RE: 2011 Electricity Product Claim Reconciliation Report

Attached is PGE's annual Product Claim Reconciliation Report for calendar year 2011. It summarizes PGE's purchases and sales of renewable energy certificates on behalf of customers that subscribed to PGE's optional renewable portfolio programs in 2011. This filing complies with the annual reporting requirement in OAR 860-038-0300(10).

The sourcing and documentation for the Tradable Renewable Credits is again based on the column in the attached Excel file that contains the Western Renewable Energy Generation Information System (WREGIS) Serial Number for the Credits. This eliminates the need to supply copies of green tag certificates and attestations for purchases and generation, as it is now possible to track the purchase or generation using the WREGIS reporting system.

If you have any questions about this filing, please contact Bruce Werner, (503) 464-7481.

All resources purchased for the retail programs are considered "new renewable energy resources" per ORS 757.600, placed in operation after July 23, 1999. Clean Wind customers do not receive solar RECs as a function of their monthly payments, these are RECs from projects partially funded by the Clean Wind Development fund and therefore RECs are retired on behalf of PGE's Clean Wind customers.
