on the Statement of Income

For PacifiCory's derivative contracts, the settled amount is generally included in rates. Accordingly, the net unrealized gains and losses associated with interim price movements on contracts that are accounted for as derivatives and probable of inclusion in rates are recorded as regulatory liabilities or assets. For a derivative contract not probable of inclusion in rates, changes in the fair value are recognized in earnings.

ainly of materials, supplies and fuel stocks and are stated at the lower of average cost or net realizable value

### Net Utility Plant

Additions to utility plant are recorded at cost. PacifiCorp capitalizes all construction-related material, direct labor and contract services, as well as indirect construction ("AFUDC"). The cost of additions and betterments are capitalized, while costs incurred that do not improve or extend the useful lives of the related assets are generally expensed

Depreciation and amortization are generally computed on the straight-line method based on composite asset class lives prescribed by PacifiCorp's various regulatory authorities. Net salvage and depreciation rates are ultimately approved by the various regulatory authorities. Net salvage includes the estimated future residual values of the assets and any estimated removal costs recovered through approved depreciation rates. Estimated removal costs are recorded as either accumulated provision for depreciation or a ARO liability is reduced.

enerally when PacifiCorp retires or sells a component of regulated utility plant, it charges the original cost, net of any proceeds from the disposition, to accumulated provision for depreciation. Any gain or loss on disposals of all other assets is recorded through earnings.

Debt and equity AFUDC, which represents the estimated costs of debt and equity funds necessary to finance the construction of utility plant is capitalized as a component of the related assets, as well as recover these costs through depreciation expense over the useful lives of the related assets.

### Asset Retirement Obligations

PacifiCorp recognizes AROs when it has a legal obligation to perform decomm oning, reclamation or removal activities upon retirement of an asset. PacifiCorp's AROs are primarily associated with its generating facilities. The fair value can be made, and is added to the carrying amount of the associated asset, which is then depreciated over the remaining useful life of the asset. Subsequent to the initial recognition, the ARO liability is adjusted for any visions to the original estimate of undisco nted cash flows (with corresponding adjustments to utility plant, net) and for accretion of the ARO liability due to the passage of time. The difference between the ARO liability, the corresponding ARO asset included in utility plant and amounts recovered in rates to satisfy such liabilities is recorded as a regulatory asset or liability

PacifiCorp evaluates long-lived assets for impairment, including utility plant, when events or changes in circumstances indicate that the carrying value of the assets may not be recoverable or the assets from the use of the assets from the use of the assets for impairment, including utility plant, when events or changes in circumstances indicate that the carrying value of the assets from the use of the assets from the use of the assets from the use of the assets are being held for sale. Upon the occurrence of a triggering event, the asset is reviewed to assess whether the estimated undiscounted cash flows expected from the use of the asset for impairment, including utility plant, when events or changes in circumstances indicate that the carrying value of the asset for impairment, including utility plant, when events or changes in circumstances indicate that the carrying value of the asset for impairment, including utility plant, when events or changes in circumstances indicate that the carrying value of the asset for impairment, including utility plant, when events or changes in circumstances indicate that the carrying value of the asset for impairment, including utility plant, when events or changes in circumstances indicate that the carrying value of the asset for impairment, including utility plant, when events or changes in circumstances in are adjusted to write down the asset to the estimated fair value and any resulting impairment loss is reflected on the Statement of Income. The impacts of regulation are considered when evaluating the carrying value of regul

PacifiCorp has non-cancelable operating leases primarily for land, office equipment, and generating facilities, and ginerating facilities and finance leases consisting primarily of office buildings, natural gas pipeline facilities, and generating facilities and finance leases generally require PacifiCorp to pay for insurance, taxes and maintenance applicable to the leased property. Given the capital intensive nature of the utility industry, it is common for a portion of lease costs to be capitalized when used during construction or maintenance applicable to the leased property. Given the associated costs will be capitalized with the corresponding asset and depreciated over the remaining life of that asset. Certain leases contain renewal options for varying periods and escalation clauses for adjusting rent to reflect changes in price indices. PacifiCorp is reasonably certain to exercise the option. PacifiCorp's accounting policy is to not recognize right-of-use assets and lease obligations for leases with contract terms of one year or less and not separate lease components from non-lease components and instead account for each separate lease component and the non-lease component and the non-lease component in line with GAAP when a triggering event has occurred that might affect the value and use of the assets being leased.

PacifiCory's leases of generating facilities generally are in the form of long-term purchases of electricity, also known as power purchase agreements ("PPA"). PPAs are generally signed before or during the early stages of project construction and can yield a lease that has not yet commenced. These agreements are primarily for renewable energy and the payments are considered variable lease payments as they are based on the amount of output

PacifiCom follows FERC accounting and reporting requirements and records operating and finance right-of-use assets in Account 101.1. Property under capital leases and the current and noncurrent operating and finance lease liabilities in Account 243. Obligations under capital leases — Current and Account 227. Obligations under capital leases — Noncurrent, respectively

PacifiCorp uses a single five-step model to identify and recognize revenue from contracts with customers ("Customer Revenue") upon transfer of control of promised goods or services, PacifiCorp expects to be entitled in exchange for those goods or services in an amount that reflects the consideration to which PacifiCorp expects to be entitled in exchange for those goods or services. PacifiCorp expects to be entitled in exchange for those goods or services in an amount that reflects the consideration to which PacifiCorp expects to be entitled in exchange for those goods or services. PacifiCorp expects to be entitled in exchange for those goods or services. PacifiCorp expects to be entitled in exchange for those goods or services. Substantially all of Pacific or o's Customer Revenue is derived from tariff-based sales arrangements approved by various regulatory commissions. These tariff-based revenues are mainly comprised of energy, transmission and distribution and have performance obligations to deliver energy is delivered or services are provided. Other revenue consists primarily of contractual agreements, including derivative arrangements approved by various regulatory commissions. These tariff-based revenues are mainly comprised of energy, transmission and distribution and have performance obligations to deliver energy is delivered or services are provided. Other revenue consists primarily of contractual agreements, including derivative arrangements approved by various regulatory commissions.

Revenue recognized is equal to what PacifiCorp has the right to invoice as it corresponds directly with the value to the customer of PacifiCorp's performance to date and includes billed amounts. Payments for amounts billed are generally due from the customer within 30 days of billing. Rates charged for energy products and services are established by regulators or contractual arrangements that establish the transaction price as well as the allocation of price amongst the separate performance obligations. When preliminary regulated rates are permitted to be billed prior to final approval by the applicable regulator, certain revenue collected may be subject to refund and classified in accordance with FERC accounting standards.

Premiums, discounts and debt issuance costs incurred for the issuance of long-term debt are amortized over the term of the related financing using the effective interest method

### ncome Taxes

Berkshire Hathaway includes PacifiCorp in its U.S. federal income tax return. Consistent with established regulatory practice, PacifiCorp's provision for income taxes has been computed on a stand-alone basis.

Deferred income tax assets and liabilities are based on differences between the financial statement and income tax assets and liabilities that are associated with components of other comprehensive income ("OCI") are charged or credited directly to OCI. Changes in deferred income tax assets and liabilities that are associated with certain property-related basis differences are expected to be in effect of the year in which the differences that a saset sand liabilities are included in regulatory asset of liability and will be income tax assets and liabilities are included in regulatory asset or liability in the period of careful actions are established by a regulatory asset or liability in the period of careful actions are established by a regulatory asset or liability in the period of careful actions are established by a regulatory asset or liability in the period of careful actions are established by a regulatory asset or liability in the period of careful actions are established by a regulatory asset or liability in the period of careful actions are established by a regulatory asset or liability in the period of careful actions are established by a regulatory asset or liability in the period of careful actions are established by a regulatory asset or liability in the period of careful actions are established by a regulatory asset or liability in the period of careful actions are established by a regulatory asset or liability in the period of careful actions are established by a regulatory asset or liability and a regulatory asset or liability and a regulatory asset or liability and a regulatory asset of liability and a regulatory asset or liability and a regulatory asset of liability and a regulatory asset or liability and a regulatory asset or liability and a regulatory asset of liability and a regulatory asset or liability and a reg

PacifiCorp recognizes the tax benefit from an uncertain tax position only if it is more-likely-than-not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that is more-likely-than-not to be realized upon ultimate settlen

### Segment Information

PacifiCorp currently has one segment, which includes its regulated electric utility operations

### Subsequent Events

PacifiCorp has evaluated the impact on its financial statements of events occurring after December 31, 2022 up to February 24, 2023, the date that PacifiCorp's GAAP financial statements were filed with the U.S. Securities and Exchange Commission and has updated such evaluation for disclosure purposes through April 18,2023. These financial statements include all necessary adjustments and disclosures resulting from these evaluations

# (3) Net Utility Plant

The average depreciation and amortization rate applied to depreciable utility plant was 3.5% and 3.5% for the years ended December 31, 2022 and 2021, respectively

### (4) Jointly Owned Utility Facilities

Under joint facility ownership agreements with other utilities, PacifiCorp, as a tenant in common, has undivided interests in jointly owned generation, transmission and distribution facility, and each joint owner has provided financing for its share of each facility, and each joint owner has provided financing for its share of each facility, and each joint owner has provided financing for its share of each facility, and each joint owner has provided financing for its share of each facility, and each joint owner has provided financing for its share of each facility, and each joint owner has provided financing for its share of each facility, and each joint owner has provided financing for its share of each facility, and each joint owner has provided financing for its share of each facility, and each joint owner has provided financing for its share of each facility, and each joint owner has provided financing for its share of each facility, and each joint owner has provided financing for its share of each facility, and each joint owner has provided financing for its share of each facility, and each joint owner has provided financing for its share of each facility, and each joint owner has provided financing for its share of each facility, and each joint owner has provided financing for its share of each facility, and each joint owner has provided financing for its share of each facility, and each joint owner has provided financing for its share of each facility, and each joint owner has provided financing for its share of each facility, and each joint owner has provided financing for its share of each facility, and each joint owner has provided financing for its share of each facility, and each joint owner has provided financing for its share of each facility, and each joint owner has provided financing for its share of each facility. | s  | 1,200 |
|    | (218) |
| \$ | 982   |

As of December 31, 2022, PacifiCorp was in compliance with the covenants of its credit facilities and letter of credit arrangements.

PacifiCorp has a \$1.2 billion unsecured credit facility expiring in June 2025 with an unlimited number of maturity extension options, subject to lender consent. The credit facility, which supports PacifiCorp's commercial paper program and certain series of its tax-exempt bond obligations and provides for the issuance of letters of credit, has a variable interest rate based on the Secured Overnight Financing Rate or a base rate, at PacifiCorp's option, plus a spread that varies based on PacifiCorp's credit ratings for its senior unsecured long-term debt securities. As of December 31, 2022 and 2021, PacifiCorp did not have any commercial paper program and certain series of its tax-exempt bond obligations and provides for the issuance of letters of credit, has a variable interest rate based on the Secured Overnight Financing Rate or a base rate, at PacifiCorp's option, plus a spread that varies based on PacifiCorp's credit ratings for its senior unsecured long-term debt securities. As of December 31, 2022 and 2021, PacifiCorp did not have any commercial paper program and certain series of its tax-exempt bond obligations and provides for the issuance of letters of credit, has a variable interest rate based on the Secured Overnight Financing Rate or a base rate, at PacifiCorp's option, plus a spread that varies based on PacifiCorp's credit ratings for its senior unsecured long-term debt securities. As of December 31, 2022 and 2021, PacifiCorp did not have any commercial paper borrowing outstanding.

The credit facility requires that PacifiCoro's ratio of consolidated debt, including current maturities, to total capitalization, not exceed 0.65 to 1.0 as of the last day of each quarter.

In January 2023, PacifiCorp entered into an additional \$800 million 364-day unsecured credit facility expiring in January 2024. No amounts are currently outstanding against this new credit facility.

As of December 31, 2022 and 2021, PacifiCorp had \$38 million and \$19 million, respectively, of fully available letters of credit issued under committed arrangements outside of its credit facility in support of certain transactions required by third parties that generally have provisions that automatically extend the annual expiration date.

### (8) Long-term Debt

In December 2022, PacifiCorp issued \$1.1 billion of its 5.35% First Mortgage Bonds due December 2053. PacifiCorp intends within 24 months of the issuance date to allocate an amount equal to the exprenditures made in one or more eligible projects in alignment with BHE's Green Financing Instrument; activities related to

PacifiCorp's long-term debt generally includes provisions that allow PacifiCorp to redeem the first mortgage bonds in whole or in part at any time through the payment of a make-whole premium. Variable-rate tax-exempt bond obligations are generally redeemable at par value.

PacifiCorp currently has regulatory authority from the Oregon Public Utility Commission and the Idaho Public Utilities Commission to issue an additional \$900 million of long-term debt. PacifiCorp currently has an effective shelf registration statement filed with the U.S. Securities and Exchange Commission to issue an indeterminate amount of first mortgage bonds through September 2023.

The issuance of PacifiCorp's first mortgage bonds is limited by available property, earnings tests and other provisions of PacifiCorp's mortgage. Approximately \$33 billion of PacifiCorp's eligible property (based on original cost) was subject to the lien of the mortgage as of December 31, 2022.

As of December 31, 2022, the annual principal maturities of long-term debt for 2023 and thereafter are as follows (in millions):

|  |          | Long-term<br>Debt                     |
|--|----------|---------------------------------------|
| 2023   |          | \$                                    |

Income tax credits relate primarily to production tax credits ("PTC") earned by PacifiCorp's wind-powered generating facilities are eligible for the credits for 10 years from the date the qualifying generating facilities are placed in-service. PTCs for the years ended December 31, 2022 and 2021 totaled \$185 million, respectively.

Effects of ratemaking is primarily attributable to activity associated with excess deferred income tax amortization, net of deferrals was \$112 million for 2021, including the use of \$4 million to amortize certain regulatory balances in Wyoming and Idaho.

The net deferred income tax liability consists of the following as of December 31 (in millions):

|                                       | 2022 |            | 2021    |

The U.S. Internal Revenue Service has closed or effectively settled its examinations, for the expiration of the statute of limitations, for the expiration of the statute of limitations, for the expiration of the statute of limitations is not closed.

### (10) Employee Benefit Plans

Effective income tax rate

PacifiCorp sponsors defined benefit pension and other postretirement benefit plans that cover certain of its employees, as well as a defined contribution 401(k) employee savings plan ("401(k) Plan"). In addition, PacifiCorp contributes to a joint trustee pension plan and a subsidiary previously contributed to a multiemployer pension plan for benefits offered to certain bargaining units.

### Defined Benefit Plan

PacifiCorp's pension plans include non-contributory defined benefit pension plans, collectively the PacifiCorp Retirement Plan ("SERP"). The Retirement Plan is closed to all non-union employees hired after January 1, 2008. All non-union employees hired after January 1, 2008 that did not elect to receive equivalent fixed contributions to the 401(k) Plan effective January 1, 2009 earned benefits based on a cash balance formula through December 31, 2016. Effective January 1, 2008 that did not elect to receive equivalent fixed contributions to the 401(k) Plan effective January 1, 2009 earned benefits based on a cash balance formula through December 31, 2016. Effective January 1, 2008 that did not elect to receive equivalent fixed contributions to the 401(k) Plan effective January 1, 2009 earned benefits based on a cash balance formula through December 31, 2016. Effective January 1, 2009 earned benefits based on a cash balance formula through December 31, 2016. Effective January 1, 2008 that did not elect to receive equivalent fixed contributions to the 401(k) Plan effective January 1, 2008 that did not elect to receive equivalent fixed contributions to the 401(k) Plan effective January 1, 2008 that did not elect to receive equivalent fixed contributions to the 401(k) Plan effective January 1, 2008 that did not elect to receive equivalent fixed contributions to the 401(k) Plan effective January 1, 2008 that did not elect to receive equivalent fixed contributions to the 401(k) Plan effective January 1, 2008 that did not elect to receive equivalent fixed contributions to the 401(k) Plan effective January 1, 2008 that did not elect to receive equivalent fixed contributions to the 401(k) Plan effective January 1, 2008 that did not elect to receive equivalent fixed contributions to the 401(k) Plan effective January 1, 2008 that did not elect to receive equivalent fixed contributions to the 401(k) Plan effective January 1, 2008 that did not elect to receive equivalent fixed contributions to the 401(k) Plan effective Janua

PacifiCorp's other postretirement benefit plan provides healthcare and life insurance benefits to eligible retirees

Pension Settlement

Pension settlement accounting was triggered in 2022 and 2021 as a result of the amount of lump sum distributions in the Retirement plan exceeding the service and interest cost threshold. The 2021 pension settlement accounting, Pacific orp recognized settlement losses of \$6\$ million, net of regulatory deferrals during the years ended December 31, 2022 and 2021.

Net Periodic Benefit Cost

For purposes of calculating the expected return on plan assets, a market-related value is used. The market-related value of plan assets is calculated by spreading the difference between expected and actual investment returns over a five-year period beginning after the first year in which they occur.

Net periodic benefit cost (credit) for the plans included the following components for the years ended December 31 (in millions):

2023 - indefinite

The SERP has no plan assets; however, PacifiCorp has a Rabbi trust that holds corporate-owned life insurance and other investments to provide funding for the future cash requirements of the SERP. The cash surrender value of all of the policies included in the Rabbi trust that holds corporate-owned life insurance and other investments as of December 31, 2022 and 2021, respectively. These assets are not included in the plan assets in the above table, but are reflected primarily in other investments as of December 31, 2022 and 2021, respectively, on the Comparative Balance Sheet. The projected and accumulated benefit obligations for the SERP were \$42 million and \$54 million and \$54 million and \$54 million and \$550 million and \$550

As of December 31, 2022, the fair value of the plan assets for the Retirement Plan was in excess of both the projected benefit obligation and the accumulated benefit obligation.

Unrecognized Amounts

The portion of the funded status of the plans not yet recognized in net periodic benefit cost as of December 31 is as follows (in millions):

| Total assets in the fair value hierarchy                                 | § 32 §                 | 130 \$  | <u> </u>         |
| Investment funds <sup>(2)</sup> measured at net asset value              |                        |   | 161              |
| Limited partnership interests <sup>(3)</sup> measured at net asset value |                        |   | 1                |
| Investments at fair value  |                        |   | \$ 324           |

(1) Refer to Note 13 for additional discussion regarding the three levels of the fair value hierarchy.

2) Investment funds are substantially comprised of mutual funds and collective trust funds. These funds consist of equity and debt securities of approximately 41% and 59%, respectively, for 2022 and 39% and 61%, respectively, for 2021, and are invested in U.S. and international securities of approximately 91% and 9%, respectively, for 2021 and 90% and 10%, respectively, for 2021.

(3) Limited partnership interests include several funds that invest primarily in real estate, buyout, growth equity and venture capital.

For level 1 investments, a readily observable quoted market price or net asset value for net asset value of an identical security in an active market is used for expedience purposes. A fund's net asset value is based on the fair value of the underlying assets held by the fund less its liabilities.

### Multiemployer and Joint Trustee Pension Plans

PacifiCorp contributes to the PacifiCorp/IBEW Local 57 Retirement Trust Fund ("Local 57 Trust Fund") (plan number 001) and its subsidiary, Energy West Mining Company, previously contributed to the UMWA 1974 Pension Plan (plan number 002). Contributions to these pension plans are based on the terms of collective bargaining agreements.

As a result of the Utah Mine Disposition and UMWA labor settlement, PacifiCorp's subsidiary, Energy West Mining Company, triggered involuntary withdrawal from the UMWA enployees ceased performing work for the subsidiary. PacifiCorp has subsequently revised its estimate of the withdrawal obligation in December 2014 when withdrawal obligation on the UMWA 1974 Pension Plan in June 2015 when the UMWA employees ceased performing work for the subsidiary. PacifiCorp recorded its estimate due to changes in facts and circumstances for a withdrawal occurring by July 2015. As communicated in a letter received in August 2016, the plan trustees determined a withdrawal obligation. The ultimate amount paid by Energy West Mining Company to settle the obligation is dependent on a variety of factors, including the results of ongoing negotiations with the plan trustees.

The Local 57 Trust Fund is a joint trustee plan such that the board of trustees from Pacificorp and the union. The Local 57 Trust Fund was established pursuant to the provisions of the Taft-Hartley Act and although formed with the ability for other employers to participate in the plan, there are no other employers that participate in this plan.

The risk of participating in multiemployer pension plans generally differs from single-employers and plan assets are pooled such that contributions by one employers and plan assets are pooled such that contributions by one employers and plan assets are pooled such that contributions by one employers and plan assets are pooled such that contributions by one employers and plan assets cannot revert to employers may be used to provide benefits to employers and plan assets are pooled such that contributions by one employers and plan assets are pooled such that contributions by one employers and plan assets are pooled such that contributions by one employers and plan assets cannot revert to employers and plan assets are pooled such that contributions by one employers and plan assets cannot revert to employers and plan assets are pooled such that contributions by one employers and plan assets are pooled such that contributions by one employers and plan assets cannot revert to employers and plan assets cannot revert to employers and plan assets are pooled such that contributions by one employers and plan assets cannot revert to employers and plan assets cannot revert to employers and plan assets are pooled such that contributions by one employers and plan assets cannot revert to employers and plan assets are pooled such that contributions by one employers and plan assets are pooled such that contributions by one employers and plan assets are pooled such that contributions by one employers and plan assets are pooled such that contributions by one employers and plan assets are pooled such that contributions by one employers and plan assets are pooled such that contributions in the plan, the employers are pooled such that contributions are pooled as a result of Employers and plan assets are pooled as a result of Employers and plan assets are pooled as a result of Employers are poo

The following table presents PacifiCory's participation in individually significant joint trustee and multiemployer pension plans for the years ended December 31 (dollars in millions):

|                     |                            | PPA of 2006 zone status or plan funded sta | tus percentage for plan years beginning July 1, |                          |  |      | Contributions <sup>(1)</sup> |     |  |
|---------------------|----------------------------|--|---|--------------------------|--|------|------------------------------|-----|--|
|                     | Employer<br>Identification |  | 2021  |                          |  |      |                              |     |  |
| Plan name           | Number                     | 2022                                       | 2021  | Funding improvement plan | Surcharge imposed under PPA of 2006 <sup>(1)</sup> | 2022 | 20                           | 121 | Year contributions to plan exceeded more than 5% of total contributions <sup>(2)</sup> |
| Local 57 Trust Fund | 87-0640888                 | At least 80%                               | At least 80%                                    | None                     | None   | S    | 6 \$                         | 6   | 2022, 2021   |

PacifiCorp's minimum contributions to the Local 57 Trust Fund are based on the amount of wages paid to employees covered by the Local 57 Trust Fund collective bargaining agreements, subject to ERISA minimum funding requirements. The collective bargaining agreements governing the Local 57 Trust Fund that were due to expire in 2023 were extended to 2028 in December 2022.

### Defined Contribution P

PacifiCorp's 401(k) Plan covers substantially all employees. PacifiCorp's matching contributions tae does not exceed the maximum allowable for tax purposes. PacifiCorp's contributions to the 401(k) Plan were \$44 million and \$40 million for the years ended December 31, 2022 and 2021, respectively.

### (11) Asset Retirement Obligations

PacifiCorp estimates its ARO liabilities based upon detailed engineering calculations of the amount and timing of the future cash spending for a third party to perform the required work. Spending estimates are escalated for inflation and tening of the amount and timing of the expected work.

PacifiCorp does not recognize liabilities for AROs for which the fair value cannot be reasonably estimated. Due to the indeterminate removal date, the fair value of the associated liabilities on certain transmission, distribution and \$1,187 million as of December 31, 2022 and 2021, respectively.

The following table reconciles the beginning and ending balances of PacifiCorp's ARO liabilities for the years ended December 31 (in millions):

|   | 2022   | 2021   |
|---|--------|--------|
|   |        |        |
| Beginning balance Change in estimated costs | \$ 304 | \$ 270 |
| Change in estimated costs                   | 20     | 40     |
| Additions                                   | 3      | _      |
| Retirements                                 | (6)    | (15)   |
| Accretion                                   | 10     | 9      |
| Ending balance                              | \$ 331 | \$ 304 |

Certain of PacifiCorp's decommissioning and reclamation obligations relate to jointly owned facilities and mine sites. PacifiCorp is estimated to pay a proportionate share of the decommissioning and reclamation costs. In the event of a default by any of the other joint participants, PacifiCorp's estimated share of the decommissioning and reclamation obligations are primarily recorded as ARO liabilities.

#### (12) Risk Management and Hedging Activities

PacifiCorp is exposed to the impact of market fluctuations in commodity prices and interest rates. PacifiCorp is principally exposed to electricity, natural gas, coal and fuel oil commodity prices and interest rates. PacifiCorp is principally exposed to describe the impact of market fluctuations in the price of fuel required to generate electricity and wholesale electricity and wholesale electricity and wholesale electricity and interest rates. PacifiCorp is principally exposed to electricity, natural gas, coal and fuel oil commodity prices are subject to electricity, natural gas, coal and fuel oil commodity prices are subject to electricity and wholesale electricity and interest rates as it has an obligation to serve retail customer load in its service territories. PacifiCorp is principally exposed to the impact of market fluctuations in the price of fuel required to generate electricity and wholesale electricity and fuel commodity prices are subject to electricity and wholesale electricity and fuel commodity prices are subject to electricity and fuel commodity prices are subject to electricity and fuel commodity prices are subject to electricity and wholesale elect

PacifiCorp has established a risk management process that is designed to identify, assess, manage and report on each of the various types of risk involved in its business. To mitigate a portion of its commodity price risk, PacifiCorp uses commodity price risk, PacifiCorp uses commodity price risk by limiting its exposure to variable interest rate risk by limiting its exposure to variable interest rate risk by limiting its exposure to variable interest rate risk. We interest rate forwards, futures, options, swaps and other agreements, to effectively secure future supply or sell future production generally at fixed prices. PacifiCorp manages its interest rate risk by limiting its exposure to variable interest rate risk by limiting its exposure to variable interest rate risk. We interest rate risk. We interest rate evil a fixed prices. PacifiCorp uses commodity price and interest rate risk, thereby exposing the unhedged portion to changes in market prices.

There have been no significant changes in PacifiCorp's accounting policies related to derivatives. Refer to Notes 2 and 13 for additional information on derivative contracts.

The following table, which reflects master netting arrangements and excludes contracts that have been designated as normal under the normal purchases or normal sales exception, summarizes the fair value of PacifiCory's derivative contracts, on a gross basis, and reconciles those amounts to the amounts presented on a net basis on the Comparative Balance Sheet (in millions):

|  | Current<br>Assets | Long-term<br>Assets | Current<br>Liabilities | Long-term<br>Liabilities | Total  |

| Net gains reclassified to energy costs                              |      | 309      | 124     |  |
| Ending balance  |      | (270) \$ | \$ (53) |  |
|   |      |          |         |  |

The following table summarizes the net notional amounts of outstanding commodity derivative contracts with fixed price terms that comprise the mark-to-market values as of December 31 (in millions):

|                            | Unit of        |      |      |     |
|----------------------------|----------------|------|------|-----|
|                            | Measure        | 2022 | 2021 |     |
| Electricity purchases, net | Megawatt hours | 2    |      | 2   |
| Natural gas purchases      | Decatherms     | 127  |      | 106 |

Credit Risk

PacifiCorp is exposed to counterparty credit risk associated with wholesale energy supply and marketing activities with other utilities, energy marketing companies, financial institutions and other market pacifiCorp analyzes the financial condition of each significant wholesale counterparty, establishes limits on the amount of unsecured credit to be extended to each counterparty and evaluates the appropriateness of unsecured credit inits on an ongoing basis. To further mitigate wholesale counterparty credit risk, PacifiCorp exercises rights under these arrangements, including calling on the counterparty's credit support arrangement.

Collateral and Contingent Feature

In accordance with industry practice, certain wholesale agreements, including derivative contracts, contain credit support provisions that in part base certain collateral requirements on a net basis exceed specified rating-dependent threshold levels ("credit-risk-related contingent features") or provide the right for counterparties to demand cash or other security if credit exposures on a net basis exceed specified rating-dependent threshold levels ("credit-risk-related contingent features") or provide the right for counterparties to demand cash or other security if credit exposures on a net basis exceed specified rating-dependent threshold levels ("credit-risk-related contingent features") or provide the right for counterparties to demand cash or other security if there is a material adverse change in PacifiCorp's credit rating species. These agreements may either specifically provide bilateral rights to demand cash or other security if credit exposures on a net basis exceed specified rating-dependent threshold levels ("credit-risk-related contingent features") or provide the right for counterparties to demand cash or other security if credit exposures on a net basis exceed specified rating-dependent threshold levels ("credit-risk-related contingent features") or provide the right for counterparties to demand cash or other security if credit exposures on a net basis exceed specified rating-dependent threshold levels ("credit-risk-related contingent features") or provide the right for counterparts of the recognized credit rating agencies.

The aggregate fair value of PacifiCorp's derivative contracts in liability positions with specific credit-risk-related contingent features for derivative contracts in liability positions had been triggered as of December 31, 2022 and 2021, PacifiCorp would have been required to post \$3 million, respectively, in the form of cash deposits. If all credit-risk-related contingent features for derivative contracts in liability positions had been triggered as of December 31, 2022 and 2021, PacifiCorp would have been required to post \$3 million and \$23 million, respectively, of which PacifiCorp had posted collateral requirements could fluctuate considerably due to market price volatility, changes in regulation or regulation or other factors.

### (13) Fair Value Measurements

The carrying value of PacifiCorp's eash, certain cash equivalents, receivables, other investments, payables, accrued liabilities and short-term borrowings approximates fair value on the financial assets and liabilities that are measurements, payables, accrued liabilities that are measured at fair value on the financial assets and liabilities that are measurements, payables, accrued liabilities that are measurements to the fair value on the financial assets and liabilities that are measurements are sollows:

- Level 1 Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that PacifiCorp has the ability to access at the measurement date.
- Level 2 Inputs include quoted prices for similar assets or liabilities in market, quoted prices for identical or similar assets or liabilities in market that are not active, inputs other than quoted prices that are derived principally from or corroborated by observable market data by correlation or other means (market corroborated inputs)
- Level 3 Unobservable inputs reflect PacifiCorp's judgments about the assumptions market participants would use in pricing the asset or liability since limited market data exists. PacifiCorp develops these inputs based on the best information available, including its own data.

the following table presents PacifiCorn's financial assets and liabilities recognized on the Comparative Balance Sheet and measured at fair value on a recurring basis (in million

|   |          | Input Levels for Fair Value Measurements |            |                      |         |
|---|----------|--|------------|----------------------|---------|

| Total commitments   | \$ 2,096 | \$ 1,023 | \$ 516 | \$ 495 | \$ 491 | \$ 4,106            | \$ 8,727 |

Purchased Electricity Contracts - Commercially Operable

As part of its energy resource portfolio, PacifiCorp acquires a portion of its electricity through long-term purchases and exchange agreements. PacifiCorp has many long-term PPAs generally range from 7 to 30 years in duration, with certain of the PPAs extending through 2054. Future payments associated with these PPAs are expected to be material. Certain of these PPAs qualify as leases as described in Note 2. Refer to Note 5 for variable lease consts associated with these lease commitments.

Included in the minimum fixed annual payments for purchased electricity above are commitments to purchase electricity from several hydroelectric systems under long-term arrangements with public utility districts. These purchases are made on a "cost-of-service" basis for a stated percentage of system output and for a like per

Purchased Electricity Contracts - Non-Commercially Operable

PacifiCorp has many long-term PPAs with facilities that have not yet achieved commercial operation, primarily related to wind-powered and solar-powered and solar-powered and solar conditions. The PPAs generally range from 7 to 30 years in duration with certain of the PPAs extending through 2054.

In September 2022, PacifiCorp entered into a purchased electricity contract for a 400 MW solar generating facility including a 200 MW battery storage unit are included in the table above. In January 2023, PacifiCorp entered into a PPA for a 525 MW solar generating facility with a corresponding agreement for a 150 MW battery storage unit for which the minimum obligations are being evaluated.

Future payments associated with these arrangements are expected to be material. However, to the extent these facilities do not achieve commercial operation, PacifiCorp has no obligation to the counterparties.

Fuel Contracts

PacifiCorp has "take or pay" coal and natural gas contracts that require minimum payments

Construction Commitmen

PacifiCorp's construction commitments included in the table above relate to firm commitments and include costs associated with certain generating plant, transmission, and distribution projects

Transmissio

PacifiCorp has contracts for the right to transmit electricity over other entities' transmission lines to facilitate delivery to PacifiCorp's customers

Easeme

PacifiCorp has non-cancelable easements for land on which certain of its assets, primarily wind-powered generating facilities, are located

Environmental Laws and Regulation:

PacifiCorp is subject to federal, state and local laws and regulations regarding air quality, climate change, emissions performance standards, water quality, cal ash disposal, wildfire prevention and mitigation and other environmental matters that have the potential to impact its current and future operations. PacifiCorp believes it is in material compliance with all applicable laws and regulations

Lower Klamath Hydroelectric Project

PacifiCorp is a party to the 2016 amended Klamath Hydroelectric Settlement ("KHSA"), which is intended to resolve disputes surrounding PacifiCorp, the key elements of the settlement include: (1) a contribution from PacifiCorp, the states of Oregon and California ("States") and other stakeholders to assess whether dam removal can occur consistent with the settlement include: (1) a contribution from harms associated with dam removal; (3) transfer of the FERC license to a third-party dam removal commences.

In September 2016, the KRRC and PacifiCorp filed a joint application with the FERC to transfer the license for the four mainstem Klamath Project (FERC Project No. 14803) from PacifiCorp permains co-licensee during the surrender and removal process given concerns about liability protections for PacifiCorp and its customers. In November 2020, PacifiCorp entered a memorandum of agreement (the "MOA") with the KRRC, the Karuk Tribe, the Yurok Tribe and the States to continue implementation of the KHSA. The agreement required the States, pacifiCorp and the States, and for PacifiCorp to cover the costs associated with certain removal as completed the States, and for PacifiCorp to cover the costs associated with certain removal as completed the States and KRRC and the States are collicensees. In July 2021, the Oregon, Wyoming, Idado and California state public values of the Public Service Commissions or Oll than of the property transfer applications. In August 2021, per FERC damproved the PacifiCorp to the KRRC and the States as collicensees. In July 2021, the PERC states in December 2022, the FERC States in December 2022, along with the transfer of the Lower Klamath Project dams. Although PacifiCorp no longer owns the Lower Klamath Project, which was accepted by the KRRC and the States in December 2023, and removal of the remaining three dams (J.C. Boyle, Copeo No. 1, and Iron Gate) is anticipated to begin in 2024.

Hydroglactric Commitment

Certain of PacifiCorp's hydroelectric licenses and settlement agreements contain requirements for PacifiCorp to make certain capital and operating expenditures related to its hydroelectric facilities, which are estimated to be approximately \$282 million over the next 10 years.

Legal Matters

PacifiCorp is party to a variety of legal actions arising out of the normal course of business. Plaintiffs occasionally seek punitive or exemplary damages. PacifiCorp does not believe that such normal and routine litigation will have a material impact on its financial results. PacifiCorp does not believe that such normal and routine litigation will have a material impact on its financial results. PacifiCorp does not believe that such normal and routine litigation will have a material impact on its financial results. PacifiCorp does not believe that such normal and routine litigation will have a material impact on its financial results. PacifiCorp does not believe that such normal and routine litigation will have a material impact on its financial results. PacifiCorp does not believe that such normal course of business. Plaintiffs occasionally seek punitive or exemplary damages.

### Wildfires Overview

A provision for a loss contingency is recorded when it is probable that a liability has been incurred and the amount of loss can be reasonably estimated. PacifiCorp evaluates the related range of reasonably estimated losses and records a loss based on its best estimate within that range or the lower end of the range if there is no better estimate.

In California, under inverse condemnation, courts have held that investor-owned utilities can be liable for real and personal property damages from wildfires without the utility being found negligent and regardless of fault. California law also permits inverse condemnation or other provisions do not apply, PacifiCorp could be found liable for all damages; fire suppression costs; personal injury and loss of life damages; and interest.

#### 2020 11/21/10

In September 2020, a severe weather event resulting in high winds, low humidity and warm temperatures contributed to several major wildfires, which resulted in real and personal property and natural resource damage, personal injuries and loss of life and widespread power outages in Oregon; Marion County, Oregon; and Klamath County, Oregon burning over 500,000 acres in aggregate. Third party reports for these wildfires indicate over 2,000 structures destroyed, including residences; several structures damaged; multiple individuals injured; and several fatalities. Fire suppression costs estimated by various agencies total approximately \$150 million.

Investigations into the cause and origin of each wildfire are complex and ongoing and being conducted by various entities, including the U.S. Forest Service, the California Public Utilities Commission, the Oregon Department of Forestry, the Oregon Department of Justice, PacifiCorp and various experts engaged by PacifiCorp

As of the date of this filing, numerous lawsuits have been filed in Oregon and California with allegations similar to those made in the aforementioned lawsuits. The final determinations of liability, however, will only be made following the completion of comprehensive investigations and litigation processes.

PacifiCorp accrued cumulative estimated probable losses associated with the 2020 Wildfires of \$477 million, through December 31, 2022. The accrual as of December 31, 2022 includes PacifiCorp's estimate of losses for fire suppression costs, real and personal injury damages and loss of life damages that it was reasonably able to estimate based on information available through February 24, 2023, the date through which PacifiCorp's as evaluated the impacts of events occurring after December 31, 2022 as indicated under "Subsequent to February 24, 2023 will be considered in a future period. For certain aspects of the 2020 Wildfires for which loss is considered probable, information necessary to reasonably estimate the potential losses, such as those related to certain areas of natural resource damages, is not currently available.

It is reasonably possible PacifiCorp will incur additional losses beyond the amounts accrued; however, PacifiCorp is currently unable to estimate the range of possible additional insurance coverage is expected to be available details. To the extent losses beyond the amounts accrued are incurred, additional insurance coverage is expected to be available to cover a portion of the losses.

The following table presents changes in PacifiCorp's liability for estimated losses associated with the 2020 Wildfires for the years ended December 31 (in millions):

|                   | 2022  | 2021                                  |
|-------------------|-------|---------------------------------------|
|                   |       |                                       |
| Beginning balance | \$ 25 | 2 \$ 252                              |
| Accrued losses    | 22    | 5 —                                   |
| Payments          | (5    | — — — — — — — — — — — — — — — — — — — |
| Ending balance    | \$ 42 | \$ 252                                |
|                   |       |                                       |

PacifiCory's receivable for expected insurance recoveries associated with the probable losses was \$246 million and \$116 million, respectively, as of December 31, 2022 and 2021. During the years ended December 31, 2022 and 2021. PacifiCorp recognized probable losses net of expected insurance recoveries associated with the 2020 Wildfires of \$64 million and \$500 million, respectively.

#### 2022 McKinney Fire

According to California Department of Forestry and Fire Protection. on July 29, 2022, at approximately 2:16 p.m. Pacific Time, a wildfire began in the Oak Knoll Ranger District of the Klamath National Forest in Siskiyou County, California (the

"2022 McKinney Fire") location in Pacific India Department of 10 Casay and 10 Casay

Due to the preliminary nature of the investigation PacifiCorp does not believe a loss is probable, PacifiCorp is estimate the loss is not probable, PacifiCorp is unable to tal potential loss, including losses for natural resource damages, and noneconomic damages, and noneconomic damages and hone conomic damages and hone conomic damages, and noneconomic damages, and non

As of the date of this filing, multiple lawsuits have been filed in California on behalf of plaintiffs related to the 2022 McKinney Fire. The plaintiffs related to the 2022 McKinney Fire and other damages, exemplary damage

#### Guarantee

PacifiCorp has entered into guarantees as part of the normal course of business and the sale or transfer of certain assets. These guarantees are not expected to have a material impact on PacifiCorp's financial results.

#### (15) Preferred Stock

In the event of voluntary liquidation, all preferred stock is entitled to stated value or a specified preference amount per share plus accrued dividends. Dividends on all preferred stock is entitled to stated value plus accrued dividends payable are in default in an amount equal to four full quarterly payments.

## (16) Common Shareholder's Equity

Through PPW Holdings, BHE is the sole shareholder of PacifiCorp's common equity below specified percentages of defined capitalization. As of December 31, 2022, the most restrictive of these commitments prohibits PacifiCorp solitary orders that authorized BHE's acquisition of PacifiCorp's common equity below 44% of its total capitalization, excluding short-term debt and current maturities of long-term debt. As of December 31, 2022, PacifiCorp's actual common equity percentage, as calculated under this measure, was 54%, and PacifiCorp would have been permitted to dividend \$3.5 billion under this commitment.

These commitments also restrict PacifiCorp from making any distributions to either PPW Holdings or BHE if PacifiCorp's senior unsecured debt rating is BBB- or lower by Moody's Investor Service, as indicated by two of the three rating services. As of December 31, 2022, PacifiCorp met the minimum required senior unsecured debt rating is brightness.

PacifiCorp is also subject to a maximum debt-to-total capitalization percentage under various financing agreements as further discussed in Note 7.

In January 2023, PacifiCorp declared dividends of \$300 million payable to PPW Holdings LLC in February 2023.

### (17) Supplemental Cash Flow Disclosures

The summary of supplemental cash flow disclosures as of and for the years ended December 31 is as follows (in millions):

| Interest paid, net of amounts capitalized                               |
|---|
| Income taxes (received), net (1)  |
| Supplemental disclosure of non-cash investing and financing activities: |
| Accounts payable related to utility plant additions                     |

| <br>2022    | <br>2021    |

## STATEMENTS OF ACCUMULATED COMPREHENSIVE INCOME, COMPREHENSIVE INCOME, AND HEDGING ACTIVITIES

- 1. Report in columns (b),(c),(d) and (e) the amounts of accumulated other comprehensive income items, on a net-of-tax basis, where appropriate.
  2. Report in columns (f) and (g) the amounts of other categories of other cash flow hedges.
  3. For each category of hedges that have been accounted for as "fair value hedges", report the accounts affected and the related amounts in a footnote.
  4. Report data on a year-to-date basis.

## NUCLEAR FUEL MATERIALS (Account 120.1 through 120.6 and 157)

- 1. Report below the costs incurred for nuclear fuel materials in process of fabrication, on hand, in reactor, and in cooling; owned by the respondent.

  2. If the nuclear fuel stock is obtained under leasing arrangements, attach a statement showing the amount of nuclear fuel leased, the quantity used and quantity on hand, and the costs incurred under such leasing arrangements.

FERC FORM No. 1 (ED. 12-89)

Page 202-203

| Name of Respondent: | This report is:  (1) ☑ An Original | Date of Report: 04/18/2023 | Year/Period of Report<br>End of: 2022/ Q4 |
|---------------------|------------------------------------|----------------------------|---|
|                     | (2) $\square$ A Resubmission       |                            |   |

### ELECTRIC PLANT IN SERVICE (Account 101, 102, 103 and 106)

- 1. Report below the original cost of electric plant in service according to the prescribed accounts.
  2. In addition to Account 101, Electric Plant in Service (Classified), this page and the next include Account 102, Electric Plant Purchased or Sold; Account 103, Experimental Electric Plant Unclassified; and Account 106, Completed Construction Not Classified-Electric.
  3. Include in column (c) or (d), as appropriate, corrections of additions and retirements for the current or preceding year.
  4. For revisions to the amount of initial asset retirement costs capitalized, included by primary plant account, increases in column (c) additions and reductions in column (e) adjustments.

- 5. Enclose in parentheses credit adjustments of plant accounts to indicate the negative effect of such accounts.
- 5. Encloses in parentnesses creatin adjustments of plant accounts to indicate the negative eiters of such accounts.

  6. Classified accounts to prescribed accounts to prescribed accounts, on an estimated basis if necessary, and include the entries in column (c) are entries for reversals of the prior year reported in column (d) a tentative distributions of these amounts, on an estimated basis, with appropriate contra entry to the account distributions of these amounts. Careful observance of the above instructions and the texts of Accounts 101 and 106 will be account distributions of these amounts. Careful observance of the above instructions and the texts of Accounts 101 and 106 will be account distributions of these amounts.
- avoid serious omissions of the reported amount of respondent's plant actually in service at end of year.

  7. Show in column (f) reclassifications or transfers within utility plant accounts. Include also in column (f) only the additions or reductions of primary account (assistantial and the case of recent distributions of these amounts of the account of account of the a in column (f) to primary account classifications.
- 8. For Account 399, state the nature and use of plant included in this account and if substantial in amount submit a supplementary statement showing subaccount classification of such plant conforming to the requirement of these pages.

  9. For each amount comprising the reported balance and changes in Account 102, state the property purchased or sold, name of vendor or purchase, and date of transaction. If proposed journal entries have been filed with the Commission as required by the Uniform System of Accounts, give also date.

## CONSTRUCTION WORK IN PROGRESS - - ELECTRIC (Account 107)

- 1. Report below descriptions and balances at end of year of projects in process of construction (107).
  2. Show items relating to "research, development, and demonstration" projects last, under a caption Research, Development, and Demonstrating (see Account 107 of the Uniform System of Accounts).
  3. Minor projects (5% of the Balance End of the Year for Account 107 or \$1,000,000, whichever is less) may be grouped.

### ACCUMULATED PROVISION FOR DEPRECIATION OF ELECTRIC UTILITY PLANT (Account 108)

- 1. Explain in a footnote any important adjustments during year.

  2. Explain in a footnote any difference between the amount for book cost of plant retired, Line 12, column (c), and that reported for electric plant in service, page 204, column (d), excluding retirements of non-depreciable property.

  3. The provisions of Account 108 in the Uniform System of Accounts require that retirements of depreciable plant be recorded when such plant is removed from service. If the respondent has a significant amount of plant retired at year end which has not been recorded and/or classified to the various reserve functional classifications, make preliminary closing entries to tentatively functionalize the book cost of the plant retired. In addition, included in retirement work in progress at year end in the appropriate functional classifications.

  4. Show separately interest credits under a sinking fund or similar method of depreciation accounting.

FERC FORM No. 1 (REV. 12-05)

1) In accordance with 18 C.F.R.§35.18 (a-c) a public utility that files a transmission rate schedule, tariff or service agreement under §35.12 or §35.13 and has recorded an asset retirement obligation on its books, but is not seeking recovery of the asset retirement costs in rates, must remove all asset retirement obligations-related cost components from the cost of service supporting its proposed rates.

### INVESTMENTS IN SUBSIDIARY COMPANIES (Account 123.1)

- 1. Report below investments in Account 123.1, Investments in Subsidiary Companies.
  2. Provide a subheading for each company and list thereunder the information called for below. Sub-TOTAL by company and give a TOTAL in columns (e), (f), (g) and (h). (a) Investment in Securities List and describe each security owned. For bonds give also principal amount, date of issue, maturity, and interest rate. (b) Investment Advances Report separately the amounts of loans or investment advances which are subject to repayment, but which are not subject to current settlement. With respect to each advance show whether the advance is a note or open account. List each note giving date of issuance, maturity date, and specifying whether note is a renewal.
  3. Report separately the equity in undistributed subsidiary earnings since acquisition. The TOTAL in column (e) should equal the amount entered for Account 418.1.
  4. For any securities, notes, or accounts that were pledged designate such securities, notes, or accounts in a footnote, and state the name of pledgee and purpose of the pledge.
  5. If Commission approval was required for any advance made or security acquired, designate such fact in a footnote and give name of Commission, date of authorization, and case or docket number.
  6. Report column (f) interest and dividend revenues from investments, including such revenues from securities disposed of during the year, the gain or loss represented by the difference between cost of the investment (or the other amount at which carried in the books of account if different from cost) and the selling price thereof, not including interest adjustment includible in column (f).
  8. Report on Line 42, column (a) the TOTAL cost of Account 123.1.

### Allowances (Accounts 158.1 and 158.2)

- 1. Report below the particulars (details) called for concerning allowances.

  2. Report all acquisitions of allowances at cost.

  3. Report allowances in accordance with a weighted average cost allocation method and other accounting as prescribed by General Instruction No. 21 in the Uniform System of Accounts.

  4. Report the allowances transactions by the period they are first eligible for use: the current year's allowances in columns (b)-(c), allowances for the three succeeding years in columns (d)-(i), starting with the following year, and allowances for the remaining succeeding years in columns (j)-(k).

  5. Report on Line 4 the Environmental Protection Agency (EPA) issued allowances. Report withheld portions Lines 36-40.

  6. Report on Line 5 allowances returned by the EPA. Report on Line 39 the EPA's sales of the withheld allowances. Report on Lines 43-46 the net sales proceeds and gains/losses resulting from the EPA's sale or auction of the withheld allowances.

  7. Report on Lines 8-14 the names of vendors/transferors of allowances acquired and identify associated companies (See "associated company" under "Definitions" in the Uniform System of Accounts).

  8. Report on Lines 22 27 the name of purchasers/ transferes of allowances acquired and identify associated companies.

  9. Report the net costs and benefits of hedging transactions on a separate line under purchases/transfers and sales/transfers.

  10. Report on Lines 32-35 and 43-46 the net sales proceeds and gains or losses from allowance sales.

### Allowances (Accounts 158.1 and 158.2)

- 1. Report below the particulars (details) called for concerning allowances.

  2. Report all acquisitions of allowances at cost.

  3. Report allowances in accordance with a weighted average cost allocation method and other accounting as prescribed by General Instruction No. 21 in the Uniform System of Accounts.

  4. Report the allowances transactions by the period they are first eligible for use: the current year's allowances in columns (b)-(c), allowances for the three succeeding years in columns (d)-(i), starting with the following year, and allowances for the remaining succeeding years in columns (j)-(k).

  5. Report on Line 4 the Environmental Protection Agency (EPA) issued allowances. Report withheld portions Lines 36-40.

  6. Report on Line 5 allowances returned by the EPA. Report on Line 39 the EPA's sales of the withheld allowances. Report on Lines 43-46 the net sales proceeds and gains/losses resulting from the EPA's sale or auction of the withheld allowances.

  7. Report on Lines 8-14 the names of vendors/transferors of allowances acquired and identify associated companies (See "associated company" under "Definitions" in the Uniform System of Accounts).

  8. Report on Lines 22 27 the name of purchasers/ transferes of allowances acquired and identify associated companies.

  9. Report the net costs and benefits of hedging transactions on a separate line under purchases/transfers and sales/transfers.

  10. Report on Lines 32-35 and 43-46 the net sales proceeds and gains or losses from allowance sales.

# Transmission Service and Generation Interconnection Study Costs

- 1. Report the particulars (details) called for concerning the costs incurred and the reimbursements received for performing transmission service and generator interconnection studies.

  2. List each study separately.

  3. In column (a) provide the name of the study.

  4. In column (b) report the cost incurred to perform the study at the end of period.

  5. In column (c) report the account charged with the cost of the study.

  6. In column (d) report the amounts received for reimbursement of the study costs at end of period.

  7. In column (e) report the account credited with the reimbursement received for performing the study.

| Line No. Description (a) | Costs Incurred During Period (b) | Account Charged (c) | Reimbursements Received During the Period (d) | Account Credited With Reimbursement (e) |

### (a) Concept: ClassAndSeriesOfObligationCouponRateDescription

In December 2022, PacifiCorp issued \$1.1 billion of its 5.35% First Mortgage Bonds due December 203. State authorizations for this issuance were as follows: (a) Idaho Public Utility Commission ("PUC") - Docket No. UF-4318, Order No. 20-393, dated November 3, 2020.

# $\underline{(\underline{b})}\ Concept:\ ClassAndSeriesOfObligationCouponRateDescription$

Secured by pledged first mortgage bonds registered to and held by the pollution control bond trustee generally with the same interest rates, maturity dates and redemption provisions as the pollution control bond obligations.

### (c) Concept: ClassAndSeriesOfObligationCouponRateDescription

Secured by pledged first mortgage bonds registered to and held by the pollution control bond trustee generally with the same interest rates, maturity dates and redemption provisions as the pollution control bond obligations.

#### (d) Concept: ClassAndSeriesOfObligationCouponRateDescription

Secured by pledged first mortgage bonds registered to and held by the pollution control bond trustee generally with the same interest rates, maturity dates and redemption provisions as the pollution control bond obligations.

### (e) Concept: ClassAndSeriesOfObligationCouponRateDescription

Secured by pledged first mortgage bonds registered to and held by the pollution control bond trustee generally with the same interest rates, maturity dates and redemption provisions as the pollution control bond obligations.

# (f) Concept: ClassAndSeriesOfObligationCouponRateDescription

Secured by pledged first mortgage bonds registered to and held by the pollution control bond trustee generally with the same interest rates, maturity dates and redemption provisions as the pollution control bond obligations.

### (g) Concept: ClassAndSeriesOfObligationCouponRateDescription

Secured by pledged first mortgage bonds registered to and held by the pollution control bond trustee generally with the same interest rates, maturity dates and redemption provisions as the pollution control bond obligations.

#### (h) Concept: InterestExpenseBonds

Amount represents interest expense charged to Account 427, Interest on long-term debt and does not include any amount charged to Account 430, Interest on debt to associated companies, as all such interest was accrued on amounts included in Account 233, Notes payable to associated companies during the year.

# (i) Concept: ClassAndSeriesOfObligationCouponRateDescription

As of December 31, 2022, PacifiCorp had regulatory authorization from the OPUC and IPUC to issue an additional \$900 million of long-term debt and must make a notice filing with the Washington Utilities and Transportation Commission prior to future issuances. In addition, as of December 31, 2022, PacifiCorp had an effective shelf registration statement with the United States Securities Exchange Commission to issue an indeterminate amount of first mortgage bonds through September 2023. For further information, refer to Item 6 in Important Changes During the Year in this Form No. 1. Authorization to borrow the proceeds of pollution control revenue refunding bonds issued by the counties of Emery, Utah; Converse, Wyoming; Lincoln, Wyoming; Sweetwater, Wyoming; Lincoln, Wyoming; Country, Arizona; and Routt Country, Colorado (total of \$150,000,000 authorized and available as of December 31, 2022) is as follows: (a) IPUC - Case No. PAC-E-08-05, Order No. 30606, dated August 4, 2008; and (b) OPUC - Docket No. UF-4250, Order No. 08-382, dated July 29, 2008.

# RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

- 1. Report the reconciliation of reported net income for the year with taxable income for the year. Indicate clearly the nature of each reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling
- 2. If the tax return for a group which files a consolidated Federal tax return, reconcile reported net income as if a separate return were to be field, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group member, tax assigned to each group member, and basis of allocation, assignment, or sharing of the consolidated tax among the group members.

| 3. A substitute pa | e page, designed to meet a particular need of a company, may be used as Long as the data is consistent and meets the requirements of the above instructions. For electronic reporting purposes complete Line 27 and provide the substitute Page in the context of a footnote. |               |  |  |  |

Page 261

| Name of Respondent: PacifiCorp  This report is:  (1) ☑ An Original  (2) ☐ A Resubmission | Date of Report: 04/18/2023 | Year/Period of Report<br>End of: 2022/ Q4 |
|--|----------------------------|---|
|--|----------------------------|---|

### TAXES ACCRUED, PREPAID AND CHARGES DURING YEAR

- 1. Give particulars (details) of the combined prepaid and accrued tax accounts and show the total taxes charged to operations and other accounts during the year. Do not include gasoline and other sales taxes which have been charged to the accounts to which the taxed material was charged. If the actual, or estimated amounts of such taxes are known, show the amounts in a footnote and designate whether estimated or actual amounts.

  2. Include on this page, taxes paid during the year and charged direct to final accounts, (not charged to prepaid or accrued taxes.) Enter the amounts in both columns (g) and (h). The balancing of this page is not affected by the inclusion of these taxes.

  3. Include in column (g) taxes charged during the year, taxes charged to operations and other accounts through (a) accruals credited to taxes accrued, (b)amounts credited to proportions of prepaid taxes chargeable to current year, and (c) taxes paid and charged direct to operations or accounts other than accrued and prepaid tax accounts.

  4. List the aggregate of each kind of tax in such manner that the total tax for each State and subdivision can readily be ascertained.

  5. If any tax (exclude Federal and State income taxes) covers more than one year, show the required information separately for each tax year, identifying the year in column (d).

  6. Enter all adjustments of the accrued and prepaid tax accounts in column in (i) and explain each adjustment in a footnote. Designate debit adjustments by parentheses.

  7. Do not include on this page entries with respect to deferred income taxes or taxes collected through payroll deductions or otherwise pending transmittal of such taxes to the taxing authority.

  8. Report in columns (i) through (o) how the taxes were distributed. Report in column (o) only the amounts charged to Accounts 408.1 and 409.1 pertaining to other utility departments and amounts charged to Accounts 408.2 and 409.2. Also shown in column (o) the taxes charged to utility plant or other balance sheet accounts.

- accounts.

  9. For any tax apportioned to more than one utility department or account, state in a footnote the basis (necessity) of apportioning such tax.

Weighted average remaining life is approximately five years. FERC FORM NO. 1 (REV 02-04)

| Name of Respondent: PacifiCorp | This report is: (1) ☑ An Original (2) □ A Resubmission | Date of Report: 04/18/2023 | Year/Period of Report<br>End of: 2022/ Q4 |
|--------------------------------|--|----------------------------|---|
|                                |  |                            | 1   |

### **Electric Operating Revenues**

- 1. The following instructions generally apply to the annual version of these pages. Do not report quarterly data in columns (c), (e), (f), and (g). Unbilled revenues and MWH related to unbilled revenues need not be reported separately as required in the annual version of these pages.

  2. Report below operating revenues for each prescribed account, and manufactured gas revenues in total.

  3. Report number of customers, columns (f) and (g), on the basis of meters, in addition to the number of flat rate accounts; except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters added. The average number of customers means the average of twelve figures at the close of each month.

  4. If increases or decreases from previous period (columns (c), (e), and (g)), are not derived from previously reported figures, explain any inconsistencies in a footnote.

  5. Disclose amounts of \$250,000 or greater in a footnote for accounts 451, 456, and 457.2.

  6. Commercial and industrial Sales, Account 442, may be classified according to the basis of classification (Small or Commercial, and Large or Industrial) regularly used by the respondent if such basis of classification is not generally greater than 1000 Kw of demand. (See Account 442 of the Uniform System of Accounts. Explain basis of classification in a footnote.)

  7. See page 108, Important Changes During Period, for important new territory added and important rate increase or decreases.

  8. For Lines 2.4 5 and 6 see Page 304 for appropriate figures to unbilled revenues and Month.

- See page 100, important changes burning Ferious, in important new ternitory added and fing
   For Lines 2,4,5,and 6, see Page 304 for amounts relating to unbilled revenue by accounts.
   Include unmetered sales. Provide details of such Sales in a footnote.

FERC FORM NO. 1 (NEW. 12-05)

| Name of Respondent:<br>PacifiCorp | This report is:  (1) ☑ An Original  (2) ☐ A Resubmission | Date of Report: 04/18/2023 | Year/Period of Report<br>End of: 2022/ Q4 |
|-----------------------------------|--|----------------------------|---|
|-----------------------------------|--|----------------------------|---|

- 1. Report below for each rate schedule in effect during the year the MWH of electricity sold, revenue, average number of customer, average Kwh per customer, and average revenue per Kwh, excluding date for Sales for Resale which is reported on Page 310.

  2. Provide a subheading and total for each prescribed operating revenue account in the sequence followed in "Electric Operating Revenues," Page 300. If the sales under any rate schedule are classified in more than one revenue account, List the rate schedule and sales data under each applicable revenue account subheading.

  3. Where the same customers are served under more than one rate schedule and cancer account classification (such as a general residential schedule and an off peak water heating schedule), the entries in column (d) for the special schedule should denote the duplication in number of reported customers.

  4. The average number of customers should be the number of bills rendered during the year divided by the number of billing periods during the year (12 if all billings are made monthly).

  5. For any rate schedule having a fuel adjustment clause state in a footnote the estimated additional revenue billed pursuant thereto.

  6. Report amount of unbilled revenue as of end of year for each applicable revenue account subheading.

FERC FORM NO. 1 (ED. 12-95)
Page 304

| PacifiCorp 04/18 | Date of Report:<br>)4/18/2023 | Year/Period of Report<br>End of: 2022/ Q4 |
|------------------|-------------------------------|---|
|------------------|-------------------------------|---|

- 1. Report below for each rate schedule in effect during the year the MWH of electricity sold, revenue, average number of customer, and average revenue per Kwh, excluding date for Sales for Resale which is reported on Page 310.

  2. Provide a subheading and total for each prescribed operating revenue account in the sequence followed in "Electric Operating Revenues," Page 300. If the sales under any rate schedule are classified in more than one revenue account, List the rate schedule and sales data under each applicable revenue account subheading.

  3. Where the same customers are served under more than one rate schedule in the same revenue account classification (such as a general residential schedule and an off peak water heating schedule), the entries in column (d) for the special schedule should denote the duplication in number of reported customers.

  4. The average number of customers should be the number of billis rendered during the year divided by the number of billing periods during the year (12 if all billings are made monthly).

  5. For any rate schedule having a fuel adjustment clause state in a footnote the estimated additional revenue billed pursuant thereto.

  6. Report amount of unbilled revenue as of end of year for each applicable revenue account subheading.

FERC FORM NO. 1 (ED. 12-95)

Page 304

| Name of Respondent: PacifiCorp  (1) An Original (2) A Resubmission  Date of Report: 04/18/2023  PacifiCorp  Date of Report: 04/18/2023  Year/Period of Report End of: 2022/ Q4 |
|--|
|--|

- 1. Report below for each rate schedule in effect during the year the MWH of electricity sold, revenue, average Kwh per customer, and average revenue per Kwh, excluding date for Sales for Resale which is reported on Page 310.

  2. Provide a subheading and total for each prescribed operating revenue account in the sequence followed in "Electric Operating Revenues," Page 300. If the sales under any rate schedule are classified in more than one revenue account, List the rate schedule and sales data under each applicable revenue account subheading.

  3. Where the same customers are served under more than one rate schedule in the same revenue account classification (such as a general residential schedule and an off peak water heating schedule), the entries in column (d) for the special schedule should denote the duplication in number of reported customers.

  4. The average number of customers should be the number of bills rendered during the year divided by the number of bills reported during the year (12 if all billings are made monthly).

  5. For any rate schedule having a fuel adjustment clause state in a footnote the estimated additional revenue billed pursuant thereto.

  6. Report amount of unbilled revenue as of end of year for each applicable revenue account subheading.

FERC FORM NO. 1 (ED. 12-95)
Page 304

| (2) A Resubmission | Name of Respondent: PacifiCorp | (2) A Resubmission | Date of Report: 04/18/2023 | Year/Period of Report<br>End of: 2022/ Q4 |
|--------------------|--------------------------------|--------------------|----------------------------|---|
|--------------------|--------------------------------|--------------------|----------------------------|---|

- 1. Report below for each rate schedule in effect during the year the MWH of electricity sold, revenue, average number of customer, average Kwh per customer, and average revenue per Kwh, excluding date for Sales for Resale which is reported on Page 310.

  2. Provide a subheading and total for each prescribed operating revenue account in the sequence followed in "Electric Operating Revenues," Page 300. If the sales under any rate schedule are classified in more than one revenue account, List the rate schedule and sales data under each applicable revenue account subheading.

  3. Where the same customers are served under more than one rate schedule and cancer account classification (such as a general residential schedule and an off peak water heating schedule), the entries in column (d) for the special schedule should denote the duplication in number of reported customers.

  4. The average number of customers should be the number of bills rendered during the year divided by the number of billing periods during the year (12 if all billings are made monthly).

  5. For any rate schedule having a fuel adjustment clause state in a footnote the estimated additional revenue billed pursuant thereto.

  6. Report amount of unbilled revenue as of end of year for each applicable revenue account subheading.

FERC FORM NO. 1 (ED. 12-95)
Page 304

| Name of Respondent: PacifiCorp | This report is:  (1) ☑ An Original  (2) ☐ A Resubmission | Date of Report: 04/18/2023 | Year/Period of Report<br>End of: 2022/ Q4 |
|--------------------------------|--|----------------------------|---|
|--------------------------------|--|----------------------------|---|

- 1. Report below for each rate schedule in effect during the year the MWH of electricity sold, revenue, average number of customer, average Kwh per customer, and average revenue per Kwh, excluding date for Sales for Resale which is reported on Page 310.

  2. Provide a subheading and total for each prescribed operating revenue account in the sequence followed in "Electric Operating Revenues," Page 300. If the sales under any rate schedule are classified in more than one revenue account, List the rate schedule and sales data under each applicable revenue account subheading.

  3. Where the same customers are served under more than one rate schedule and cancer account classification (such as a general residential schedule and an off peak water heating schedule), the entries in column (d) for the special schedule should denote the duplication in number of reported customers.

  4. The average number of customers should be the number of bills rendered during the year divided by the number of billing periods during the year (12 if all billings are made monthly).

  5. For any rate schedule having a fuel adjustment clause state in a footnote the estimated additional revenue billed pursuant thereto.

  6. Report amount of unbilled revenue as of end of year for each applicable revenue account subheading.

| Line<br>No. | Number and Title of Rate Schedule (a)                 | MWh Sold<br>(b) | Revenue<br>(c) | Average Number of Customers (d) | KWh of Sales Per Customer (e) | Revenue Per KWh Sold<br>(f) |

FERC FORM NO. 1 (ED. 12-95)

|--|

# SALES OF ELECTRICITY BY RATE SCHEDULES

- 1. Report below for each rate schedule in effect during the year the MWH of electricity sold, revenue, average number of customer, average Kwh per customer, and average revenue per Kwh, excluding date for Sales for Resale which is reported on Page 310.

  2. Provide a subheading and total for each prescribed operating revenue account in the sequence followed in "Electric Operating Revenues," Page 300. If the sales under any rate schedule are classified in more than one revenue account, List the rate schedule and sales data under each applicable revenue account subheading.

  3. Where the same customers are served under more than one rate schedule and cancer account classification (such as a general residential schedule and an off peak water heating schedule), the entries in column (d) for the special schedule should denote the duplication in number of reported customers.

  4. The average number of customers should be the number of bills rendered during the year divided by the number of billing periods during the year (12 if all billings are made monthly).

  5. For any rate schedule having a fuel adjustment clause state in a footnote the estimated additional revenue billed pursuant thereto.

  6. Report amount of unbilled revenue as of end of year for each applicable revenue account subheading.

### SALES OF ELECTRICITY BY RATE SCHEDULES

- 1. Report below for each rate schedule in effect during the year the MWH of electricity sold, revenue, average Number of customer, and average revenue per Kwh, excluding date for Sales for Resale which is reported on Page 310.

  2. Provide a subheading and total for each prescribed operating revenue account in the sequence followed in "Electric Operating Revenues," Page 300. If the sales under any rate schedule are classified in more than one revenue account, List the rate schedule and sales data under each applicable revenue account subheading.

  3. Where the same customers are served under more than one rate schedule in the same revenue account classification (such as a general residential schedule and an off peak water heating schedule), the entries in column (d) for the special schedule should denote the duplication in number of reported customers.

  4. The average number of customers should be the number of bills rendered during the year divided by the number of bills rendered during the year divided by the number of bills rendered during the year (12 if all billings are made monthly).

  5. For any rate schedule having a fuel adjustment clause state in a footnote the estimated additional revenue billed pursuant thereto.

  6. Report amount of unbilled revenue as of end of year for each applicable revenue account subheading.

#### SALES FOR RESALE (Account 447)

- 1. Report all sales for resale (i.e., sales to purchasers other than ultimate consumers) transactions involving a balancing of debits and credits for energy, capacity, etc.) and any settlements for imbalanced exchanges on this schedule. Power exchanges must be reported on the Purchased Power schedule
- 2. Enter the name of the purchaser in column (a). Do note abbreviate or truncate the name or use acronyms. Explain in a footnote any ownership interest or affiliation the respondent has with the purchaser.
- 2. In column (b), enter a Statistical Classification Code based on the original contractual terms and conditions of the service as follows:
- RQ for requirements service. Requirements service is service is service is service which the supplier plans to provide on an ongoing basis (i.e., the supplier includes projected load for this service in its system resource planning). In addition, the reliability of requirements service must be the same as, or second only to, the supplier is service to its own ultimate consumers.
- LF for tong-term service. "Long-term" means five years or Longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions (e.g., the supplier must attempt to buy emergency energy from third parties to maintain deliveries of LF service). This category should not be used for Long-term firm service which meets the definition of RQ service. For all transactions identified as LF, provide in a footnote the termination date of the contract defined as the earliest date that either buyer or setter can unilaterally get out of the contract.
- IF for intermediate-term firm service. The same as LF service except that "intermediate-term" means longer than one year but Less than five years.
- SF for short-term firm service. Use this category for all firm services where the duration of each period of commitment for service is one year or less.
- LU for Long-term service from a designated generating unit. "Long-term" means five years or Longer. The availability and reliability of service, aside from transmission constraints, must match the availability and reliability of designated unit.
- IU for intermediate-term service from a designated generating unit. The same as LU service except that "intermediate-term" means Longer than one year but Less than five years.
- OS for other service. use this category only for those services which cannot be placed in the above-defined categories, such as all non-firm service regardless of the Length of the contract and service from designated units of Less than one year. Describe the nature of the service in a footnote.
- AD for Out-of-period adjustment. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting years. Provide an explanation in a footnote for each adjustment.
- 4. Group requirements RQ sales together and report them starting at line number one. After listing all RQ sales, enter "Subtotal RQ" in column (a). The remaining sales may then be listed in any order. Enter "Subtotal-Non-RQ" in column (a) as the Last Line of the schedule. Report subtotals and total for columns (g) through (k). 5. In Column (c), identify the FERC Rate Schedule or Tariff Number. On separate Lines, List all FERC rate schedules or tariffs under which service, as identified in column (b), is provided.
- 6. For requirements RQ sales and any type of-service, enter NA in column (f). For all other types of service, enter NA in column (d), (e) and (f). Monthly NCP demand is the maximum metered hourly (60-minute integration) demand in a month. Monthly CP demand is the metered demand during the hour (60-minute integration) in which the supplier's system reaches its monthly peak. Demand reported in columns (e) and (f) must be in megawatts. Footnote any demand not stated on a megawatt basis and explain. 7. Report in column (g) the megawatt hours shown on bills rendered to the purchaser.
- 8. Report demand charges in column (f), energy charges in column (f), and the total of any other types of charges, including out-of-period adjustments, in column (g). Explain in a footnote all components of the amount shown in column (g). Report in column (g) through (k) must be subtotaled based on the RQ/Non-RQ grouping (see instruction 4), and then totaled on the Last -line of the schedule. The "Subtotal RQ" amount in column (g) must be reported as Requirements Sales For Resale on Page 401, line 24.
- 10. Footnote entries as required and provide explanations following all required data.

|-----------------------------------|--|----------------------------|---|
|-----------------------------------|--|----------------------------|---|

#### PURCHASED POWER (Account 555)

- 1. Report all power purchases made during the year. Also report exchanges of electricity (i.e., transactions involving a balancing of debits and credits for energy, capacity, etc.) and any settlements for imbalanced exchanges.

  2. Enter the name of the seller or other party in an exchange transaction in column (a). Do not abbreviate or truncate the name or use acronyms. Explain in a footnote any ownership interest or affiliation the respondent has with the seller.
- 3. In column (b), enter a Statistical Classification Code based on the original contractual terms and conditions of the service as follows:
- RQ for requirements service. Requirements service must be the same as, or second only to, the supplier plans to provide on an ongoing basis (i.e., the supplier includes projects load for this service in its system resource planning). In addition, the reliability of requirement service must be the same as, or second only to, the supplier's service to its own ultimate consumers.
- LF for long-term firm service. "Long-term" means five years or longer and "firm" means that service cannot be interrupted for economic reasons and is intended to remain reliable even under adverse conditions (e.g., the supplier must attempt to buy emergency energy from third parties to maintain deliveries of LF service). This category should not be used for long-term firm service firm service firm service which meets the definition of RQ service. For all transaction identified as LF, provide in a footnote the termination date of the contract defined as the earliest date that either buyer or seller can unilaterally get out of the contract.
- IF for intermediate-term firm service. The same as LF service expect that "intermediate-term" means longer than one year but less than five years.
- SF for short-term service. Use this category for all firm services, where the duration of each period of commitment for service is one year or less.
- LU for long-term service from a designated generating unit. "Long-term" means five years or longer. The availability and reliability of service, aside from transmission constraints, must match the availability and reliability of the designated unit.
- III for intermediate-term service from a designated generating unit. The same as LLI service expect that "intermediate-term" means longer than one year but less than five years
- EX For exchanges of electricity. Use this category for transactions involving a balancing of debits and credits for energy, capacity, etc. and any settlements for imbalanced exchanges.
- OS for other service. Use this category only for those services which cannot be placed in the above-defined categories, such as all non-firm service regardless of the Length of the contract and service from designated units of Less than one year. Describe the nature of the service in a footnote for each adjustment.
- AD for out-of-period adjustment. Use this code for any accounting adjustments or "true-ups" for service provided in prior reporting years. Provide an explanation in a footnote for each adjustment.
- 4. In column (c), identify the FERC Rate Schedule Number or Tariff, or, for non-FERC jurisdictional sellers, include an appropriate designation for the contract. On separate lines, list all FERC rate schedules, tariffs or contract designations under which service, as identified in column (b), is provided.
- 5. For requirements RQ purchases and any type of service involving demand charges imposed on a monnthly (or longer) basis, enter the monthly average monthly column (e), and the average monthly column (f). For all other types of service, enter NA in columns (d), (e) and (f). Monthly NCP demand in column (e), and the average monthly columns (e), and the average monthly non-coincident peak (NCP) demand in column (f). For all other types of service, enter NA in columns (d), (e) and (f). Monthly NCP demand is the maximum metered hourly (60-minute integration) demand in a month. Monthly CP demand in columns (e) and (f) must be in megawatts. Footnote any demand not stated on a megawatt basis and explain.
- 6. Report in column (g) the megawatthours shown on bills rendered to the respondent, excluding out-of-period adjustments, in column (h) the megawatthours shown on bills rendered to the respondent, excluding out-of-period adjustments, in column (h) the megawatthours of power exchanges received and delivered, used as the basis for settlement. Do not report in exclumn (h) the megawatthours shown on bills rendered to the respondent, excluding out-of-period adjustments, in column (h), and the total of any other types of charges, including out-of-period adjustments, in column (n), and the total of any other types of charges, report in column (n) the settlement amount for the net receipt of energy. If more energy was delivered than received, enter a negative amount. If the settlement amount (m) include credits or charges covered by the agreement, provide an explanatory footnote.

  8. The data in columns (g) through (n) must be totaled on the last line of the schedule. The total amount in column (j) must be reported as Exchange Delivered on Page 401, line 13.
- 9. Footnote entries as required and provide explanations following all required data.

FERC FORM NO. 1 (ED. 12-90)

Page 326-327

FFRC Form 4/17/23, 2:37 PM

| Name of Respondent:<br>PacifiCorp | This report is:  (1) ☑ An Original | Date of Report: 04/18/2023 | Year/Period of Report<br>End of: 2022/ Q4 |
|-----------------------------------|------------------------------------|----------------------------|---|
|                                   | (2) A Resubmission                 |                            |   |

# TRANSMISSION OF ELECTRICITY FOR OTHERS (Account 456.1) (Including transactions referred to as "wheeling")

- 1. Report all transmission of electricity, i.e., wheeling, provided for other electric utilities, cooperatives, other public authorities, qualifying facilities, non-traditional utility suppliers and ultimate customers for the quarter.

  2. Use a separate line of data for each distinct type of transmission service involving the entities listed in column (a), (b) and (c).
- 3. Report in column (a) the company or public authority that paid for the transmission service. Report in column (b) the company or public authority that the energy was received from and in column (c) the company or public authority. Do not abbreviate or truncate name or use acronyms. Explain in a footnote any ownership interest in or affiliation the respondent has with the entities listed in columns (a), (b) or (c).
- 4. In column (d) enter response transmission service, OS Other Transmission Service, OF Short-Term Firm Point to Point Transmission Service for Others, FNS Firm Network Transmission Service, OF Other Long-Term Firm Transmission Service, OF Short-Term Firm Point to Point Transmission Service, OF Other Long-Term Firm Transmission Service, OF Other T
- 6. Report in column (b) report the designation for the substation, or other appropriate identification for where energy was received as specified in the contract. In column (g) report the designation for the substation, or other appropriate identification for where energy was received as specified in the contract.

  7. Report in column (h) the number of megawatts of billing demand that is specified in the firm transmission service contract. Demand reported in column (h) must be in megawatts. Footnote any demand not stated on a megawatts and explain.
- 8. Report in column (i) and (j) the total megawatthours received and delivered.
- o. Report in column (r) and (n) rie total megawaturous received and derivered and deri
- 10. The total amounts in columns (i) and (j) must be reported as Transmission Received and Transmission Delivered for annual report purposes only on Page 401, Lines 16 and 17, respectively.
- 11. Footnote entries and provide explanations following all required data.

# (a) Concept: PaymentByCompanyOrPublicAuthority

This footnote applies to all occurrences of "Sierra Pacific Power Company" on page 328. Sierra Pacific Power Company is a principal subsidiary of NV Energy, Inc., which is an indirect wholly owned subsidiary of Berkshire Hathaway Energy Company, Pacificorp's indirect parent company.

### (b) Concept: TransmissionEnergyReceivedFromCompanyOrPublicAuthorityName

Various signatories to the Volume 11 Point-to-Point Transmission Tariff

### (c) Concept: TransmissionEnergyReceivedFromCompanyOrPublicAuthorityName

Various signatories to the Volume 11 Point-to-Point Transmission Tariff

# (d) Concept: TransmissionEnergyDeliveredToCompanyOrPublicAuthorityName

Various signatories to the Volume 11 Point-to-Point Transmission Tariff

# (e) Concept: TransmissionEnergyDeliveredToCompanyOrPublicAuthorityName

arious signatories to the Volume 11 Point-to-Point Transmission Tariff.

# (f) Concept: TransmissionEnergyDeliveredToCompanyOrPublicAuthorityName

This footnote applies to all occurrences of "Nevada Power Company" on page 328. Nevada Power Company is a principal subsidiary of NV Energy, Inc., which is an indirect wholly owned subsidiary of Berkshire Hathaway Energy Company, PacifiCorp's indirect parent company.

### (g) Concept: TransmissionEnergyDeliveredToCompanyOrPublicAuthorityName

Various signatories to the Volume 11 Point-to-Point Transmission Tariff.

### (h) Concept: TransmissionEnergyDeliveredToCompanyOrPublicAuthorityName

Various signatories to the Volume 11 Point-to-Point Transmission Tariff.

#### (i) Concept: StatisticalClassificationCode

Transmission service under the Open Access Transmission Tariff (1st Revised Service Agreement 876). Service provided pursuant to rules and regulations of Oregon Direct Access. Agreement terminates upon notification pursuant to Oregon Direct Access and Open Access Transmission Tariff.

#### (i) Concept: StatisticalClassificationCode

Point-to-point transmission service under the Open Access Transmission Tariff (Service Agreement 965) terminating on December 31, 2024.

#### (k) Concept: StatisticalClassificationCode

Point-to-point transmission service under the Open Access Transmission Tariff (Service Agreement 965) terminating on December 31, 2024.

### (I) Concept: StatisticalClassificationCode

Non-firm or short-term firm transmission service under the Open Access Transmission Tariff between various parties and points.

#### (m) Concept: StatisticalClassificationCode

Non-firm or short-term firm transmission service under the Open Access Transmission Tariff between various parties and points.

#### (n) Concept: StatisticalClassificationCode

Ancillary services under the Open Access Transmission Tariff (1st Revised Service Agreement 476) in effect until superseded.

### (o) Concept: StatisticalClassificationCode

cillary services under the Open Access Transmission Tariff (1st Revised Service Agreement 476) in effect until superseded.

# (p) Concept: StatisticalClassificationCode

int-to-point transmission service under the Open Access Transmission Tariff (Service Agreement 895) terminating on April 30, 2024.

# (q) Concept: StatisticalClassificationCode

Point-to-point transmission service under the Open Access Transmission Tariff (Service Agreement 895) terminating on April 30, 2024. (r) Concept: StatisticalClassificationCode

Network transmission service under the Open Access Transmission Tariff (3rd Revised Service Agreement 742) terminating no earlier than 12-months from notice by the customer.

# (s) Concept: StatisticalClassificationCode

Network transmission service under the Open Access Transmission Tariff (3rd Revised Service Agreement 505) terminating no earlier than 12-months from notice by the customer.

## (t) Concept: StatisticalClassificationCode

Non-firm or short-term firm transmission service under the Open Access Transmission Tariff between various parties and points.

## (u) Concept: StatisticalClassificationCode

Network transmission service under the Open Access Transmission Tariff (3rd Revised Service Agreement 347) terminating on December 31, 2023.

Point-to-point transmission service under the Open Access Transmission Tariff (3rd Revised Service Agreement 67) terminating on December 31, 2023.

# (w) Concept: StatisticalClassificationCode

Point-to-point transmission service under the Open Access Transmission Tariff (3rd Revised Service Agreement 67) terminating on December 31, 2023.

## (x) Concept: StatisticalClassificationCode

legacy contract executed between PacifiCorp and Bonneville Power Administration concerning the exchange of transmission services over agreed-upon facilities ("Midpoint-Meridian Transmission Agreement runs concurrently with the AC Intertie Agreement (Rate Schedule 368), which terminates when the facilities subject to that agreement are taken out of service. See also page 332, Transmission of electricity by others, in this Form 1.

# (v) Concept: StatisticalClassificationCode

Legacy contract (3rd Revised Rate Schedule 237) executed between PacifiCorp and BPA or the time of the termination of all deliveries as defined in the agreement.

# (z) Concept: StatisticalClassificationCode

Legacy contract (3rd Revised Rate Schedule 237) executed between Pacificorp and BPA or the termination of all deliveries as defined in the agreement.

## (aa) Concept: StatisticalClassificationCode

Point-to-point transmission service under the Open Access Transmission Tariff (4th Revised Service Agreement 656) terminating on August 31, 2030.

# (ab) Concept: StatisticalClassificationCode

Point-to-point transmission service under the Open Access Transmission Tariff (4th Revised Service Agreement 656) terminating on August 31, 2030.

## (ac) Concept: StatisticalClassificationCode

Network transmission service and distribution delivery service under the Open Access Transmission Tariff (9th Revised Service Agreement 229) terminating on September 30, 2028.

# (ad) Concept: StatisticalClassificationCode

Network transmission service and distribution delivery service under the Open Access Transmission Tariff (3rd Revised Service Agreement 539) terminating on September 30, 2028.

(ae) Concept: StatisticalClassificationCode

Network transmission service under the Open Access Transmission Tariff (3rd Revised Service Agreement 538) terminating on September 30. 2028.

(af) Concept: StatisticalClassificationCode

Point-to-point transmission service under the Open Access Transmission Tariff (5th Revised Service Agreement 179) terminating on September 30, 2025.

(ag) Concept: StatisticalClassificationCode

Point-to-point transmission service under the Open Access Transmission Tariff (5th Revised Service Agreement 179) terminating on September 30, 2025.

(ah) Concept: StatisticalClassificationCode

Legacy contract (5th Revised Rate Schedule 368) executed between PacifiCorp and Bonneville Power Administration for transmission service over agreed-upon facilities and/or subject to a sole-use or facilities charge. Subject to termination upon mutual agreement.

Legacy contract (5th Revised Rate Schedule 368) executed between PacifiCorp and Bonneville Power Administration for transmission service over agreed-upon facilities and/or subject to a sole-use or facilities charge. Subject to termination upon mutual agreement.

(ai) Concept: StatisticalClassificationCode

Network transmission service and distribution delivery service under the Open Access Transmission Tariff (6th Revised Service Agreement 328) terminating on July 31, 2028.

(ak) Concept: StatisticalClassificationCode

Network transmission service under the Open Access Transmission Tariff (2nd Revised Service Agreement 827) terminating on September 30, 2028.

(al) Concept: StatisticalClassificationCode

work transmission service and distribution delivery service under the Open Access Transmission Tariff (3rd Revised Service Agreement 746) terminating on June 30, 2028.

(am) Concept: StatisticalClassificationCode

n-firm or short-term firm transmission service under the Open Access Transmission Tariff between various parties and points.

an) Concept: StatisticalClassificationCode

Network transmission service and distribution delivery service under the Open Access Transmission Tariff (2nd Revised Service Agreement 747) terminating on June 30, 2028.

Network transmission service under the Open Access Transmission Tariff (2nd Revised Service Agreement 735) terminating on September 30. 2028.

(ap) Concept: StatisticalClassificationCode

Network transmission service and distribution delivery service under the Open Access Transmission Tariff (1st Revised Service Agreement 865) terminating on September 30, 2028.

(ag) Concept: StatisticalClassificationCode

Network transmission service and distribution delivery service under the Open Access Transmission Tariff (1st Revised Service Agreement 975) terminating on September 30, 2028.

(ar) Concept: StatisticalClassificationCode

Non-firm or short-term firm transmission service under the Open Access Transmission Tariff between various parties and points.

(as) Concept: StatisticalClassificationCode

Transmission service under the Open Access Transmission Tariff (12th Revised Service Agreement 299). Service provided pursuant to rules and regulations of Oregon Direct Access. Agreement terminates upon notification pursuant to Oregon Direct Access and Open Access Transmission Tariff.

Point-to-point transmission service under the Open Access Transmission Tariff (Service Agreement 881) terminating on February 28, 2023.

(au) Concept: StatisticalClassificationCode

Point-to-point transmission service under the Open Access Transmission Tariff (Service Agreement 881) terminating on February 28, 2023.

(av) Concept: StatisticalClassificationCode

pint-to-point transmission service under the Open Access Transmission Tariff (Service Agreement 899) terminating on September 30, 2023.

(aw) Concept: StatisticalClassificationCode

nt-to-point transmission service under the Open Access Transmission Tariff (Service Agreement 899) terminating on September 30, 2023.

(ax) Concept: StatisticalClassificationCode

nt-to-point transmission service under the Open Access Transmission Tariff (Service Agreement 901) terminating on September 30, 2023.

(av) Concept: StatisticalClassificationCode

nt-to-point transmission service under the Open Access Transmission Tariff (Service Agreement 901) terminating on September 30, 2023.

(az) Concept: StatisticalClassificationCode

n-firm or short-term firm transmission service under the Open Access Transmission Tariff between various parties and points.

(ba) Concept: StatisticalClassificationCode

legacy contract executed between PacifiCorp and Deseret Generation and Transmission Co-operative for transmission service over agreed-upon facilities (6th Amended and Restated Transmission Service and Operating Agreement, Rate Schedule 280). Agreement subject to termination upon mutual agreement.

(bb) Concept: StatisticalClassificationCode

Legacy contract executed between PacifiCorp and Deseret Generation and Transmission Co-operative for transmission service over agreed-upon facilities (6th Amended and Restated Transmission Service and Operating Agreement, Rate Schedule 280). Agreement subject to termination upon mutual agreement.

(bc) Concept: StatisticalClassificationCode

Non-firm or short-term firm transmission service under the Open Access Transmission Tariff between various parties and points.

(bd) Concept: StatisticalClassificationCode

Non-firm or short-term firm transmission service under the Open Access Transmission Tariff between various parties and points.

(be) Concept: StatisticalClassificationCode

Non-firm or short-term firm transmission service under the Open Access Transmission Tariff between various parties and points.

(bf) Concept: StatisticalClassificationCode

Non-firm or short-term firm transmission service under the Open Access Transmission Tariff between various parties and points.

(bg) Concept: StatisticalClassificationCode

Point-to-point transmission service under the Open Access Transmission Tariff (Service Agreement 874) terminating on December 31, 2032. Point-to-point transmission service under the Open Access Transmission Tariff (Service Agreement 874) terminating on December 31, 2032.

(bh) Concept: StatisticalClassificationCode

(bi) Concept: StatisticalClassificationCode

ansmission service under the Open Access Transmission Tariff (1st Revised Service Agreement 943). Service provided pursuant to rules and regulations of Oregon Direct Access. Agreement terminates upon notification pursuant to Oregon Direct Access and Open Access Transmission Tariff.

(bi) Concept: StatisticalClassificationCode

lon-firm or short-term firm transmission service under the Open Access Transmission Tariff between various parties and points.

(bk) Concept: StatisticalClassificationCode

Non-firm or short-term firm transmission service under the Open Access Transmission Tariff between various parties and points.

(bl) Concept: StatisticalClassificationCode

Legacy contract (Rate Schedule 322) executed between PacifiCorp and Fall River Rural Electric Cooperative, Inc. for transmission service over agreed-upon facilities and/or subject to a sole-use or facilities charge. Terminating on July 31, 2027.

(bm) Concept: StatisticalClassificationCode

Legacy contract (Rate Schedule 322) executed between PacifiCorp and Fall River Rural Electric Cooperative, Inc. for transmission service over agreed-upon facilities and/or subject to a sole-use or facilities charge. Terminating on July 31, 2027.

(bn) Concept: StatisticalClassificationCode

Point-to-point transmission service under the Open Access Transmission Tariff (4th Revised Service Agreement 868) terminating on December 31, 2034.

(bo) Concept: StatisticalClassificationCode

Point-to-point transmission service under the Open Access Transmission Tariff (4th Revised Service Agreement 868) terminating on December 31, 2034.

Point-to-point transmission service under the Open Access Transmission Tariff (1st Revised Service Agreement 966) terminating on November 30, 2024.

(bg) Concept: StatisticalClassificationCode

Point-to-point transmission service under the Open Access Transmission Tariff (1st Revised Service Agreement 966) terminating on November 30, 2024.

(br) Concept: StatisticalClassificationCode

Non-firm or short-term firm transmission service under the Open Access Transmission Tariff between various parties and points.

(bs) Concept: StatisticalClassificationCode

on-firm or short-term firm transmission service under the Open Access Transmission Tariff between various parties and points.

(bt) Concept: StatisticalClassificationCode

int-to-point transmission service under the Open Access Transmission Tariff (9th Revised Service Agreement 212) terminating on May 31, 2024.

bu) Concept: StatisticalClassificationCode

oint-to-point transmission service under the Open Access Transmission Tariff (9th Revised Service Agreement 212) terminating on May 31, 2024.

(bv) Concept: StatisticalClassificationCode

Non-firm or short-term firm transmission service under the Open Access Transmission Tariff between various parties and points.

(bw) Concept: StatisticalClassificationCode

Non-firm or short-term firm transmission service under the Open Access Transmission Tariff between various parties and points.

(bx) Concept: StatisticalClassificationCode

Non-firm or short-term firm transmission service under the Open Access Transmission Tariff between various parties and points.

(by) Concept: StatisticalClassificationCode

Non-firm or short-term firm transmission service under the Open Access Transmission Tariff between various parties and points.

(bz) Concept: StatisticalClassificationCode

Non-firm or short-term firm transmission service under the Open Access Transmission Tariff between various parties and points.

legacy contract (3rd Revised Rate Schedule 302) executed between PacifiCorp and Moon Lake Electric Association Inc. for transmission and interconnection service over agreed-upon facilities end/or subject to a sole-use or facilities charge. Either party may terminate the agreement at any time after October 14, 2016, by providing two years written notice.

(cb) Concept: StatisticalClassificationCode

Legacy contract (3rd Revised Rate Schedule 302) executed between PacifiCorp and Moon Lake Electric Association Inc. for transmission and interconnection service over agreed-upon facilities charge. Either party may terminate the agreement at any time after October 14, 2016, by providing two years written notice.

(cc) Concept: StatisticalClassificationCode

n-firm or short-term firm transmission service under the Open Access Transmission Tariff between various parties and points.

(cd) Concept: StatisticalClassificationCode

work transmission service under the Open Access Transmission Tariff (Service Agreement 894) terminating on December 31, 2057.

(ce) Concept: StatisticalClassificationCode

int-to-point transmission service under the Open Access Transmission Tariff (3rd Revised Service Agreement 733) terminating on November 30, 2023.

| Name of Respondent: PacifiCorp  This report is:  (1) ☑ An Original  (2) ☐ A Resubmission | Date of Report: 04/18/2023 | Year/Period of Report<br>End of: 2022/ Q4 |
|--|----------------------------|---|
|--|----------------------------|---|

#### TRANSMISSION OF ELECTRICITY BY OTHERS (Account 565)

- 1. Report all transmission, i.e. wheeling or electricity provided by other electric utilities, cooperatives, municipalities, other public authorities, dualifying facilities, and others for the quarter.

  2. In column (a) report each company or public authority that provided transmission service. Provide the full name of the company, abbreviate if necessary, but do not truncate name or use acronyms. Explain in a footnote any ownership interest in or affiliation with the transmission service provider. Use additional columns as necessary to report all companies or public authorities that provided transmission service for the quarter reported.

  3. In column (b) enter a Statistical Classification code based on the original contractual terms and conditions of the service as follows:
- 3. In column (b) enter a Statistical Classification code based on the original contractual terms and conditions of the service as follows:
  FNS Firm Network Transmission Service for Self, LFP Long-Term Firm Point-to-Point Transmission Service, SFP Short-Term Firm Point-to-Point Transmission Service, and OS Other Transmission Service. See General Instructions for definitions of statistical classifications.

  4. Report in column (c), (f) and (g) expenses as shown on bills or vouchers rendered to the respondent. In column (e) report the demand charges and in column (g) report the total of all other charges on bills or vouchers rendered to the respondent, including any out of period adjustments. Explain in a footnote all components of the amount shown in column (g). Report in column (h) the total charge shown on bills rendered to the respondent. If no monetary settlement was made, enter zero in column (h). Provide a footnote explaining the nature of the non-monetary settlement, including the amount and type of energy or service rendered.

  5. Enter ""TOTAL"" in column (a) as the last line.

  6. Enter ""TOTAL"" in column (a) as the last line.

7. Footnote entries and provide explanations following all required data.

#### Depreciation and Amortization of Electric Plant (Account 403, 404, 405)

- 1. Report in section A for the year the amounts for: (b) Depreciation Expense (Account 403); (c) Depreciation Expense for Asset Retirement Costs (Account 403.1); (d) Amortization of Limited-Term Electric Plant (Account 404); and (e) Amortization of Other Electric Plant (Account 405).

  2. Report in Section B the rates used to compute amortization charges for electric plant (Accounts 404 and 405). State the basis used to compute charges and whether any changes have been made in the basis or rates used from the preceding report year.

  3. Report all available information called for in Section C every fifth year beginning with report year 1971, reporting annually only changes to columns (c) through (g) from the complete report of the preceding year.

  Unless composite depreciation accounting for total depreciable plant is followed, list numerically in column (a) each plant subaccount, account or functional classification, as appropriate, to which a rate is applied. Identify at the bottom of Section C the type of plant included in any sub-account used.

  In column (b) report all depreciable plant balances to which rates are applied showing subtotals by functional classification and showing composite to the intervention of each plant subaccount, account or functional classification listed in column (a). If plant mortality studies are prepared to assist in estimating average service Lives, show in column (f) the type of mortality curve selected as most appropriate for the account and in column (g), if available, the weighted average remaining life of surviving plant. If composite depreciation accounting is used, report available information called for in columns (b) through (g) on this basis.

  4. If provisions for depreciation were made during the year in addition to depreciation provided by application of reported rates, state at the bottom of section C the amounts and nature of the provisions and the plant items to which related.

## REGULATORY COMMISSION EXPENSES

- 1. Report particulars (details) of regulatory commission expenses incurred during the current year (or incurred in previous years, if being amortized) relating to format cases before a regulatory body, or cases in which such a body was a party.

  2. Report in columns (b) and (c), only the current year's expenses that are not deferred and the current year's amortization of amounts deferred in previous years.

  3. Show in column (k) any expenses incurred in prior years which are being amortized. List in column (a) the period of amortization.

  4. List in columns (f), (g), and (h), expenses incurred during the year which were charged currently to income, plant, or other accounts.

  5. Minor items (less than \$25,000) may be grouped.

#### RESEARCH, DEVELOPMENT, AND DEMONSTRATION ACTIVITIES

a. Overhead

 Regional Transmission and Market Operation 5. Environment (other than equipment)

Research Support to Edison Electric Institute
 Research Support to Nuclear Power Groups

6. Other (Classify and include items in excess of \$50,000.)

1. Research Support to the electrical Research Council or the Electric Power Research Institute

b. Underground
3. Distribution

7. Total Cost Incurred

B. Electric, R, D and D Performed Externally:

- 1. Describe and show below costs incurred and accounts charged during the year for technological research, development, and demonstration (R, D and D) project initiated, continued or concluded during the year for jointly-sponsored projects. (Identify recipient regardless of affiliation.) For any R, D and D work carried with others, show separately the respondent's cost for the year and cost chargeable to others (See definition of research, development, and demonstration in Uniform System of Accounts).
- Indicate in column (a) the applicable classification, as shown below: Classifications:
  - A. Electric R, D and D Performed Internally:
    - 1. Generation
      - a. hydroelectric
        - i. Recreation fish and wildlife
        - ii. Other hydroelectric
      - c. Internal combustion or gas turbine
      - d. Nuclear
      - e. Unconventional generation
    - 2. Transmission
  - b. Fossil-fuel steam
  - Research Support to Others (Classify)
     Total Cost Incurred f. Siting and heat rejection
- (4)) classify items by type of R, D and D activity. (4)) classify iterits by type of N, D and D activity.

  4. Show in column (e) the account number charged with expenses during the year or the account to which amounts were capitalized during the year, listing Account 107, Construction Work in Progress, first. Show in column (f) the amounts related to the account charged in column (e).

  5. Show in column (g) the total unamortized accumulating of costs of projects. This total must equal the balance in Account 188, Research, Development, and Demonstration Expenditures, Outstanding at the end of the year.

  6. If costs have not been segregated for R, D and D activities or projects, submit estimates for columns (c), (d), and (f) with such amounts identified by ""Est."

- 7. Report separately research and related testing facilities operated by the respondent.

(a) Concept: ResearchDevelopmentAndDemonstrationDescription

The Utah Sustainable Transportation and Energy Plan was signed into law in March 2016. The Utah legislation established a five-year pilot program to provide up to \$10 million annually of mandated funding at the Utah Public Service Commission's discretion for solar development, utility-scale battery storage and other innovative technology, economic development and air quality initiatives.

The Utah Sustainable Transportation and Energy Plan was signed into law in March 2016. The Utah legislation established a five-year pilot program to provide up to \$10 million annually of mandated funding for electric vehicle infrastructure and clean coal research, and authorized funding at the Utah Public Service Commission's discretion for solar development, utility-scale battery storage and other innovative technology, economic development and air quality initiatives.

| COMMON UTILITY PLANT AND EXPENSES   |  |                            |   |  |  |  |  |
| 1. Describe the property carried in the utility's accounts as common utility plant and show the book cost of such plant at end of year classified by accounts as provided by Electric Plant Instruction 13, Common Utility Plant, of the Uniform System of Accounts. Also show the allocation of such plant costs to the respective departments using the common utility plant and explain the basis of allocation used, giving the allocation factors.  2. Furnish the accumulated provisions for depreciation and amortization at end of year, showing the amounts and classifications of such accumulated provisions, and amounts allocated to utility departments using the common utility plant to which such accumulated provisions relate, including explanation of basis of allocation and factors used.  3. Give for the year the expenses of operation, maintenance, rents, depreciation, and amortization for common utility plant classified by accounts as provided by the Uniform System of Accounts. Show the allocation of such expenses to the departments using the common utility plant to which such expenses are related. Explain the basis of allocation used and give the factors of allocation.  4. Give date of approval by the Commission for use of the common utility plant classification and reference to the order of the Commission or other authorization. |  |                            |   |  |  |  |  |

## AMOUNTS INCLUDED IN ISO/RTO SETTLEMENT STATEMENTS

1. The respondent shall report below the details called for concerning amounts it recorded in Account 447, Sales for Resale, for items shown on ISO/RTO administered energy market for purposes of determining whether an entity is a net seller or purchaser in a given hour. Net megawatt hours are to be used as the basis for determining whether a net purchase or sale has occurred. In each monthly reporting period, the hourly sale and purchase net amounts are to be aggregated and separately reported in Account 447, Sales for Resale, or Account 555, Purchased Power, respectively.

## PURCHASES AND SALES OF ANCILLARY SERVICES

Report the amounts for each type of ancillary service shown in column (a) for the year as specified in Order No. 888 and defined in the respondents Open Access Transmission Tariff. In columns for usage, report usage-related billing determinant and the unit of measure.

- 1. On Line 1 columns (b), (c), (d), and (e) report the amount of ancillary services purchased and sold during the year.

  2. On Line 2 columns (b), (c), (d), and (e) report the amount of reactive supply and voltage control services purchased and sold during the year.

  3. On Line 3 columns (b), (c), (d), and (e) report the amount of regulation and frequency response services purchased and sold during the year.

  4. On Line 4 columns (b), (c), (d), and (e) report the amount of energy imbalance services purchased and sold during the year.

  5. On Lines 5 and 6, columns (b), (c), (d), and (e) report the amount of operating reserve spinning and supplement services purchased and sold during the period.

  6. On Line 7 columns (b), (c), (d), and (e) report the total amount of all other types ancillary services purchased or sold during the year. Include in a footnote and specify the amount for each type of other ancillary service provided.

## MONTHLY TRANSMISSION SYSTEM PEAK LOAD

- 1. Report the monthly peak load on the respondent's transmission system. If the respondent has two or more power systems which are not physically integrated, furnish the required information for each non-integrated system.

  2. Report on Column (b) by month the transmission system's peak load.

  3. Report on Columns (c) and (d) the specified information for each monthly transmission system peak load reported on Column (b).

  4. Report on Columns (e) through (j) by month the system' monthly maximum megawatt load by statistical classifications. See General Instruction for the definition of each statistical classification.

(a) Concept: FirmNetworkServiceForSelf

For the year being reported, the Net System Load information was compiled using metering and/or scheduling data. Reflects actual peak net system load for self at time of Transmission System Peak. Peak load includes behind-the-meter generation.

for the year being reported, the Net System Load information was compiled using metering and/or scheduling data. Reflects actual peak of customers' load at time of Transmission System Peak.

(c) Concept: LongTermFirmPointToPointReservations

For the year being reported, the Net System Load information was compiled using reservations in OASIS at time of Transmission rates are designed fairly and in a non-discriminatory manner and is consistent with the system input measurement utilized for other long-term firm users of PacifiCorp's transmission system, including network service.

(d) Concept: ShortTermFirmPointToPointReservations

or the year being reported, the Net System Load information was compiled using reservations in OASIS at time of Transmission System Peak.

(e) Concept: OtherService

For the year being reported, the Net System Load information was compiled using metering, scheduling and/or contractual data. Reflects actual peak and/or contractual demands of customers' load at time of Transmission System Peak.

# Monthly ISO/RTO Transmission System Peak Load

- 1. Report the monthly peak load on the respondent's transmission system. If the Respondent has two or more power systems which are not physically integrated, furnish the required information for each non-integrated system.

  2. Report on Column (b) by month the transmission system's peak load.

  3. Report on Column (c) and (d) the specified information for each monthly transmission system peak load reported on Column (b).

  4. Report on Columns (e) through (i) by month the system's transmission usage by classification. Amounts reported as Through and Out Service in Column (g) are to be excluded from those amounts reported in Columns (e) and (f).

  5. Amounts reported in Column (j) for Total Usage is the sum of Columns (h) and (i).

# MONTHLY PEAKS AND OUTPUT

- 1. Report the monthly peak load and energy output. If the respondent has two or more power which are not physically integrated, furnish the required information for each non-integrated system.

  2. Report in column (b) by month the system's output in Megawatt hours for each month.

  3. Report in column (c) by month the non-requirements sales for resale. Include in the monthly amounts any energy losses associated with the sales.

  4. Report in column (d) by month the system's monthly maximum megawatt load (60 minute integration) associated with the system.

  5. Report in column (e) and (f) the specified information for each monthly peak load reported in column (d).

|                                   | (2) A Resubmission |                            |   |

# Steam Electric Generating Plant Statistics

- 1. Report data for plant in Service only.
  2. Large plants are steam plants with installed capacity (name plate rating) of 25,000 Kw or more. Report in this page gas-turbine and internal combustion plants of 10,000 Kw or more, and nuclear plants.

- Indicate by a footnote any plant leased or operated as a joint facility.
   In fire the peak demand for 60 minutes is not available, give data which is available, specifying period.
   If any employees attend more than one plant, report on line 11 the approximate average number of employees assignable to each plant.
   If gas is used and purchased on a therm basis report the Btu content or the gas and the quantity of fuel burned converted to Mct.
   Quantities of fuel burned (Line 38) and average cost per unit of fuel burned (Line 41) must be consistent with charges to expense accounts 501 and 547 (Line 42) as show on Line 20.

- 1. Quantities of rue burned (Line 36) and average cost per unit of rue burned (Line 41) must be consistent with charges to expense accounts of an adverage cost per unit of rue burned (Line 42) as show on Line 20.

  9. Items under Cost of Plant are based on USofA accounts. Production expenses do not include Purchased Power, System Control and Load Dispatching, and Other Expenses Classified as Other Power Supply Expenses.

  10. For IC and GT plants, report Operating Expenses, Account Nos. 543 and 554 on Line 32, "Maintenance Account Nos. 553 and 554 on Line 32, "Maintenance of Electric Plant." Indicate plants designed for peak load service. Designate automatically operated plants.

  11. For a plant equipment, foport each as a separate plant. However, if a gas-turbine on with a conventional steam unit, include the gas-turbine with the steam plant.

  12. If a nuclear power generating plant, briefly explain by footnote (a) accounting method for cost of power generated including any excess costs attributed to research and development; (b) types of cost units used for the various components of fuel cost; and (c) any other informative data concerning plant type fuel used, fuel enrichment type and quantity for the report period and other physical and operating characteristics of

FERC FORM NO. 1 (REV. 12-03)

Page 402-403

| Name of Respondent: | This report is:  (1) ☑ An Original  (2) ☐ A Resubmission | Date of Report: | Year/Period of Report |
|---------------------|--|-----------------|-----------------------|
| PacifiCorp          |  | 04/18/2023      | End of: 2022/ Q4      |
|                     | FOOTNOTE DATA  |                 |                       |

# (a) Concept: PlantName

All or some of the renewable energy attributes associated with generation from this generating facility may be: (a) used in future years to comply with renewable portfolio standards or other regulatory requirements or (b) sold to third parties in the form of renewable energy credits or other environmental commodities.

The Colstrip Plant is operated by Talen Montana, LLC and is jointly owned. PacifiCorp owns a 10.0% share of Colstrip Plant Unit Nos. 3 and 4. Data reported represents PacifiCorp's share.

### (c) Concept: PlantName

The Craig Plant is operated by Tri-State Generation and Transmission Association, Inc. and is jointly owned. PacifiCorp owns a 19.28% share of Craig Plant Unit Nos. 1 and 2 and 12.86% of common facilities. Data reported represents PacifiCorp's share.

### (d) Concept: PlantName

The Hayden Plant is operated by Public Service Company of Colorado and is jointly owned. PacifiCorp owns a 24.5% (45 MWh) share of Hayden Unit No. 1, a 12.6% (33 MWh) share of Hayden Unit No. 2 and 17.5% of common facilities. Data reported represents PacifiCorp's share.

# (e) Concept: PlantName

he Hermiston Plant is operated by Hermiston Generating Company, L.P. and is jointly owned. PacifiCorp owns a 50.0% share of the Hermiston Plant. Data reported represents PacifiCorp's share.

# (f) Concept: PlantName

Refer to Hunter Unit Nos. 1, 2 and 3 for each unit's plant statistics.

# (g) Concept: PlantName

Hunter Unit No. 1 is operated by PacifiCorp and is jointly owned by PacifiCorp and it jointly owned by PacifiCorp and Utah Municipal Power Agency with an undivided interest of 93.75% and 6.25%, respectively. Data reported represents PacifiCorp's share. Costs that were billed to minority owners for the operations and maintenance (excluding fuel) of this unit for calendar year 2022 were \$1.9 million and were primarily credited to Account 506, Miscellaneous

### (h) Concept: PlantName

Hunter Unit No. 2 is operated by PacifiCorp and is jointly owner by PacifiCorp, DeseretPower Electric Cooperative and Utah Associated Municipal Power Systems, each with anundivided interest of 60.31%, 25.108% and 14.582%, respectively. Data reported representsPacifiCorp's share. Costs that were billed to minority owners for the operations andmaintenance (excluding fuel) of this unit for calendar year 2022 were \$7.6 million andwere primarily credited to Account 506, Miscellaneous steam power expenses.

The Jim Bridger Plant is operated by PacifiCorp and is jointly owned by PacifiCorp and is jointly owned by PacifiCorp and Idaho Power Company with an undivided interest of 66.67% and 33.33%, respectively. Data reported represents PacifiCorp's share. Costs that were billed to minority owners for the operations and maintenance (excluding fuel) of this plant for calendar year \$31.3 million and were primarily credited to Account 506, Miscellaneous steam power expenses.

# (i) Concept: PlantName

The Wyodak Plant is operated by PacifiCorp and is jointly owned by PacifiCorp and is jointly owned by PacifiCorp and Black Hills Corporation with an undivided interest of 80% and 20%, respectively. Data reported represents PacifiCorp's share. Costs that were billed to minority owners for the operations and maintenance (excluding fuel) of this plant for calendar year 2022 were \$5.5 million and were primarily credited to Account 506, Miscellaneous steam power

### (<u>k)</u> Concept: PlantAverageNumberOfEmployees

PacifiCorp does not have employees at this plant.

# (I) Concept: PlantAverageNumberOfEmployees

acifiCorp does not have employees at this plant.

# (m) Concept: PlantAverageNumberOfEmployees

fer to the Gadsby Steam Plant for the average number of employees.

# (n) Concept: PlantAverageNumberOfEmployees

PacifiCorp does not have employees at this plant.

# (o) Concept: PlantAverageNumberOfEmployees

PacifiCorp does not have employees at this plant.

# (p) Concept: PlantAverageNumberOfEmployees

Refer to Hunter - Total Plant for the average number of employees.

# (g) Concept: PlantAverageNumberOfEmployees

Refer to Hunter - Total Plant for the average number of employees. (r) Concept: PlantAverageNumberOfEmployees

# Refer to Hunter - Total Plant for the average number of employees.

(s) Concept: PlantAverageNumberOfEmployees

Refer to Lake Side Plant for the average number of employees.

# (t) Concept: FuelSteamPowerGeneration

Amount includes intercompany profits.

# (u) Concept: FuelSteamPowerGeneration

Amount includes intercompany profits.

# **Hydroelectric Generating Plant Statistics**

- Large plants are hydro plants of 10,000 Kw or more of installed capacity (name plate ratings).
   If any plant is leased, operated under a license from the Federal Energy Regulatory Commission, or operated as a joint facility, indicate such facts in a footnote. If licensed project, give project number.
   If net peak demand for 60 minutes is not available, give that which is available specifying period.
   If a group of employees attends more than one generating plant, report on line 11 the approximate average number of employees assignable to each plant.
   The items under Cost of Plant represent accounts or combinations of accounts prescribed by the Uniform System of Accounts. Production Expenses do not include Purchased Power, System control and Load Dispatching, and Other Expenses classified as "Other Power Supply Expenses."
   Report as a separate plant any plant equipped with combinations of steam, hydro, internal combustion engine, or gas turbine equipment.

# **Pumped Storage Generating Plant Statistics**

- 1. Large plants and pumped storage plants of 10,000 Kw or more of installed capacity (name plate ratings).

  2. If any plant is leased, operating under a license from the Federal Energy Regulatory Commission, or operated as a joint facility, indicate such facts in a footnote. Give project number.

  3. If net peak demand for 60 minutes is not available, give that which is available, specifying period.

  4. If a group of employees attends more than one generating plant, report on Line 8 the approximate average number of employees assignable to each plant.

  5. The items under Cost of Plant represent accounts or combinations of accounts prescribed by the Uniform System of Accounts. Production Expenses do not include Purchased Power System Control and Load Dispatching, and Other Expenses classified as "Other Power Supply Expenses."

  6. Pumping energy (Line 10) is that energy measured as input to the plant for pumping purposes.

  7. Include on Line 36 the cost of energy used in pumping into the storage reservoir. When this item cannot be accurately computed leave Lines 36, 37 and 38 blank and describe at the bottom of the schedule the company's principal sources of pumping power, the estimated amounts of energy from each station or other source that individually provides more than 10 percent of the total energy used for pumping, and production expenses per net MWH as reported herein for each source described. Group together stations and other resources which individually provide less than 10 percent of total pumping energy. If contracts are made with others to purchase power for pumping, give the supplier contract number, and date of contract.

# **GENERATING PLANT STATISTICS (Small Plants)**

- 1. Small generating plants are steam plants of, less than 25,000 Kw; internal combustion and gas turbine-plants, conventional hydro plants and pumped storage plants of less than 10,000 Kw installed capacity (name plate rating).

  2. Designate any plant leased from others, operated under a license from the Federal Energy Regulatory Commission, or operated as a joint facility, and give a concise statement of the facts in a footnote. If licensed project, give project number in footnote.

  3. List plants appropriately under subheadings for steam, hydro, nuclear, internal combustion and gas turbine plants. For nuclear, see instruction 11, Page 402.

  4. If net peak demand for 60 minutes is not available, give the which is available, specifying period.

  5. If any plant is equipped with combinations of steam, hydro internal combustion or gas turbine equipment, report as one plant. However, if the exhaust heat from the gas turbine is utilized in a steam turbine regenerative feed water cycle, or for preheated combustion air in a boiler, report as one plant.

FERC FORM NO. 1 (REV. 12-03)
Page 410-411

| Name of Respondent: PacifiCorp | This report is:  (1) ☑ An Original  (2) ☐ A Resubmission | Date of Report: 04/18/2023 | Year/Period of Report<br>End of: 2022/ Q4 |
|--------------------------------|--|----------------------------|---|
|                                | FOOTNOTE DATA  |                            |   |

(a) Concept: PlantName

The East Side plant was significantly curtailed pursuant to Section 6.2 of the Klamath Hydroelectric Settlement Agreement in FERC Docket No. P-2082-000.

The West Side plant generation supplies station use and was significantly curtailed pursuant to Section 6.2 of the Klamath Hydroelectric Settlement Agreement in FERC Docket No. P-2082-000.

(c) Concept: PlantName

Used in regulating the release of water from Klamath Lake and in maintaining proper water surface level in the Klamath River between Klamath Falls and Keno, Oregon.

(d) Concept: PlantName

Storage reservoir for six plants on the Klamath River (Copco No. 1, Copco No. 2, East Side, West Side, JC Boyle and Iron Gate).

(e) Concept: PlantName

Represents facilities that support the North Umpqua River system projects. All common roads, employee houses, control equipment, etc. are included in this account.

(f) Concept: PlantName

| Installed Capacity Name Plate Rating | Net Peak Demand                 |                                    |
|--------------------------------------|---------------------------------|------------------------------------|
| (In MW)                              | Net Peak Demand<br>MW (60 min.) | Net Generation Excluding Plant Use |
| (c)                                  | (d)                             | (e)                                |

| (2.80)                               | 0.0                             | (4,056,000)                        |

(g) Concept: PlantName

Used in regulating the release of water from Bear Lake and in maintaining proper water surface level in the Bear River near St. Charles, Idaho.

PacifiCorp has an agreement with Citizens Asset Finance, Inc. to lease the Black Cap Solar generating facility. The lease has a 16-year term from October 2012 to October 2028 and is accounted for as an operating lease.

(i) Concept: GenerationType

This footnote applies to all hydroelectric generating facilities may be: (a) used in future years to comply with renewable portfolio standards or other regulatory requirements or (b) sold to third parties in the form of renewable energy credits or other environmental commodities.

This footnote applies to all wind-powered generating facilities with current generation. Common costs for the operation of these facilities are allocated to each plant based upon the unit's name plate rating. All or some of the renewable energy attributes associated with generating facilities may be: (a) used in future years to comply with renewable portfolio standards or other regulatory requirements or (b) sold to third parties in the form of renewable energy credits or other environmental commodities.

|-----------------------------------|--|----------------------------|---|

# **ENERGY STORAGE OPERATIONS (Large Plants)**

- 1. Large Plants are plants of 10,000 Kw or more.
  2. In columns (a) (b) and (c) report the name of the energy storage project, functional classification (Production, Transmission, Distribution), and location.
  3. In column (d), report Megawatt hours (MWH) purchased, generated, or received in exchange transactions for storage.
  4. In columns (e), (f) and (g) report MWHs delivered to the grid to support production, transmission and distribution. The amount reported in column (d) should include MWHs delivered/provided to a generator's own load requirements or used for the provision of ancillary services.

- 4. In columns (e), (f) and (g) report MWHs lost during conversion, storage and discharge of energy.

  5. In column (K) report revenues from energy storage operations. In a footnote, disclose the revenue accounts and revenue amounts related to the income generating activity.

  7. In column (m), report revenues from energy storage operations and reported in Account 555.1, Power Purchased for Storage Operations. If power was determined. In columns (n) and (o), report fuel costs for storage operations associated with self-generated power included in Account 501 and other costs associated with self-generated power included in Account 501 and other costs associated with self-generated power included in Account 501 and other costs associated with self-generated power included in Account 501 and other costs associated with self-generated power included in Account 501 and other costs associated with self-generated power included in Account 501 and other costs associated with self-generated power included in Account 501 and other costs associated with self-generated power included in Account 501 and other costs associated with self-generated power included in Account 501 and other costs associated with self-generated power included in Account 501 and other costs associated with self-generated power included in Account 501 and other costs associated with self-generated power included in Account 501 and other costs associated with self-generated power included in Account 501 and other costs associated with self-generated power included in Account 501 and other costs associated with self-generated power included in Account 501 and other costs associated with self-generated power included in Account 501 and other costs associated with self-generated power included in Account 501 and other costs associated with self-generated power included in Account 501 and other costs associated with self-generated power included in Account 501 and other costs associated with self-generated power included in Account 501 and other costs as of
- power.

  9. In columns (q), (r) and (s) report the total project plant costs including but not exclusive of land and land rights, structures and improvements, energy storage equipment, turbines, compressors, generators, switching and conversion equipment whose primary purpose is to integrate or tie energy storage assets into the power grid, and any other costs associated with the energy storage project included in the property accounts listed.

FERC FORM NO. 1 ((NEW 12-12))

| Name of Respondent:<br>PacifiCorp | This report is: (1) ☑ An Original (2) ☐ A Resubmission | Date of Report: 04/18/2023 | Year/Period of Report<br>End of: 2022/ Q4 |
|-----------------------------------|--|----------------------------|---|
|-----------------------------------|--|----------------------------|---|

### TRANSMISSION LINE STATISTICS

- 1. Report information concerning transmission lines, cost of lines, and expenses for year. List each transmission line having nominal voltage of 132 kilovolts or greater. Report transmission lines below these voltages in group totals only for each voltage. If required by a State commission to report individual lines for all voltages, do so but do not group totals for each voltage under 132 kilovolts.

  2. Transmission lines include all lines covered by the definition of transmission system plant as given in the Uniform System of Accounts. Do not report substation costs and expenses on this page.

  3. Exclude from this page any transmission lines for which plant costs are included in Account 121, Nonutility Property.

  4. Indicate whether the type of supporting structure reported in column (e) is: (1) single pole wood or steel; (2) H-frame wood, or steel poles; (3) tower; or (4) underground construction need not be

- 5. Report in columns (f) and (g) the total pole miles of line on structures the cost of which is reported for another line. Report pole miles of line on leased or partly owned structures in column (g). In a footnote, explain the basis of such occupancy and state whether expenses with respect to such structures are included in the expenses reported for the line designated.
- and state wnetner expenses with respect to such structures are included in the expenses reported for the line designated.

  6. Do not report the same transmission line structure twice. Report Lower voltage Lines and higher voltage lines as one line. Designate in a footnote if you do not include Lower voltage lines as one line. If two or more transmission line structures support lines of the primary structure in column (f) and the pole miles of the other line(s) in column (g).

  7. Designate any transmission line or portion thereof for which the respondent is not the sole owner. If such property is leased from another company, give name of lessor, date and terms of Lease, and amount of rent for year. For any transmission line other than a leased line, or portion thereof, for which the respondent is not the sole owner but which the respondent in the line, name of co-owner, basis of sharing expenses of the Line, and how the expenses borne by the respondent are accounted for, and accounts affected. Specify whether lesser, co-owner, or other party is an associated company.

  8. Designate any transmission line leased to another company and give name of Lessee, date and terms of lease, annual rent for year, and how determined. Specify whether lessee is an associated company.

  9. Base the plant cost figures called for in columns (j) to (l) on the book cost at end of year.

FERC FORM NO. 1 (ED. 12-87)
Page 422-423

| Name of Respondent: PacifiCorp | This report is:  (1) ☑ An Original  (2) ☐ A Resubmission | Date of Report: 04/18/2023 | Year/Period of Report<br>End of: 2022/ Q4 |
|--------------------------------|--|----------------------------|---|
|                                | FOOTNOTE DATA  |                            |   |

### (a) Concept: TransmissionLineStartPoint

Certain transmission lines reported on pages 422-423 are part of exchange agreements with various third parties. For further discussion, see also page 328-330, Transmission of electricity for others in this Form No. 1.

### (b) Concept: TransmissionLineStartPoint

The Alvey - Dixonville 500kV line is jointly owned by PacifiCorp and Bonneville Power Administration, each with an undivided interest of 50.0%. Plant cost reported for this line represents PacifiCorp's 50.0% share. Operations and maintenance costs are sharedbetween the two parties and responsibility is as follows: PacifiCorp 58.0% and the Bonneville Power Administration 42.0%.

### (c) Concept: TransmissionLineStartPoint

The Broadview - Colstrip A 500kV line is jointly owned by PacifiCorp, NorthWestern Energy, Puget Sound Energy, Avista Corporation and Portland General Electric Company, in which PacifiCorp owns 6.8% of the line. Plant cost and operations and maintenance costs reported for this line represents PacifiCorp's share.

### (d) Concept: TransmissionLineStartPoint

The Broadview - Colstrip B 500kV line is jointly owned by PacifiCorp, NorthWestern Energy, Puget Sound Energy, Avista Corporation and Portland General Electric Company, in which PacifiCorp owns 6.8% of the line. Plant cost and operations and maintenance costs reported for this line represents PacifiCorp's share.

# (e) Concept: TransmissionLineStartPoint

The Broadview - Townsend A 500kV line is jointly owned by PacifiCorp, NorthWestern Energy, Puget Sound Energy, Avista Corporation and Portland General Electric Company, in which PacifiCorp owns 8.1% of the line. Plant cost and operations and maintenance costs reported for this line represents PacifiCorp's share.

#### (f) Concept: TransmissionLineStartPoint

The Broadview - Townsend B 500kV line is jointly owned by PacifiCorp, NorthWestern Energy, Puget Sound Energy, Avista Corporation and Portland General Electric Company, in which PacifiCorp owns 8.1% of the line. Plant cost and operations and maintenance costs reported for this line represents PacifiCorp's share.

# (g) Concept: TransmissionLineStartPoint

The Colstrip 4 - Colstrip 500kV line is jointly owned by PacifiCorp, NorthWestern Energy, Puget Sound Energy, Avista Corporation and Portland General Electric Company, in which PacifiCorp owns 6.8% of the line. Plant cost and operations and maintenance costs reported for this line represents PacifiCorp's share.

#### (h) Concept: TransmissionLineStartPoint

The Dixonville - Meridian 500kV line is jointly owned by PacifiCorp and Bonneville Power Administration, each with an undivided interest of 50.0%. Plant cost reported for this line represents PacifiCorp's 50.0% share. Operations and maintenance costs are shared between the two parties and responsibility is as follows: PacifiCorp 58.0% and the Bonneville Power Administration 42.0%.

#### (i) Concept: TransmissionLineStartPoint

The Hemingway - Summer Lake 500kV line is jointly owned by PacifiCorp and Idaho Power Company with an undivided interest of 78.0% and 22.0%, respectively. Plant cost and operations and maintenance costs reported for this line represents PacifiCorp's share.

### (i) Concept: TransmissionLineStartPoint

The Midpoint - Hemingway 500kV line is jointly owned by PacifiCorp and Idaho Power Company with an undivided interest of 63.0% and 37.0%, respectively. Plant cost and operations and maintenance costs reported for this line represents PacifiCorp's share.

### (k) Concept: TransmissionLineStartPoint

The Borah - Midpoint #1 345kV line is jointly owned by PacifiCorp and Idaho Power Company. Ownership of the line designation Borah - Adelaide - Midpoint #1 is as follows: PacifiCorp 35.6%, Idaho Power Company 64.4%. Plant cost and operations and maintenance costs reported for this line represents PacifiCorp's share.

### (I) Concept: TransmissionLineStartPoint

The Borah - Midpoint #2 345kV line is jointly owned by PacifiCorp and Idaho Power Company. Ownership of the line designation Borah - Adelaide - Midpoint #2 is as follows: PacifiCorp 35.6%, Idaho Power Company 64.4%. Plant cost and operations and maintenance costs reported for this line represents PacifiCorp's share.

### (m) Concept: TransmissionLineStartPoint

The Goshen - Kinport 345kV line is jointly owned by PacifiCorp and Idaho Power Company with an undivided interest of 81.7% and 18.3%, respectively. Plant cost and operations and maintenance costs reported for this line represents PacifiCorp's share.

### (n) Concept: TransmissionLineStartPoint

The Jim Bridger - Goshen 345kV line is jointly owned by PacifiCorp and Idaho Power Company with an undivided interest of 70.8% and 29.2%, respectively. Plant cost and operations and maintenance costs reported for this line represents PacifiCorp's share.

### (o) Concept: TransmissionLineStartPoint

The Jim Bridger - Borah 345kV line is jointly owned by PacifiCorp and Idaho Power Company. Ownership of the line designation is as follows:

Designation
PacifiCorp
Idaho Power Company
Jim Bridger - Populus #1
70.8%
29.2%
Populus - Borah #1
70.8%
29.2%
Populus - Borah #1
70.8%
29.2%
Populus - Borah #1

# (p) Concept: TransmissionLineStartPoint

The Jim Bridger - Kinport 345kV line is jointly owned by PacifiCorp and Idaho Power Company. Ownership of the line designation is as follows:

Designation

Jim Bridger - Populus #2

Populus - Kinport

Populus - Kinport

70.8%
29.2%
Populus - Kinport

Plant cost and operations and maintenance costs reported for this line represents PacifiCorp's share.

# (q) Concept: TransmissionLineStartPoint

he Kinport - Midpoint 345kV line is jointly owned by PacifiCorp and Idaho Power Company with an undivided interest of 26.8% and 73.2%, respectively. Plant cost and operations and maintenance costs reported for this line represents PacifiCorp's share.

# (r) Concept: TransmissionLineStartPoint

A 1.5 mile segment of the Casper - Dave Johnston 230kV line is jointly owned by PacifiCorp and Black Hills Power with an undivided interest of 43.75% and 56.25%, respectively. Plant cost and operations and maintenance costs reported for this line represents PacifiCorp's share.

# (s) Concept: TransmissionLineStartPoint

The Hurricane - Walla Walla 230kV line is jointly owned by PacifiCorp and Idaho Power Company with an undivided interest of 59.2% and 40.8%, respectively. Plant cost and operations and maintenance costs reported for this line represents PacifiCorp's share.

# (t) Concept: TransmissionLineStartPoint

The Antelope - Goshen 161kV line is jointly owned by PacifiCorp and Idaho Power Company with an undivided interest of 78.1% and 21.9%, respectively. Plant cost and operations and maintenance costs reported for this line represents PacifiCorp's share.

# (u) Concept: TransmissionLineStartPoint

The Big Grassy - Jefferson 161kV line is jointly owned by PacifiCorp and Idaho Power company with an undivided interest of 62.2% and 37.8%, respectively. Plant costs and operations and maintenance costs reported for this line represents PacifiCorp's share.

# (v) Concept: TransmissionLineStartPoint

The Goshen - Jefferson 161kV line is jointly owned by PacifiCorp and Idaho Power Company with an undivided interest of 77.0% and 23.0%, respectively. Plant cost and operations and maintenance costs reported for this line represents PacifiCorp's share.

# (w) Concept: TransmissionLineStartPoint

The Antelope - Scoville #1 138kV line is jointly owned by PacifiCorp and Idaho Power Company with an undivided interest of 33.3% and 66.7%, respectively. Plant cost and operations and maintenance costs reported for this line represents PacifiCorp's share.

# (x) Concept: TransmissionLineStartPoint

The Antelope - Scoville #2 138kV line is jointly owned by PacifiCorp and Idaho Power Company with an undivided interest of 33.3% and 66.7%, respectively. Plant cost and operations and maintenance costs reported for this line represents PacifiCorp's share.

# $\underline{(\underline{y})}. Concept: TransmissionLineStartPoint$

The Central #2 - Saint George 138kV line is jointly owned by PacifiCorp and Utah Associated Municipal Power Systems with an undivided interest of 43.26% and 56.74%, respectively. Plant cost and operations and maintenance costs reported for this line represents PacifiCorp's share.

# (z) Concept: TransmissionLineStartPoint

The Central #3 - Saint George 138kV line is jointly owned by PacifiCorp and Utah Associated Municipal Power Systems with an undivided interest of 43.26% and 56.74%, respectively. Plant cost and operations and maintenance costs reported for this line represents PacifiCorp's share.

# (aa) Concept: TransmissionLineStartPoint

The Wheelon - American Falls 138kV line is jointly owned by PacifiCorp and Idaho Power Company with an undivided interest of 96.4% and 3.6%, respectively. Plant cost and operations and maintenance costs reported for this line represents PacifiCorp's share.

# TRANSMISSION LINES ADDED DURING YEAR

- 1. Report below the information called for concerning Transmission lines added or altered during the year. It is not necessary to report minor revisions of lines.

  2. Provide separate subheadings for overhead and under- ground construction and show each transmission line separately. If actual costs of competed construction are not readily available for reporting columns (I) to (o), it is permissible to report in these columns the costs. Designate, however, if estimated amounts are reported. Include costs of Clearing Land and Rights-of-Way, and Roads and Trails, in column (I) with appropriate footnote, and costs of Underground Conduit in column (m).

  3. If design voltage differs from operating voltage, indicate such fact by footnote; also where line is other than 60 cycle, 3 phase, indicate such other characteristic.

SUBSTATIONS

- 1. Report below the information called for concerning substations of the respondent as of the end of the year.

  2. Substations which serve only one industrial or street railway customer should not be listed below.

  3. Substations with capacities of Less than 10 MVA except those serving customers with energy for resale, may be grouped according to functional character, but the number of such substations must be shown.

  4. Indicate in column (b) the functional character of each substation, designating whether transmission or distribution and whether attended or unattended. At the end of the page, summarize according to function the capacities reported for the individual stations in column (f).

  5. Show in columns (b) the functional character of each substation, designating whether transmission or distribution and whether attended or unattended. At the end of the page, summarize according to function the capacities reported for the individual stations in column (f).

  5. Show in columns (b) the functional character of each substation, designating whether transmission or distribution and whether attended or unattended. At the end of the page, summarize according to function the capacities reported for the individual stations in column (f).

  5. Show in columns (b) the functional character of each substation, designating whether transmission or distribution and whether attended or unattended. At the end of the page, summarize according to function the capacities reported for the individual stations in column (f).

  6. Designate substations or major items of equipment leased from others, jointly owned with others, or operated otherwise than by reason of sole ownership or lease, give name of lease, and annual rent. For any substation or equipment operated other than by reason of sole ownership or lease, give name of co-owner or other party, explain basis of sharing expenses or other accounting between the parties, and state amounts and accounts affected in respondent's books of account. Specify in each case whether lesso

(a) Concept: SubstationNameAndLocation

Substation is jointly owned by PacifiCorp and Idaho Power Company. Ownership and operations and maintenance costs vary by type of asset as defined in the Joint Ownership and Operating Agreement. 100% of the capacity is reported.

(b) Concept: SubstationNameAndLocatio

Substation is jointly owned by PacifiCorp and Idaho Power Company. Ownership and operations and maintenance costs vary by type of asset as defined in the Joint Ownership and Operating Agreement. 100% of the capacity is reported.

(c) Concept: SubstationNameAndLocation

Substation is jointly owned by PacifiCorp and Idaho Power Company. Ownership and operations and maintenance costs vary by type of asset as defined in the Joint Ownership and Operating Agreement. 100% of the capacity is reported.

(d) Concept: SubstationNameAndLocation

Substation is jointly owned by PacifiCorp and Idaho Power Company. Ownership and operations and maintenance costs vary by type of asset as defined in the Joint Ownership and Operating Agreement. 100% of the capacity is reported.

(e) Concept: SubstationNameAndLocation

Substation is jointly owned by PacifiCorp and Idaho Power Company. Ownership and operations and maintenance costs vary by type of asset as defined in the Joint Ownership and Operating Agreement. 100% of the capacity is reported.

(f) Concept: SubstationNameAndLocation

Substation is jointly owned by PacifiCorp and Idaho Power Company. Ownership and operations and maintenance costs vary by type of asset as defined in the Joint Ownership and Operating Agreement. 100% of the capacity is reported.

(g) Concept: SubstationNameAndLocation

Substation is jointly owned by PacifiCorp, NorthWestern Energy, Puget Sound Energy, Inc., Portland General Electric Company and Avista Corporation. Ownership and operations and maintenance costs vary by type of asset as defined in the Transmission Agreement. 100% of the capacity is reported.

(h) Concept: SubstationNameAndLocation

Substation is jointly owned by PacifiCorp, NorthWestern Energy, Puget Sound Energy, Inc., Portland General Electric Company and Avista Corporation. Ownership and operations and maintenance costs vary by type of asset as defined in the Transmission Agreement. 190% of the capacity is reported.

(i) Concept: SubstationNameAndLocation

Substation is jointly owned by PacifiCorp and Bonneville Power Administration (BPA), each with an undivided interest of 50.0%. Operations and maintenance costs are shared between the two parties and responsibility is as follows: PacifiCorp 58.0% and BPA 42.0%. 100% of the capacity is reported.

(i) Concept: SubstationNameAndLocation

Substation is jointly owned by PacifiCorp and Idaho Power Company. Ownership and operations and maintenance costs vary by type of asset as defined in the Joint Ownership and Operating Agreement. 100% of the capacity is reported.

(k) Concept: SubstationNameAndLocation

Substation is jointly owned by PacifiCorp, Bonneville Power Administration and Portland General Electric Company. Ownership and operations and maintenance costs vary by type of asset as defined in the operations and maintenance agreement. 100% of the capacity is reported.

(I) Concept: SubstationNameAndLocation

Substation is jointly owned by PacifiCorp and Bonneville Power Administration (BPA), each with an undivided interest of 50.0%. Operations and maintenance costs are shared between the two parties and responsibility is as follows: PacifiCorp 58.0% and BPA 42.0%. 100% of the capacity is reported.

(m) Concept: SubstationNameAndLocation

Substation property is owned by PacifiCorp and Bonneville Power Administration as defined in the facility sharing agreement where operations and maintenance costs vary by type of asset and performance responsibility. 100% of the capacity is reported.

(n) Concept: SubstationNameAndLocation

Substation property is owned by PacifiCorp and Bonneville Power Administration as defined in the facility sharing agreement where operations and maintenance costs vary by type of asset and performance responsibility. 100% of the capacity is reported.

 $(\underline{\circ})$  Concept: SubstationNameAndLocation

Substation property is jointly owned by PacifiCorp and Avista Corporation as defined in the interconnection agreement where operations and maintenance costs vary by type of asset and performance responsibility. 100% of the capacity is reported.

(p) Concept: SubstationNameAndLocation

Substation is jointly owned by PacifiCorp and Idaho Power Company. Ownership and operations and maintenance costs vary by type of asset as defined in the Joint Ownership and Operating Agreement. 100% of the capacity is reported.

(g) Concept: SubstationNameAndLocation

Substation is jointly owned by PacifiCorp and Black Hills Power with an undivided interest of 85.0% and 15.0%, respectively. Operations and maintenance costs are shared between the two parties based on a fixed amount derived as a factor of the percentage owned of the original installed substation. 100% of the capacity is reported.

(r) Concept: SubstationNameAndLocation

Substation is jointly owned by PacifiCorp and Idaho Power Company. Ownership and operations and maintenance costs vary by type of asset as defined in the Joint Ownership and Operating Agreement. 100% of the capacity is reported.

(s) Concept: NumberOfTransformersInService

Includes one 3-phase transformer

(t) Concept: NumberOfTransformersInService

Represents three phase shifters at the substation, which does not change the voltage and reports a 3-phase bank as three transformers

(u) Concept: NumberOfTransformersInService

# TRANSACTIONS WITH ASSOCIATED (AFFILIATED) COMPANIES

- 1. Report below the information called for concerning all non-power goods or services received from or provided to associated (affiliated) companies.

  2. The reporting threshold for reporting purposes is \$250,000. The threshold applies to the annual amount billed to the respondent or billed to an associated/affiliated company for non-power goods and services. The good or service must be specific in nature. Respondents should not attempt to include or aggregate amounts in a nonspecific category such as "general".

  3. Where amounts billed to or received from the associated (affiliated) company are based on an allocation process, explain in a footnote.

### (a) Concept: DescriptionOfNonPowerGoodOrService

This footnote applies to all occurrences of "Administrative services under the IASA" on page 429. "IASA" is the Intercompany Administrative Services Agreement between Berkshire Hathaway Energy Company ("BHE") and its subsidiaries. Amounts which are chargeable to on from another affiliate are assigned first by coding to the specific affiliate. These charges are based on actual labor, benefits and operational costs incurred. Amounts not directly assignable to an individual affiliate, such as work performed where multiple affiliates benefit, are assigned on the basis of the following allocation based on customer counts. Employees: An allocation based on customer service agents allocation pased on customer service agents. Two combinations of this allocator are used for allocating costs that benefit different companies within the BHE organization. Weighted Customer/Customer Service Agents: An allocation based on a combination of customer counts and customer service agents. Two combinations of this allocator are used for allocating costs that benefit different companies within the BHE organization. Weighted Customer/Sustomer Service Agents: An allocation based on a combination of this allocator are used for allocating costs that benefit different companies within the BHE organization. Weighted Customer/Sustomer Service Agents: An allocation based on actual labor, benefit different companies within the BHE organization. Weighted Customer/Sustomer Service Agents: An allocation based on actual referent companies within the BHE organization. Weighted Customer/Sustomer Service Agents: An allocation are used for allocating costs that benefit different companies within the BHE organization. Weighted Customer/Sustomer Service Agents: An allocation and customer service agents. Two combinations of this allocator are used for allocating costs that benefit different companies within the BHE organization. Weighted Customer/Sustomer Service Agents: An allocation of this allocator are used for allocating costs that benefit differen

# (b) Concept: NameOfAssociatedAffiliatedCompany

On December 31, 2022, The Bank of New York Mellon Corporation and BNY Mellon Capital Markets, LLC ceased being affiliated company for purposes of this page.

### (c) Concept: NameOfAssociatedAffiliatedCompany

On December 31, 2022, The Bank of New York Mellon Corporation and BNY Mellon Corporation and BNY Mellon Capital Markets, LLC ceased being affiliated) company for purposes of this page.

### (d) Concept: NameOfAssociatedAffiliatedCompany

On October 31, 2022, U.S. Bancorp ceased being an affiliated company when the ownership of the number of shares of U.S. Bancorp common stock by PacifiCorp's ultimate direct parent company, Berkshire Hathaway Inc., fell below the 5% threshold used to define an associated (affiliated) company for purposes of this page

### (e) Concept: DueToOrChargedByTheTransactionsWithAssociatedAffiliatedCompanies

The following item is excluded from the total in column (d):The Bank of New York Mellon Trust Company is the trustee and custodian for PacifiCorp's pension plan master trust and post-retirement health and welfare benefit plan trust during the year ended December 31, 2022. Trustee fees are paid by the trusts, however the expenses flow through to PacifiCorp's net periodic benefit cost. For the year ended December 31, 2022, the plans paid \$148,568 for these trustee and custodial services.

(f) Concept: DueToOrChargedByTheTransactionsWithAssociatedAffiliatedCompanies

Non-power goods or services provided by BNSF Railway Company are as follows: \$ 21,202,984 Rail services 72,526 Right-of-way \$ 21,275,510 FERC FORM NO. 1 ((NEW))
