Advice No. 2015-002-PL **Supplement No. 2**

The Honorable Commissioners Ackerman, Bloom and Savage
Oregon Public Utility Commission
3930 Fairview Industrial Drive SE
Salem, Oregon 97302-1166

Attention: Joan Grindeland

Dear Commissioners:

Pursuant to Qwest Corporation's d/b/a CenturyLink QC Price Plan under ORS 759.255 approved by the Commission in Order No. 14-346 in Docket No.UM 1354, the Company is making this filing to transfer a number of services from its Exchange and Network Services Tariff No. 33 to its Price List. This Price List filing accompanies the companion Tariff filing, Advice No. 2124, which was revised on April 2, 2015. **Supplement No. 1 delayed the original proposed effective date of April 11, 2015 to May 9, 2015 due to a customer notification issue. Supplement No. 2 requests an additional delay to the effective date for only the rate increases, due to the same customer notification problem. Finally, move codes and footnotes have been added to Section 105, Sheets 35.1 and 35.2.**

Specifically, the Company attaches its modified Qwest Corporation d/b/a CenturyLink QC Exchange and Network Services Price List Fourth Edition pages. Attachment A, following, lists the sheets included in this filing, as well as specific information regarding revisions to individual sheets in the Price List. Attachment B provides information regarding the movement of services between the new Tariff and Price List.

Generally, unless otherwise noted in the transmittal letter for the companion Tariff filing, services are being transferred from the Tariffs to the Price Lists without any substantive changes. Sections that previously included withdrawal language are not being included in the Price List. Statements have been added to both the Tariff and Price List to provide references between the documents for situations in which price listed services may include 'tariff' general terms, by reference. As a result of the moves of services from the Tariff to the Price List, the Company has moved material and made revisions to indices.

Rate increases allowed under the terms of the Price Plan are also included in this filing. The proposed effective date of May 9 is a delay from the original date of April 11, 2015.

Questions concerning this filing may be directed to me or to Ron Trullinger at (503) 242-5089.

Yours very truly,

A handwritten signature in black ink that reads "Dawn Salaver".

5.2 LOCAL EXCHANGE SERVICE (Cont'd)

5.2.1 MEASURED RATE SERVICE

A. Description

Measured Business Service

A class of service for which charges may be based upon: frequency, time of day, duration, and whether the call is within or outside the local exchange. In the case of a usage package, the usage charge only applies when the stipulated usage allowance is exceeded.

B. Terms and Conditions

1. Measured Services are offered in exchanges where operating conditions and facilities permit. Measured Services are not available in connection with Foreign Exchange Service.
2. Flat Rate and Measured Services from the same exchange will not be furnished concurrently to the same customer on the same premises, except as stated in 5.2.E., in Tariff No. 33.
3. The monthly rates for Measured Services are in addition to other applicable charges and rates.
4. Measured Business Service rates do not include charges for Hunting Service and Improved Transmission Performance. See 5.4.11 and 5.4.5, following, respectively.

C. Business Usage Packages

1. Usage packages will not be provided concurrently with other flat-rated local exchange services.
2. Usage package customers will be permitted to convert to an alternative package once at no charge within 90 days of the installation date of the original package.
3. Usage packages consist of 6, 9, and 12 hours of outgoing local usage per line. Usage in excess of that included in the selected package will be billed at the local measured service rate. Usage allowances apply to all local calls to the local exchange and EAS exchanges. Time-of-day discounts are applicable. See E., following.
4. Unused usage within the packages is not applicable toward a future monthly bill.

5.5 PUBLIC COMMUNICATIONS SERVICE - COIN AND COINLESS

(N)

5.5.7 PUBLIC ACCESS LINE SERVICE

A. Description

1. Public Access Line (PAL) Service provides telephone service to all Payphone Service Providers (PSP) pay telephones with or without coin collecting devices. Basic PAL access to the network will be provided as either a two-way or outgoing only flat-rated line, and a basic measured or measured line with 300 call allowance. Coinless Subscriber Service is also available.
2. Smart PAL Service is a flat or message, two-way or outgoing only line which utilizes central office coin control features. This service provides:
 - Coin signaling, including coin collect and coin return.
 - Company completed and carried local and intraLATA toll messages, both sent paid and non-sent paid.
 - Company operator services/systems for all 0-, 0+ and 1+ intraLATA toll calls, and 0+ local calls.
 - Routing to the presubscribed carrier for all 0+ and 00- interLATA calls.
 - Pay-per-call blocking (e.g. 900 and 976).
 - Incoming and outgoing call screening.
 - Access to:
 - Directory assistance,
 - 911 emergency code,
 - All interexchange carriers,
 - 800/800-type service and 950 telephone numbers,
 - Company repair service.

5. EXCHANGE SERVICES

5.5 PUBLIC COMMUNICATIONS SERVICE - COIN AND COINLESS

5.5.7 PUBLIC ACCESS LINE SERVICE

A. Description (Cont'd)

3. Fraud Protection Service for Basic PAL Service offers three levels of protection: incoming, outgoing, and incoming & outgoing as described below.

- Incoming Fraud Protection, or Billed Number Screening (BNS), prohibits collect and/or third number billed calls from being charged to Incoming Fraud Protected numbers. Callers attempting to place a collect or third number billed call using an Incoming Fraud Protected number for billing will be advised by an operator that such billing is unauthorized and the call will not be completed until other payment or billing arrangements are made.
- Outgoing Fraud Protection restricts outgoing toll calls to only collect, third number billed and calling card.
- Incoming & Outgoing Fraud Protection is a combination of the two aforementioned Fraud Protection Services.

Fraud Protection Service is subject to the availability of facilities with Basic PAL Service. Operator assisted, collect and/or third number billed calls originating from locations that do not have screening capabilities may not be capable of being intercepted and denied and will be billed, e.g., International calls and calls that do not go through the Billing Validation Authority database. Provision of Fraud Protection does not alleviate customer responsibility for completed toll calls. Rates and Charges for this service are set forth in 5.5.7.C.4., following.

B. Terms and Conditions

1. PAL Service and features are available where equipment, facilities and operating conditions permit.
2. A number change may be required if a customer changes from existing service to PAL Service.
3. All PSP pay telephones must be connected to PAL Service.
4. Payment of all business measured service usage, message service usage, toll message service, Information Delivery Service and directory and operator assistance charges from a PAL shall be the responsibility of the customer subscribing to the PAL Service.

SECTION 5
Original Sheet 115.1

5. EXCHANGE SERVICES

5.5 PUBLIC COMMUNICATIONS SERVICE - COIN AND COINLESS

5.5.7 PUBLIC ACCESS LINE SERVICE

B. Terms and Conditions (Cont'd)

5. All other conditions of service not specifically mentioned herein will be governed by exchange access service including, but not limited to, directory listings, touch-tone calling service, and limits of liability.
6. In the event it becomes apparent that a PSP pay telephone is attached to a line not authorized for such use, the Company reserves the right to disconnect that customer's service. However, should the customer so request, the Company will install a PAL at the rates and charges specified herein.
7. Each Basic PAL will be equipped with call screening capabilities. Call screening as referenced here allows participating operator service companies to perform data base verification to determine if third party billed or collect calls are authorized for the billed number requested by the call originator. Call screening does not block calls from completing in the Company's network.
8. The Company shall not be liable for any incidental or consequential damages, including but not limited to loss, damage, expense or charges arising from the Company's provisioning of call screening.
9. The Company does not guarantee nor warrant that call screening will block collect and third party billed calls. The customer shall indemnify and hold the Company harmless from any and all losses, claims, demands, suits or other actions, or any liability, whether suffered, made, instituted or asserted by the customer or by any other party or person, for any loss, damage or charges caused or claimed to have been caused by the failure of call screening to prevent collect third party billed or other similar charges from the customer's account.
10. The Company will provide written verification of call screening upon the request of the customer. There is no monthly or nonrecurring charge for call screening.

5.5.7 PUBLIC ACCESS LINE SERVICE

B. Terms and Conditions (Cont'd)

11. The Company is not liable for shortages of coins deposited and/or collected from the pay telephones used on PAL Service.
12. The Company is not liable for end-user fraud associated with failure of the customer's pay telephones to perform correctly.
13. Message rates apply to all applicable local and EAS calls. No message rate is assessed for long distance calling.
14. Loop Diversity and/or Avoidance
 - a. Loop Diversity and/or Avoidance defined in the Private Line Transport Services Tariff are available with Basic Public Access Lines.
 - b. Customers subscribing to Loop Diversity must also subscribe to additional facilities for the diverse route.
15. The following terms and conditions are specific to Smart PAL Service:
 - a. Separate lines are used for each pay telephone instrument installed. Off premises extensions are not permitted.
 - b. The customer must insure that the telephone sets used with Smart PAL Service are capable of rating sent-paid local calls and are compatible with, and cause no harm to the Company's network.

105.6 JOINT USER SERVICE

A. Description

An individual or concern authorized by the Company and the customer to share in the use of the customer's business telephone service.

B. Terms and Conditions

1. Joint User Service is a shared service arrangement which allows the shared use of business telephone exchange service when so designated by the customer, to individuals, firms, corporations, companies or associations, not otherwise permitted use of the customer's service.
2. Application for Joint User Service and for changes in service or equipment must be executed by the customer. The customer is responsible for payment of all charges incurred, regardless if the charges are associated with his/her usage, or that of the joint user(s).
3. Joint User Service will be furnished to business customers upon request and will include a telephone directory listing or listing in information records as shown below:
 - Application by the customer for use of the service by the same customer for a separately conducted business differing in name or character from the service provided.
 - Application by the customer in the name of another individual, firm, corporation or association to be furnished over the service provided for the customer's use.
4. The rates apply in addition to the rates shown for the facilities and all other service provided. Charges for Joint User Service begin the day following the entry of the listing in information records.

9. CENTRAL OFFICE SERVICES

9.1 DIAL SWITCHING SYSTEMS (Cont'd)

(N)

9.1.12 CENTRAFLEX SYSTEM 1

A. Description

CENTRAFLEX System 1 (CS1) Service provides optional Custom Calling features to residence exchange access flat and measured lines.

The CS1-Six Pack will provide a system of features on two to six central office lines. The billing record of toll calls on lines using CS1 service will not be affected by the application of the features of this service.

The CS1 allows a multiline customer to integrate separate lines into a communication system.

1. The following standard features are included in the packages:

Intercom Dialing

A user of a CS1-Six Pack equipped line can dial up to five other lines in the same CS1 group by dialing an access code followed by a single digit.

Call Hold

A user of a CS1 line can place any established call on hold by flashing the switchhook and dialing a code. This frees the line to originate another call or use the call pickup feature.

Touch-Tone

A CS1 line will be equipped with touch-tone service. The CS1 user must use a tone-signaling set to activate features.

User Transfer

The user of a CS1 line can transfer an established call to another line within or outside the CS1 group.

Conferencing

The user of a CS1 line can hold an in-progress call and complete a second call while maintaining privacy from the first call. In addition, the user of a CS1 line may choose to add on the previously held call into a three-way conference.

9. CENTRAL OFFICE SERVICES

9.1 DIAL SWITCHING SYSTEMS

9.1.12 *CENTRAFLEX* SYSTEM 1 (Cont'd)

A. Description

2. The following selection of optional features are available to CS1 customers:

Call Waiting

Provides a tone burst alert to a CS1 user on an existing call to advise that another call is waiting.

Call Forwarding - Variable

Automatically transfers all calls made to the subscribing line to a different line, within or outside the CS1 group.

Speed Calling - CS1-Six Pack

Allows a user of a CS1 line to abbreviate dialing patterns for frequently called and emergency numbers. By dialing an access code followed by two digits, a customer can dial up to 30 preprogrammed numbers. All lines in a CS1 group share the same list which can be reprogrammed from a customer specified line.

Distinctive Ringing

Allows the customer to distinguish between incoming and intercom calls by providing distinctive ringing patterns on all lines in the system. CS1 lines in a system that is equipped for distinctive ringing which are also assigned the CS1 Call Waiting feature will receive distinctive tones on incoming and intercom calls which are waiting. If one line of the system selects this feature, all lines of the system must be equipped with this feature.

Call Forwarding-Don't Answer

This feature automatically transfers to an alternate designated line, incoming calls from inside or outside the *CENTRAFLEX* 1 system that encounter a don't answer condition. This feature is in operation on a continuous basis and cannot be activated or deactivated by the customer.

Call Forwarding-Busy Line

This feature automatically transfers to an alternate designated line, incoming calls from inside or outside the *CENTRAFLEX* 1 system that encounter a busy condition. This feature is in operation on a continuous basis and cannot be activated or deactivated by the customer.

B. Terms and Conditions

1. All access lines terminating in a system must be served by the same central office entity.
2. Exchange access lines for the same customer terminating in different locations served by a single central office entity may be arranged within the same system. For lines terminating at a secondary location in a different central office, an interoffice mileage charge will apply.
3. The quality of transmission may vary when calls are forwarded or connected via CS1 conferencing depending on the distance and routing involved.
4. The CS1 requires special central office equipment and is not provided in all central offices. The Company may furnish CS1 where there is available central office equipment with the proper program updates, as determined by the Company.
5. CS1 is not available on trunks, remote switching systems (RSS) systems or, Public Communications Service.
6. Touch-tone signaling is required for each access line terminating in CS1. A touch-tone set is required on each line in order to use the # and * for Abbreviated Dialing and other features.
7. CS1 standard and optional features cannot be used in conjunction with the following Custom Calling features, as defined in 5.4.3, preceding: Calling Waiting, Call Forwarding-Variable, Three-Way Calling, Speed Calling 8, and Speed Calling 30.

B. Terms and Conditions (Cont'd)

8. Other Centrex-type services from this Section are not available for use on a CS1 line. Features from other Tariff sections are not available on a CS1 line.
9. All lines of a system must be CS1-Six Pack lines. The lines cannot be mixed between Six Pack and Bell Pack systems in 109.1.12, following.
10. Any CS1 customer utilizing a measured type of line will not be billed a measured rate for intercom calls originating from the CS1 line.
11. A CS1-Six Pack can only subscribe to one CS1 Speed Calling feature for a 30 number list and all six lines can share access to the one list.
12. The hunting arrangements available on CS1 are defined in 5.4.11, preceding.
13. When a CS1 system contains both residence and business lines, only one residence line is permitted and the one residence line must be a measured type of service. In addition, no Hunting or Call Forward-Busy Line features are permitted between the business and residence lines. The business line must be the first line on the system. If a telephone number change is required to combine a residence line and a business line in one system, no Change of Telephone Number charge is applicable.
14. A CS1 system cannot have flat rate and measured type lines on the same system.

109.1 DIAL SWITCHING SYSTEMS (Cont'd)

109.1.12 CENTRAFLEX SYSTEM 1

(M)(N)

A. Description

CENTRAFLEX System 1 (CS1) Service provides optional Custom Calling features to business exchange access flat and measured lines.

CS1 is grandfathered to existing business customers in service before September 24, 1989. Service that is moved, changed, or disconnected is no longer grandfathered.

The CS1 is offered in two categories. The CS1-Six Pack will provide a system of features on 2 to 6 central office lines. The CS1-Bell Pack will provide a system of features on 2 to 30 central office lines. The billing record of toll calls on lines using CS1 service will not be affected by the application of the features of this service.

The CS1 allows a multiline customer to integrate separate lines into a communication system.

1. The following standard features are included in the packages:

Intercom Dialing

A user of a CS1-Six Pack equipped line can dial up to five other lines in the same CS1 group by dialing an access code followed by a single digit. A user of a CS1-Bell Pack equipped line can dial up to 29 other lines in the same CS1 group by dialing an access code followed by two digits.

Call Hold

A user of a CS1 line can place any established call on hold by flashing the switchhook and dialing a code. This frees the line to originate another call or use the call pickup feature.

Touch-Tone

A CS1 line will be equipped with touch-tone service. The CS1 user must use a tone-signaling set to activate features.

109.1 DIAL SWITCHING SYSTEMS

109.1.12 CENTRAFLEX SYSTEM 1

(M)(N)

A. Description

2. The following selection of optional features are available to CS1 customers:
(Cont'd)

Distinctive Ringing

Allows the customer to distinguish between incoming and intercom calls by providing distinctive ringing patterns on all lines in the system. CS1 lines in a system that is equipped for distinctive ringing which are also assigned the CS1 Call Waiting feature will receive distinctive tones on incoming and intercom calls which are waiting. If one line of the system selects this feature, all lines of the system must be equipped with this feature.

Call Forwarding-Don't Answer

This feature automatically transfers to an alternate designated line, incoming calls from inside or outside the *CENTRAFLEX* 1 system that encounter a don't answer condition. This feature is in operation on a continuous basis and cannot be activated or deactivated by the customer.

Call Forwarding-Busy Line

This feature automatically transfers to an alternate designated line, incoming calls from inside or outside the *CENTRAFLEX* 1 system that encounter a busy condition. This feature is in operation on a continuous basis and cannot be activated or deactivated by the customer.

Call Pickup

Enables a user of a CS1 line to answer a call which has been directed to another line in the CS1 group.

Directed Call Pickup enables the user to selectively pick up another line in the CS1 group, with or without the ability to "barge into" an existing connection. A burst of tone alerts the conversants that a third party is about to enter the conversation.

800 Service Call Transfer

Allows an 800 Service call to be transferred to another line.

A. Description

1. *CENTRON* Custom is a business communications service furnished only from a Stored Program Controlled central office and is offered subject to the availability of facilities and applicable generic feature programs. The provision of such facilities and programs will be determined by the Telephone Company based upon regular engineering practices and economic consideration.

CENTRON Custom is so arranged as to provide the following basic service features:

- Direct inward and outward dialing of exchange and long distance message network calls from stations and attendant positions.
- Intercommunication between station lines of the same *CENTRON* Custom system.
- Identification, by main station line number on the customer's bill, of outgoing and incoming collect long distance message network calls.
- Call transfer - all calls, provides for all transfers including direct inward dialing to DOD, consultation hold and add-on for any established call without the assistance of an attendant.
- Main station lines series completion and multiline hunting.[1]
- Common recorded announcement for interception of calls to unassigned station numbers.
- Touch-Tone calling provided on station lines.
- Trunk answer any station for incoming primary listed directory calls.

[1] Hunting requirements differ by type of office.

109.1 DIAL SWITCHING SYSTEMS

109.1.13 CENTRON CUSTOM

A.6. (Cont'd)

All classes of service with the exception of Deny Origination, are allowed access to tie lines, CCSA, and WATS etc., providing the station is translated with the proper category codes.

New line class code screening may be negotiated, providing the office is capable of the arrangement requested.

7. Split service common equipment is required when a *CENTRON* Custom customer desires to segregate the *CENTRON* Custom station lines into separate groups, thereby enabling each group to have a different set of system common features.
8. The network demarcation for *CENTRON* Custom is the point at which the entrance facilities to the building, office park or buildings, within a campus environment are initially terminated. *CENTRON* Custom service and features are provided up to the network demarcation at rates and charges specified herein. The customer will be responsible for provision of all wire and/or cable facilities on the customer's side of the network demarcation. Any such facilities installed by the Company will be on a cost plus contribution basis.

B. Regulations

1. All *CENTRON* Custom station lines must be associated with the main switching equipment. Satellite switching equipment is not offered with *CENTRON* Custom. Other switching systems connected to a *CENTRON* Custom system by tie lines or group use arrangements are considered as separate systems and are billed as such.
2. Suspension, either full or partial, of *CENTRON* Custom is not permitted.
3. Customer will be responsible to furnish all terminal equipment and jacks used with the *CENTRON* Custom.
4. The rates and charges specified for *CENTRON* Custom are in addition to the regular rates and charges for the services with which the *CENTRON* Custom is associated, e.g., WATS, CCSA, etc.
5. One primary directory listing is furnished without charge for each *CENTRON* Custom system. Directory listings of main station lines may be provided at the regular business additional listing rate (CLT) as specified in 5.7.1, preceding.
6. Transfer of calls will be provided on listed directory numbers on a total system disconnect only.
7. Customers not wishing to change their listed directory number to be part of a total *CENTRON* System, which is part of their same wire center, may keep their existing number(s) as an option. A nonrecurring charge as specified in D. Rates and Charges will apply.

C. Rates and Charges - General

1. At the time a main station line is initially installed, it will be equipped with a main station line class of service, intercommunication, Touch-Tone and if desired sequential, nonsequential or multiline hunting arrangement as determined jointly by the customer and the Company.
2. Station lines provided in an exchange zone are subject to the applicable local service increment specified in 5.1.6.
3. The number of simultaneous exchange and long distance message network calls to and from main station line locations and attendant positions are limited by the number of Network Access Registers subscribed to by the customer.
4. In the event CO blocking occurs for a customer, a traffic measurement study will be required at rates and charges specified in 10.10.4. When the blocking is due to an increase in customer usage, additional Network Access Registers will be added and the customer billed accordingly. This blocking is defined as an excess of 7% overflow (compared to a total or originating or terminating attempts) during busy hour over 20 business days.
5. CENTRON Custom network access is available on a flat or measured rate basis. For measured service, usage charges specified in 5.2.1 apply in addition to the monthly access rate specified herein.
6. CENTRON Custom rates, except Network Access Registers, will be based upon individual customer requirements, cost and rate levels on a case by case basis.

109.1.16 CENTREX PLUS SERVICE

Effective September 1, 2004, Centrex Plus Service was grandfathered to current customers. Effective December 31, 2008, Qwest is withdrawing Centrex Plus Service altogether. Customers on month-to-month arrangements will need to migrate to another service by December 31, 2008. Customers whose contract term expires on or before December 31, 2008, will have until December 31, 2008 to migrate to another service. Customers with month-to-month arrangements or a contract that expires prior to December 31, 2008, may continue to use Centrex Plus Service until December 31, 2008. Customers with contracts that expire after December 31, 2008, must migrate to another service by December 31, 2008. Customers will not incur termination liability for the disconnection of Centrex Plus for any reason as a result of this withdrawal. Qwest reserves the right to convert a customer's Centrex Plus service to an appropriate alternative service based on current utilization at month-to-month rates.

A. Description

1. Centrex Plus Service is a business communications system furnished only from a Stored Program Controlled Central Office (CO) and is offered subject to the availability of facilities and applicable generic feature programs. A group of station lines is translated for an individual customer group and provides common access to a predetermined group of system features. Customers have a choice of access to the general network via each Centrex Plus station line (non-blocking) or controlled access (blocking) depending upon the number of Network Access Facilities subscribed to by the customer as found in 5.3.6, preceding.
2. Centrex Plus standard features include the following features depending upon the serving CO:
 - Audible Message Waiting
 - Automatic Call Back
 - Call Forwarding - Busy Line
 - Call Forwarding - Don't Answer
 - Call Forwarding - Variable
 - Call Hold
 - Call Park
 - Call Pickup
 - Call Waiting
 - Call Forwarding of Call Waiting Calls
 - Dial Originating
 - Originating

109.1 DIAL SWITCHING SYSTEMS

109.1.16 CENTREX PLUS SERVICE (Cont'd)

B. Terms and Conditions

1. All Centrex Plus station lines must be associated with the main switching equipment. Other switching systems connected to a Centrex Plus system by Voice Grade Circuits or group use arrangements are considered as separate systems and are billed as such.
2. Customer request for temporary suspension, either full or partial, of Centrex Plus Service is not permitted. Seasonal disconnects are allowed providing all rates and charges still apply.
3. Where a Stored Program Controlled *CENTRON* Custom customer elects to convert to Centrex Plus Service, nonrecurring charges do not apply to in-service station lines, terminating arrangements, and optional service features provided that (1) the customer's system continues to be served by the same switching equipment, (2) there is no interruption of service, and (3) there are no moves, changes or additions of such in service station lines, arrangements and features.
4. Customers will be responsible to furnish all premises wiring, terminal equipment and jacks used with the Centrex Plus Service.
5. The rates and charges specified for Centrex Plus are in addition to the regular rates and charges for the services with which the Centrex Plus is associated, e.g., Wide Area Telecommunications Service, Voice Grade Circuits, etc.
6. One primary directory listing is furnished without charge for each Centrex Plus system. Directory listings of main station lines may be provided at the regular business additional listing rate (CLT) as specified in 5.7.1, preceding.
7. Transfer of calls will be provided on listed directory numbers on a total system disconnect only.
8. Customers not wishing to change their listed directory number to be part of a total system may keep their existing number(s). The customers existing numbers must reside in the same central office and control group.
9. Each customer will be required to sign a contractual agreement for the furnishing of services on a rate stabilized basis.

109.1.16 CENTREX PLUS SERVICE

B. Terms and Conditions (Cont'd)

10. After the Service Date, if a customer removes, in whole or in part, Main Station Lines to a level that is less than 60% of the initial number of Main Station Lines, a termination charge shall apply. On the first anniversary of the customers Rate Stability agreement, the termination liability threshold will be re-calculated based on the number of station lines then in service. This revised number shall remain in effect for the balance of the agreement. The termination charge is specified in 2.2.14, preceding.
11. Centrex Plus Service is subject to the terms of the Termination Liability/Waiver Policy, set forth in 2.2.14, preceding.
12. Nonrecurring charges can be spread over the life of the contract at the present cost of money to the Company.

109. OBSOLETE CENTRAL OFFICE SERVICES

109.1 DIAL SWITCHING SYSTEMS

109.1.16 CENTREX PLUS SERVICE

B. Terms and Conditions (Cont'd)

13. The customer may request a transfer of service from the customer premises location(s) to other customer premises location(s) within the Company's fourteen state service area. The Company shall grant the customer's request if:

- Necessary facilities are available;
- The customer pays all uncollected costs associated with the original premises location including, but not limited to, stranded facilities costs, installation costs, labor costs, engineering costs, and service order charges;
- The customer agrees to pay the recalculated monthly service charges and nonrecurring charges for the new location;
- The move results in customer retaining in total the same or a greater number of Station Lines;
- Service is connected at the new location within thirty days of the disconnect date at the old location; and
- The Company and the customer execute either a written Supplement to this Rate Stability Plan or a new Rate Stability Plan, as is appropriate, with a term that is at least equal to the remaining term of this Rate Stability Plan.

If the move results in the customer retaining in total fewer Station Lines or if service is not connected at the new location(s) within thirty days of the disconnect date at the old location(s), the termination charge applies.

14. Customer Location

Customer primary location is that customer location within the area of their current serving CO designated on the customer's billing record.

Customer secondary location is a customer location other than the primary location served by one or more lines of the Centrex Plus system.

B. Terms and Conditions (Cont'd)

15. Centrex Plus Service is not available on Public Communications Service.
16. A customer may choose to combine station lines terminating at different locations into a single system. All station lines terminating in a system must be served by the same CO. Lines terminating or originating in different exchange or COs are subject to rates and charges found in the Private Line Transport Services Tariff.
17. The quality of transmission for calls utilizing Call Forwarding or Conferencing may vary depending on the distance and routing involved. For an enhanced quality of transmission, line conditioning is available at appropriate rates and charges as found in 5.4.5, preceding.
18. Centrex Plus Service requires special CO equipment and is not provided in all COs. The Company may furnish Centrex Plus where there is available facilities and CO equipment, with the proper program updates, as determined by the Company.
19. Centrex Plus Optional Features will be furnished only where facilities permit as determined by the Company.
20. Customers with eight or more Joint User Listings will be classified as central office resellers and must be registered as such with the Oregon Public Utility Commission. In addition, a Surcharge found in D.9., following, will be applied to each Centrex Plus station line.
21. Centrex Plus telephone numbers may be sequential or nonsequential. Sequential numbers may be assigned if blocks of numbers are available and at the discretion of the Company. Customers requesting that numbers in sequential block be removed from the block will be charged a Block Compromise Charge as specified for Direct-Inward-Dialing Service, found in 5.3.4, preceding.

109.1.16 CENTREX PLUS SERVICE

B. Terms and Conditions (Cont'd)

22. Customers may reserve additional telephone numbers for future use at the rates specified for Direct-Inward-Dialing Service, found in 5.3.4, preceding.
23. Loop Diversity, Avoidance defined in the Private Line Transport Services Tariff is available with Centrex Plus Service.

C. Rates and Charges - General

1. Each Centrex Plus station line will include the common line facility and the standard features as appropriate. Each station line will be equipped with 3-way calling, consultation hold, transfer, and intrasystem calling. The remaining standard features may be selected on a line-by-line basis as determined jointly by the customer and the Company.
2. Rates and charges for the common line facilities will be charged according to the number of station lines per location. Each different location will begin with the 1-20 station line charges. The common line facilities between 21 and 50 will have different rates and charges. Common line facilities for 51 station lines and over will be charged according to the distance of the station line from the serving CO, in quarter mile increments. Customers may add lines to a Centrex Plus system at the rates and charges in effect at the time the customer signed the Rate Stability Plan agreement.
3. The sum of the End User Common Line Charge and the Rate Stabilized flat station line charge will remain the same during the Rate Stability term.
4. Centrex Plus rates and charges will be developed on an individual case basis when unique engineering, non-standard service arrangements and/or customer specified dedicated investment is required.
5. Customers not wishing to change their telephone number to the existing Centrex Plus System telephone number range may keep their existing number (s) within the normal serving central office as an option. The customer will incur a nonrecurring charge when a nonsequential telephone number or block of telephone numbers are added as Centrex Plus stations up to 20 telephone numbers per order. This nonrecurring charge applies in addition to normal Centrex Plus station installation charges.

C. Rates and Charges - General (Cont'd)

6. Service Delivery Acknowledgment

The following applies to requests for Centrex Plus station lines, which are not completed by the installation due date.

For an order of ten or more additional station lines, at a single location due on the same date, the customer may request to negotiate an agreement with the Company which provides written confirmation of the agreed upon due date and liquidated damages if the order is not completed by that date. In the event the Company and customer cannot agree on liquidated damages, the customer will receive a waiver of the station line installation charges, plus a credit of the station line monthly rate for each month the order is delayed past the due date. If the customer does not enter into an agreement, as described in this paragraph, then the provisions for orders up to nine lines will apply.

For an order of up to nine additional lines at a single address which is not completed within thirty days of the negotiated installation due date, the customer will receive a credit of one month's recurring rate for each month the additional line is not completed past the due date. In addition, the customer will receive a credit of the nonrecurring charge for the additional line not completed past the thirty days.

The Company's commitment to deliver the services as scheduled excludes delays caused by the customer or third parties, strikes, labor interruptions, accidents, acts of God, fire, flood, adverse weather conditions, shortage or unavailability of material or supplies from independent suppliers, lack of transportation, governmental ordinance, law, rule, regulation or restriction, condemnation or exercise of right of eminent domain, war or civil disorder or any other circumstance beyond the Company's control.

8. Digital Facility Interface

a. Description

This termination provides a digital interface for a high capacity (1.544 Mbps) facility which terminates to a customer's central office based switching system. This service provides for the connectivity of 24 circuits within the Centrex Plus system.

b. Terms and Conditions

The rates and charges for the Digital Facility Interface are in addition to the rates and charges applicable for the appropriate high capacity facility. All current rules and regulations, including Federal regulations apply to the application of the high capacity facility. The high capacity facility, as found elsewhere, should be rated as if it terminates to an end user's premises. The Centrex Plus in this case is the end user's premises.

Digital Facility Interface will only be offered to Centrex Plus customers, and will only provide for tie lines in a non-tandem configuration.

[1] Where a Centrex Plus main station line is extended as a Voice Grade Circuit to another switching system, the rates and charges specified for a Centrex Plus main station line apply in addition to the rates and charges specified for Centrex Plus Voice Grade circuit termination arrangement.

E. Standard Features - Description

Audible Message Waiting

When a Centrex Plus user goes off hook a stutter dial tone is provided to indicate a message is waiting.

Automatic Callback

Provides an arrangement that permits a line user, when attempting an intercom call to a busy line, to be automatically connected to that line when both the called and calling lines are subsequently idle.

Call Forwarding Busy Line

Provides for forwarding of incoming calls to a preselected telephone number, when the called station is busy.

Call Forwarding Don't Answer

Provides for forwarding of incoming calls to a preselected telephone number, when the called station does not answer after a predetermined number of ringing cycles.

Call Forwarding-Variable

Allows a user to automatically forward incoming calls to any other number.

Call Forwarding of Call Waiting Calls

Allows users with both the Call Waiting and Call Forward Don't Answer features to have calls directed to a predetermined destination.

Call Hold

Allows a station user to hold any call in progress, by dialing a code.

Call Park

Allows a user to hold or "Park" a call by dialing a code that can be retrieved from any station by dialing another code. This service is available only from a DMS-100 central office.

Call Pick-Up

Enables a station user to answer calls directed to other specified stations by dialing a special code.

Call Waiting - Dial Originating

Provides the ability for the originating station to invoke call waiting tone on selected calls by dialing the dial call waiting access code followed by the extension number of the station to be call waited.

Call Waiting - Originating

Allows a calling station to direct a call waiting tone toward a busy called station within the same system.

Call Waiting - Terminating

Allows for a Centrex Plus station user who is engaged in a telephone conversation to be alerted via an audible tone that a call is waiting.

Cancel Call Waiting

Allows a user with Call Waiting Terminating to inhibit the application of Call Waiting Tone for the duration of one call by dialing a code.

Conference Calling

Allows a station user to establish conference connections without the aid of an attendant.

109.1 DIAL SWITCHING SYSTEMS

109.1.16 CENTREX PLUS SERVICE

F. Rates and Charges - Optional Service Features (Cont'd)

5. Automatic Route Selection (ARS)

a. Description

ARS is an optional feature, available where facilities permit that allows station users, by dialing a preselected code, to automatically select the preferred route subscribed for by a customer, for network calls. Alternate routing to other facilities subscribed for by the customer, is also provided. This arrangement is available for use with Foreign Exchange Service, Wide Area Telecommunications Service and Message Telecommunications Service Network.

ARS is accessed by dialing a single code (1, 2, or 3 digits) which automatically selects the appropriate route to complete the call. If all facilities in the initial route selected are busy, the call will advance to other routes in the selected pattern. Patterns may consist of up to four private routes. If no route is available, the call will route to the selected long distance carrier or overflow tone at the customer's option.

The routing may be based on a Number Plan Area (NPA) or specific CO codes within an NPA as designated by the customer.

b. Terms and Conditions

All rates and charges specified for ARS are in addition to the rates and charges for the associated facilities.

Preferred routes and alternate routing patterns will be specified by the customer.

The number of patterns required by a customer is governed by the type and variety of facilities to which the customer subscribes. The maximum number of patterns is 64.

A pattern may have either the selected carrier or overflow tone as a final route. Dial 9 may be used as an access code only if the patterns accessed have the selected carrier as a final route.

109.1 DIAL SWITCHING SYSTEMS

109.1.16 CENTREX PLUS SERVICE

- F. Rates and Charges - Optional Service Features
5. Automatic Route Selection (ARS)
 - b. Terms and Conditions (Cont'd)

A route cannot be used more than once in the same pattern.

The customer is responsible for notifying the Company whenever any additions or changes of routes or patterns are required.

- c. Explanation of Terms

Route

A route is a group of one or more facilities of the same type used to complete 7 or 10 digit calls between the same points, (e.g., 1 Foreign Exchange Service or 3 Wide Area Telecommunications Service (WATS) Band 1 lines, or 2 WATS Band 5 lines, etc.). A WATS Band 1 and a WATS Band 5 are considered to be two routes.

Route Selection

The automatic selection of the preferred route as predetermined by the customer, upon dialing of an access code by the station user.

Pattern

A group of routes arranged to be selected in a sequence specified by the customer.

Facility Restriction Level

Determines calling privilege level associated with each station line.

Time of Day Control for ARS

Provides a method for automatically changing the routing parameter according to a prespecified schedule.

Expensive Route Warning Tone

Provides a warning tone to indicate the selection of an expensive route.

6. Call Forwarding via Private Facilities

a. Description

A main station line equipped with the Call Forwarding via Private Facilities feature provides for the automatic routing of incoming calls to a specific private facility which is terminated in that main station line user's system. As used herein, the term "private facility" applies to Enhanced Private Switching Communication System, Electronic Tandem Switching, Wide Area Telecommunications Service (WATS), Foreign Exchange Service, and Voice Grade Circuits arranged for senderized operation, and the local and toll message network.

b. Terms and Conditions

Incoming local and toll message network and Inward Wide Area Telephone Service calls to main station lines arranged for Call Forwarding via Private Facilities routing are subject to the appropriate charges for such calls and a common recorded announcement is furnished to inform the caller that the call is being forwarded.

Calls forwarded to the local and toll message network and Wide Area Telecommunications Service are subject to the appropriate charges for such calls.

c. Rates and Charges

	USOC	NONRECURRING CHARGE	MONTHLY RATE
• Common equipment, per system	PF3PS	\$830.00	—
• Per main station line[1]	PFY	5.00	\$0.10

[1] Nonrecurring charge applies on subsequent installation only.

7. Centrex Management System (CMS)

a. Description

CMS is a computer software program that provides the customer access to their data base for the purpose of general data base inquiry, move, add, delete and change features. In addition CMS enables the customer to move and change station lines and generate Basic Management Reports.

b. Feature List

(1) Standard Features

Inquiry

The ability to access a data base to review the status of station lines and features on the customer's system.

Move, Add, Delete and Change

The ability to perform station number changes and to move, add, delete or change most features on the system from customer-provided equipment located on the customer's premises.

Basic Management Reports

The ability to design and create management reports regarding the customer's system. These reports vary by switch type and may change with software updates.

7. Centrex Management System (CMS)

b. Feature List (Cont'd)

(2) Optional Features

Custom Reports

Customers can request customized report formats to be created for various aspects of their system. Once created, the custom report is stored in the customer's data base and can be recalled at any time.

Priority Service

Allows customers to request "priority changes" which are then processed in the serving central office as soon as possible. Customers are limited to the number of priority requests that can be processed in one day.

Bulk Change

Allows customers to request the same change to be applied to multiple lines simultaneously. Customers may be limited to the number of changes in any single bulk change request in a single day.

Network Manipulation

Allows customers to manage certain Network Features such as Automatic Route Selection and Time of Day Routing.

System Partitioning

The Company, upon the customer's request, can partition the CMS data base into separate sections representing different customer departments. Each partition can be arranged to be accessible only to certain users designated by the customer.

Packet Control Capability

Gives Centrex Plus customers the ability to manage their packet control features. Customers that subscribe to the Packet Control Capability can verify current and pending packet options, add, delete or change packet options and run reports regarding packet assignments.

109.1 DIAL SWITCHING SYSTEMS

109.1.16 CENTREX PLUS SERVICE

- F. Rates and Charges - Optional Service Features
 - 7. Centrex Management System (CMS) (Cont'd)

- c. Terms and Conditions

The Company will furnish and maintain CMS software for use by the customer and will be offered only where facilities permit.

The customer must obtain and maintain a compatible computer terminal for use with CMS. The computer terminal will not be furnished by the Company. A business exchange access line or Centrex Plus main station line is also required, which is in addition to the rates and charges for CMS.

CMS is available for access by the customer 22 hours a day, seven days a week, from the CMS data base. The Company reserves all rights to take the CMS computer down for maintenance or software updates as required. When possible, this will be done during off-peak hours and customers will be warned in advance. Move, Add, Delete and Change requests are processed once a day unless the customer subscribes to Priority Service.

The Company will process change requests, which have accumulated in the CMS throughout the day during off-peak load hours, overnight or at a customer specified future date. All normal and emergency CO functions have priority over customer requested changes. The Company assumes no responsibilities for change requests delayed by such Company functions.

The Company will provide the customer a list of features able to be managed by CMS at the time of initial installation based upon the serving CO technology. The Company reserves the right to upgrade or change CMS at anytime. Any additional customer training or documentation requirements resulting from such changes will be supplied at no charge.

109.1.16 CENTREX PLUS SERVICE

- F. Rates and Charges - Optional Service Features
 - 7. Centrex Management System (CMS)
 - c. Terms and Conditions (Cont'd)

The Company establishes parameters on the number of station lines that can be equipped with a feature, depending upon the quantity of features purchased. Information will be provided through CMS as to what these parameters are. The customer may add, move, delete or change features through CMS within such parameters. Additions beyond the parameters of CMS will not be processed.

New connects and disconnects of station lines are not permitted through CMS.

The customer assumes full responsibility for the features managed by CMS. The Company will not maintain a record of which features are on each line, but only a total count of the number of features purchased. For maintenance purposes, the Company will rely on remote access to the customer's CMS data base.

Since CMS software allows the customer to move and change station numbers within their system, the customer will be responsible for labeling the Network Interface when number changes occur. All maintenance calls to the Company in which the trouble proves to be other than on the Company side of the Network Interface will result in the application of Trouble Isolation Charges, as specified in the Exchange and Network Services Catalog No. 3. The Trouble Isolation Charge will not apply to lines equipped with *UNISTAR* Service or *QWEST* Repair Coordination Service.

The customer is not allowed to move or change station numbers extended outside of the central office serving the customer's system.

Initial training of the customer in the use of CMS is included at the time of initial installation.

F. Rates and Charges - Optional Service Features

7. Centrex Management System (CMS) (Cont'd)

d. Rate and Charge Application

Nonrecurring Charges, found elsewhere, do not apply when the customer moves, activates, deactivates, changes features and moves or changes lines through CMS.

Features managed by CMS must be purchased in incremental blocks of 10 each. The total number of blocks of features purchased will be indicated on the customer's bill. The total number of features purchased must be within the limit established in the CMS.

Nonrecurring Charges, as specified elsewhere, will apply per feature USOC added to the CMS system.

Features added through CMS carry the same recurring rates, service establishment and system charges as if they were added through the conventional service order process and will be reflected on the customer's bill as such.

When CMS is disconnected, Nonrecurring Charges, as specified elsewhere, will apply per line for all changes or rearrangements to system features.

If the customer moves his system from one CO to another, and station line number changes are involved, a subsequent charge to reestablish the CMS data base will apply.

A System Establishment Charge will apply to the initial Centrex Plus System installed. A discounted System Establishment charge applies for subsequent associated systems.

9. Electronic Set Service

a. Description

Electronic Set Service permits the use of special electronic station sets with Centrex Plus Service. This service utilizes a unique line card to provide communications control for the electronic station set.

The customer provided electronic set is a touch-tone station that provides programmable keys for features and additional numbers. It is served from the CO by a main or extension station line. It has assignable keys for station line pick-ups or features. Electronic sets and adjunct modules are provided by the customer.

b. Terms and Conditions

Electronic Set Service will be provided only where facilities permit. Electronic Set Service is available only from a DMS-100 central office.

Each electronic set must be associated with a Primary Directory Number. In addition, an Electronic Set Service interface card is required.

Electronic Set Service is subject to a 1.5 mile limitation from the CO.

Electronic Set Service is only available on *CENTRON* main station lines. Main station lines with electronic sets cannot have extension stations; however, the primary directory number associated with the main station line can appear as a secondary appearance of a primary directory number on other main station lines.

c. Explanation of Terms

Multiple Appearance Directory Number

A directory number assigned to more than one electronic station set.

Software Numbers

Software numbers are numbers which do not require an additional station line. These numbers share the facilities of the primary directory listed number. Variations of software numbers are:

- Primary Appearance

The first appearance of a software number on a key.

- Secondary Appearance

The second appearance of a software number on a key. The secondary software number can be on the same station or a different station.

- Single Appearance

A software number that appears only on one station and one key.

15. Station Message Detail Recording to Premises

a. Description

SMDR provides customers with the capability of receiving call detail on calls that originate from their Centrex Plus system. Call detail may include: date, time, call duration, station line from which calls originated, called number and carrier selected. The type of SMDR available is dependent upon the type of technology deployed in the central office serving the customer. There are two types of SMDR, SMDR-P and SMDR-RAO. SMDR-P is available in offices where equipped for such service. SMDR-RAO is available in all offices, including offices equipped for SMDR-P. SMDR to Premises (SMDR-P) allows customers to access call detail on a daily basis via dial-up to a Company computer. SMDR - Regional Accounting office (SMDR-RAO) allows customers to receive call detail on a monthly basis via magnetic tapes.

SMDR call detail will be provided on Toll, Outward WATS, Voice Grade/FX Channels and Directory Assistance calls.

The customer is able to use SMDR call detail for cost allocation internal usage monitoring and traffic analysis.

[1] In the event an incoming call is transferred to a remote location, transmission performance cannot be guaranteed.

b. Terms and Conditions

The terms and conditions specified herein are in addition to applicable terms and conditions specified elsewhere.

SMDR provides for monitoring all station lines in a customer's system for call detail.

SMDR is not represented to be a provision of billing detail.

SMDR data is not provided in formatted reports.

Temporary suspension, either full or partial, of SMDR is not permitted.

The Company is not liable for equipment failures or lost data but will make every effort to protect call detail records.

Customer documentation will be provided at the time SMDR is subscribed to.

c. SMDR-P

The Company will furnish SMDR-P where there are available facilities as determined by the Company. Customers not able to obtain SMDR-P will be provided a magnetic tape containing call detail once a month (SMDR-RAO).

The customer must obtain and maintain a compatible modem and call accounting package for use with SMDR-P. A business exchange access line, Centrex Plus main station line or Voice Grade Channel is also required.

Customers will be provided a specific telephone number to dial to access their data.

 - c. SMDR-P (Cont'd)

Customers not able to obtain SMDR-P will be provided a magnetic tape containing call detail once a month (SMDR-RAO).

The Company reserves all rights to take the SMDR-P computer down for maintenance or software updates a maximum of two hours per day as required during off-peak hours.

Daily retrieval by the customer of call detail will be the standard SMDR-P offering. Customers wishing to retrieve call detail at intervals other than daily will be considered nonstandard and will be priced on an individual case basis.

SMDR-P customers must specify the time-of-day interval when they wish to retrieve their call detail.

SMDR-P customers may retrieve old data up to five days running. After five days, the data will be stored on tape. This archived information will be made available for retransmission to the customer. A nonrecurring charge will apply for the archived data.

d. SMDR-RAO

Monthly delivery of call detail via magnetic tape is the standard SMDR-RAO offering.

Customers will only receive SMDR-RAO when SMDR-P is not technically available.

SECTION 14
Original Sheet 30

14. INTEGRATED SERVICES DIGITAL NETWORK

14.3 PRIMARY RATE SERVICE OFFERINGS

14.3.1 PRIMARY RATE SERVICE

A. Description

The basic Primary Rate Service (PRS) structure consists of 23 B-channels and a D-channel, for a total transmission rate of 1.544 Mbps, which is equivalent to a T1 facility. Each 64 kbps B-channel carries user information such as voice calls, circuit-switched data, or video. The D-channel is a 64 kbps channel that is used to carry the control or signaling information.

Circuit-Switched Data PRS consists of 23B+D, which is equivalent to a T1 facility. The customer may use CPE to bond together 64 kbps B-channels for the transmission of circuit-switched data or video.

B. Definitions

1. Service Configurations

23B+D

This service configuration provides for 23 B-channels and 1 D-channel. The B-channels carry user information such as voice calls, circuit-switched data, or video, while the D-channel handles signaling information. When equipped, the D-channel can control a maximum of 479 B-channels. The B-channels may be provisioned on the same facility as the D-channel or on other PRS T1 facilities.

24B

This service configuration provides for 24 B-channels. The B-channels carry user information such as voice calls, circuit-switched data, or video information. The signaling information is provided by a D-channel on the first T1 facility.

23B+Back-up D

This service configuration provides for 23 B-channels and a back-up D-channel. The back-up D-channel is used if the primary D-channel, which provides signaling for multiple T1 facilities, fails. All active calls are maintained during the switch-over to the back-up D-channel.

SECTION 14
Original Sheet 31

14. INTEGRATED SERVICES DIGITAL NETWORK

14.3 PRIMARY RATE SERVICE OFFERINGS

14.3.1 PRIMARY RATE SERVICE

- B. Definitions (Cont'd)
2. Network Connections

Circuit-Switched Data Connection

A Circuit-Switched Data Connection is a central office translation that provisions 23 or 24 B-channels on a PRS T1 facility. All B-channels are dedicated with 2-way operation and have access to the exchange network. Incoming calls are restricted to circuit-switched data or video.

ISDN Trunk Connection

An ISDN Trunk Connection (TC) is a central office translation that provisions each B-channel in a PRS. The TC allows access to the exchange network. One ISDN Trunk Connection is required for each B-channel used in a PRS.

- Call-By-Call PRS

The PRS B-channels are configured to support inward and outward call flexibility determined by the customer traffic flow.

- Dedicated PRS

Each B-channel is dedicated to inward, outward or 2-way traffic.

Uniform Access Solution (UAS) Network Connection

The UAS network connection provides switching to the local exchange and toll networks, and includes the channel trunk-side configuration for the entire T1.

3. Standard Features

Calling Number Identification

This feature displays the call identification information and the calling party's DN (including nonpublished and nonlisted DNs) prior to the call being answered. Callers have the ability to inhibit the display of calling party information to the terminating number.

SECTION 14
Original Sheet 32

14. INTEGRATED SERVICES DIGITAL NETWORK

14.3 PRIMARY RATE SERVICE OFFERINGS

14.3.1 PRIMARY RATE SERVICE

- B. Definitions (Cont'd)
- 3. Standard Features (Cont'd)

Calling Number Identification Blocking-All Calls

All outgoing calls will be blocked for PRS customers where technically feasible as determined by the Company. Most Company switches do not have this capability and will be a function of the customers PBX.

Direct Inward/Outward Dialing

Allows station users to place or receive calls by-passing the attendant.

Circuit-Switched Data

Allows the transmission of circuit-switched data on a voice circuit.

- 4. Optional Features

2B Channel Transfer

2B Channel Transfer allows the transfer of two independent calls when both calls have been answered or when one call has been answered and one call is alerting. Notification of transfer is given to transferred users.

ISDN Calling Name Delivery (ICNAM)

ICNAM is a terminating feature that delivers to ISDN Class II Equipment, over a Primary Rate ISDN Interface, the original calling party name along with the calling party's telephone number. A private or unavailable indication will appear when the name is not available to the called customer.

ISDN Redirecting Number Delivery (RND)

RND provides not only the original calling number, but one or more numbers from which a call was redirected. If a call is redirected multiple times, both the first and the last redirecting numbers will be delivered. On calls forwarded, a redirecting reason is also provided to the RND subscriber indicating why a call was forwarded, e.g., the Call Forwarding Variable, Call Forwarding Busy, or Call Forwarding Don't Answer feature was active. When a call is forwarded multiple times, the first and last redirecting reasons will be provided to the RND subscriber.

14. INTEGRATED SERVICES DIGITAL NETWORK

14.3 PRIMARY RATE SERVICE OFFERINGS

14.3.1 PRIMARY RATE SERVICE (Cont'd)

C. Terms and Conditions

1. PRS is provided subject to the availability of central office facilities.
2. Each PRS consists of one T1 facility and one Service Configuration. A customer may request more than one PRS per premises.
3. Terms, conditions, rates and charges, as described for PRS are in addition to the regular rates and charges for the service with which PRS is associated.
4. Some services are not available and/or compatible with PRS.
5. Loop Diversity and Avoidance defined in the Private Line Transport Services Tariff is available with PRS.
 - Customers subscribing to Loop Diversity must also subscribe to additional PRS facilities and TCs for the secondary route.
 - Customers subscribing to Avoidance must pay DS1 Transport Mileage rates between the local serving office and the alternate serving office.
6. The PRS facility may be provided from a foreign central office or foreign exchange at the DS1 Transport Mileage rates. Associated charges will be applied to the PRS facility.
7. PRS offerings are not available for use by Commercial Mobile Radio Carriers, Private Mobile Radio Carriers or Interexchange Carriers in the provision of services to their customers. Other digital services are offered by the Company for interconnection specifically for these Carriers.
8. The PRS facility for all channels may be provisioned on an existing or new T3 facility.
9. Basic PRS requires a minimum of one PRS T1 facility with a service configuration, and TCs. A customer may request more than one PRS per premises.
10. *DID* numbers associated with PRS are found in 5.3.4, preceding. A *DID* Trunk Termination is required for each inward or 2-way B-channel in a PRS.
11. Circuit-Switched Data PRS is only intended for data calls, including video.

14.3 PRIMARY RATE SERVICE OFFERINGS

14.3.1 PRIMARY RATE SERVICE (Cont'd)

C. Terms and Conditions (Cont'd)

12. ISDN Calling Name Delivery (CNAM) is an optional central office-based feature available for use with ISDN PRS. The Company may monitor the customer's usage of this feature to ensure that the customer's use of CNAM is consistent with applicable restrictions and limitations as listed below. Unacceptable use will result in the Company disabling the feature from future use.

Unacceptable use of ISDN CNAM includes, but is not limited to, any of the following situations:

- High volume, short duration calls that show a pattern inconsistent with calls intended for completion at the number called.
- Calls that originate and attempt to terminate or terminate on PRS facilities for the same subscriber at the same physical location.
- Using Caller ID digits other than those belonging to the PRS subscriber.

If the Company has any reason to believe a customer is using ISDN CNAM in an unacceptable manner as defined above, the Company will immediately disable the feature without notice to the customer. Further, once the Company has disabled the ISDN CNAM for reasons of unacceptable use, the feature will not be restored during the life of the PRS service.

14. INTEGRATED SERVICES DIGITAL NETWORK

14.3 PRIMARY RATE SERVICE OFFERINGS

14.3.1 PRIMARY RATE SERVICE (Cont'd)

C. Terms and Conditions (Cont'd)

13. Cancellation of Application For Service

- a. A customer may cancel an order for the installation of service at any time prior to notification by the Company that service is available for the customer's use. The cancellation date is the date the Company receives written or verbal notice from the customer that the order is to be cancelled.
- b. Certain Critical Dates as specified in c., following, are used by the Company to monitor the service order provisioning process. Cancellation charges are based on the estimated costs incurred by the Company at the time the order is cancelled. The Company monitors which Critical Date was last scheduled and determines what percentage of the Company's provisioning costs have been incurred as of that Critical Date. A list of Critical Dates and the number of days between each date is found in the Service Interval Guide.

Costs incurred in conjunction with the provision of Primary Rate Service start on the Application Date as defined in c., following. When the customer cancels an order prior to the Application Date, no charges shall apply. When the customer cancels an order on or after the Application Date, a charge determined as specified in d. and e., following shall apply. When a customer cancels an order or part of an order, on or after the original Service Date, the Cancellation Charge will apply as set forth in d., and e., following.

14.3 PRIMARY RATE SERVICE OFFERINGS

14.3.1 PRIMARY RATE SERVICE (Cont'd)

C. Terms and Conditions (Cont'd)

13. Cancellation of Application For Service (Cont'd)

c. The Critical Dates monitored by the Company for the purpose of calculating a Cancellation Charge are as follows:

- Application Date (APP): The date the customer provides a firm commitment and sufficient information to the Company for order placement. The APP Date is the date the Company enters the order into the Company's order distribution system(s). This is sometimes referred to as the order date.
- Design Layout Report Date (DLRD): The date the Design Layout Report which contains the design for the service(s) ordered is forwarded to the customer.
- Plant Test Date (PTD): The date acceptance testing is performed with the customer.
- Service Date (DD): The date the service is due to be made available to the customer. This is sometimes referred to as the Due Date.

d. When a customer cancels an order prior to the Service Date, the Company will multiply the Cancellation Charge, specified in D.7., following, by the percentage shown below, based on the last monitored Critical Date which has occurred on the order.

e. The Critical Dates monitored by the Company are as follows:

	APP	DLRD	PTD	DD
	%	%	%	%
• Primary Rate Service	13	44	77	[1]

f. When a customer cancels an order for the discontinuance of service, no charges apply for the cancellation.

[1] Minimum billing period charges and Cancellation Charges apply when an order, or part of an order, is cancelled on or after the original Service Date.

14. INTEGRATED SERVICES DIGITAL NETWORK

14.3 PRIMARY RATE SERVICE OFFERINGS

14.3.1 PRIMARY RATE SERVICE (Cont'd)

D. Rates and Charges (Cont'd)

8. Primary Rate Service Rate Stability Plan

- a. The Primary Rate Service Rate Stability Plan (RSP) is an optional payment arrangement for T1 facilities and Service Configurations for customers who agree to continue to subscribe to PRS facilities for a 3- to 5-year period and/or Discounted T1 Facilities, Trunk Connections, and UAS Network Connections for 3- or 5-year periods. *DID* trunk terminations are packaged in the rate stabilized in-only and two-way Trunk Connections. Customers who subscribe to a RSP are guaranteed against Company initiated changes in monthly rates.
- b. Any additions of PRS facilities/Service Configurations to an existing RSP service are permitted with rates and charges as specified in 1. and 2., preceding, or by subscribing to a separate RSP.
- c. Early termination charges may apply if a RSP is terminated in whole or in part by the customer, or is terminated for cause by the Company. The customer must give 30 days written notice of termination. The Termination Liability/Waiver Policy is set forth in 2.2.14, preceding.
 - (1) If customer terminates the RSP prior to the installation date, customer shall pay termination charges including but not limited to: all engineering, planning, preparation, materials, supplies, placement, facilities, acquisition, transportation, installation, construction, and labor costs and charges incurred by the Company. Refer to the order cancellation policy specified in 14.1.C., preceding.
 - (2) If a PRS facility is moved to an existing DS3 facility and the Waiver Policy conditions are met, termination charges will not apply.
- d. Customers migrating from Analog PBX Trunk Service, Digital Switched Service or Uniform Access Solution will receive one month credit when entering into a 1-year RSP, two month credit when entering into a 2-year RSP, three month credit when entering into a 3- or 5-year RSP, and a waiver of nonrecurring charges when entering into a 1-, 2-, 3- or 5-year RSP.

14.3.3 PRIMARY RATE SERVICE (PRS) BUNDLE

A. Description

Primary Rate Service (PRS) Bundle is an optional business service enrollment plan. This offering permits a customer to receive features and services for a flat monthly rate for each bundle provided. PRS Bundle includes the following features and services:

1. Bulk rate Integrated Services Digital Network Primary Rate Service, consisting of 23B+D and 23 Voice and Data trunks provisioned as Two-way with DID
2. Up to 100 Direct-Inward-Dialing (DID) Numbers (in blocks of 20) -Optional
3. Primary Rate Service Standard Features
4. ISDN Calling Name Delivery (ICNAM)

B. Terms and Conditions

1. Unless specified otherwise in this section, the regulations for Integrated Services Digital Network Primary Rate Service, including Service Charges, apply in addition to the regulations herein.
2. Unless specified otherwise in this section, the regulations for Direct-Inward-Dialing (DID) Service, including Non-recurring and Installation Charges, set forth in Section 5.3, apply in addition to the regulations herein.
3. Service Charges do not apply when PRS Bundle replaces existing Local Exchange Service.
4. Customers may activate all 100 DID numbers included in the bundle rate concurrent with installation of service or may activate the numbers in blocks of 20. When a customer activates fewer than 100 numbers concurrent with establishment of service, Service Charges do not apply for the initial or subsequent activations of 20-number blocks (up to 100 numbers).

B. (Terms and Conditions (Cont'd))

5. Customers may order additional DID numbers, in excess of 100 for an individual PRS Bundle, subject to availability, at the rates specified in Section 5.3 of this tariff. Nonrecurring Charges apply for subsequent activation of numbers beyond those included in the bundle.
6. The Optional Features available for Primary Rate Service are available with PRS Bundle at the rates specified in Section 14.3.1.
7. PRS Bundle is available under the term commitments of 1, 2 3, and 5 years on a Rate Stabilized basis. Termination Liability Charges set forth in Section 2 apply.
8. Unless terminated by the PRS Bundle customer or the Company, a customer will remain enrolled in the PRS Bundle, as amended from time to time, with any applicable changes in rate, for as long as the PRS Bundle continues to be offered by the Company. If any features or services in the bundle are discontinued by the customer, the remaining features and services will be charged the normal tariff rate or charge.
9. Customers enrolled in the bundle, who subsequently become subject to Company initiated toll restriction will have all existing PRS Bundle lines converted to the applicable tariff rates. Service Charges will not apply for those existing lines converted, in-place, due to termination procedures. In addition, any optional services not affected by the termination procedures will convert to their applicable tariff rates. Such customers will not be permitted to re-enroll in this bundle until such time as all associated unpaid balances are satisfactorily paid in full.

114.3 PRIMARY RATE SERVICE OFFERINGS

114.3.2 PURCHASE PLUS REWARD PLAN FOR ISDN

Effective April 16, 2010, *PURCHASE PLUS REWARD* Plan For ISDN is grandfathered to current customers for the life of their contract and will not be offered to new customers.

A. Description

1. *PURCHASE PLUS REWARD* Plan for ISDN is an offering available to business customers who enter into a one-year, two-year or three-year *TOTAL ADVANTAGE* Express (QTA Express) Agreement or *TOTAL ADVANTAGE* (QTA) Agreement, and who agree to increase their monthly spend under QTA Express or QTA. Descriptions of QTA Express and QTA are found in 2.16, preceding.
2. When a customer increases their monthly spend on Qwest products or services included in the QTA Express and/or QTA Agreements, a discount will be applied to the 36 and 60 month contract rates of *QWEST* Primary Rate ISDN.

B. Terms and Conditions

1. A maximum of ten Qwest Primary Rate ISDN facilities may receive *PURCHASE PLUS REWARD* Plan discounts per customer.
2. Terms, conditions, rates and charges specified elsewhere for qualifying lines and packages apply. Customers may subscribe to additional products and services, however, subsequent increases will not affect the monthly discount level unless the customer signs a new term agreement.
3. The discount will appear as a credit(s) on the customer's monthly bill. No partial month's credit(s) can be provided. The discounts in C.1., following, apply to each qualifying circuit subscribed to by the customer under this plan.
