RE: Docket UE 230 - Annual Boardman Decommissioning Update - 2020

Dear Filing Center:

On July 5, 2011, Commission Order No. 11-242 approved Portland General Electric Company's (PGE) request to revise Schedule 145 to adjust depreciation rates related to the planned Boardman plant closure changing from the year 2040 to the year 2020. The provisions of this Order require that PGE submit an annual informational report, beginning June 15, 2012 to all parties in the UE 230 proceeding that includes:

- Current balance of dollars collected for decommissioning; and
- Any relevant changes to PGE forecasts of future decommissioning costs.

Attachment 1, "2020 Boardman Decommissioning Update," is PGE's informational report.

If you have any questions or require further information, please call me at (503) 464-7488. Please direct all formal correspondence, questions, and requests to the following email address pge.opuc.filings@pgn.com.

Sincerely,

/s/ Jaki Ferchland

Attachment 1

2020 Boardman Decommissioning Update

Portland General Electric
Attachment 1
Schedule 145 Boardman Adjustment Update
Boardman Decommissioning Update
2020

The total collection from customers for future Boardman decommissioning costs as of 5/31/2020 is \$58,857,295 (out of a currently estimated \$61 million). Pursuant to the provisions of Schedule 145, the current monthly decommissioning accrual for the remainder of 2020 is \$332,625.

PGE is currently in the process of refining its decommissioning cost estimate in an effort to prepare for the request and review of bid proposals. The current plan assumes full decommissioning and demolition of the plant. We will be providing our annual update to Schedule 145 in October, at which point the new study and cost estimate will be provided.
