Advice No. 2126

The Honorable Commissioners Ackerman, Bloom and Savage Oregon Public Utility Commission 3930 Fairview Industrial Drive SE Salem, OR 97302-1166

Attention: Joan Grindeland, Tariff Coordinator

Dear Commissioners:

Pursuant to Qwest's Price Plan under ORS 759.255, Qwest Corporation d/b/a CenturyLink QC is filing notice of revisions to the sheets listed on Attachment A.

As described in the attached narrative ("Description of Methodology"), this filing is the fourth step in implementing the "Transitional Intrastate Access Service" reductions mandated by the Federal Communications Commission's November 18, 2011 Report and Order and Further Notice of Proposed Rulemaking in WC Docket Nos. 10-90, etc. (FCC 11-161). Also enclosed is CenturyLink's certification that the company is not seeking duplicative recovery in the state jurisdiction for any Eligible Recovery subject to the recovery mechanism established by the Transformation Order. The proposed effective date is July 1, 2015.

Paper copies of the current Access Service Tariff sheets will be provided with the confirmation email and the filing. The calculations supporting this rate change are being filed as confidential and are being sent in a separate letter marked confidential.

Questions concerning this filing may be directed to me at (303) 992-5832 or to Ron Trullinger at Ron. Trullinger @CenturyLink.com.

Yours very truly,

Mark Brinton

<b>SECTION</b>	<u>SHEET</u>	REVISION

#### Description of Methodology

The following narrative describes the methodology and supporting calculations utilized by CenturyLink to implement the process of reducing terminating switched end office rates by two-thirds of the differential between end office rates and \$0.0007 as required by 47 C.F.R. §51.907(e) which addresses changes beginning July 2015. CenturyLink's supporting calculations utilize the "Access Reduction Spreadsheet" template released by the Federal Communications Commission ("FCC") on April 15, 2015, for calculating the July 1, 2015 intrastate access rate changes.

The FCC spreadsheet template also provides the methodology for calculating the rate changes and identifies in detail the interstate access rates that are required to be changed consistent with the rules. Step 4 of the USF ICC Transformation Order adjusts Interstate Terminating End Office Access rates down by two-thirds of the difference between the 2011 baseline composite rate and the target composite rate of \$0.0007. The interstate rates will then be mirrored on the intrastate side so that rates will remain in parity.

Section 51.907(e) of the FCC Rules required the Access Reduction Spreadsheet to be modified to reflect rate reductions for July 1, 2015. For Price Cap carriers that file interstate tariffs assessing a single rate applicable in different states, the interstate demand used shall be the sum of the demand for all of the states included in the tariff, rather than making separate state-by-state calculations. For companies with a single rate in multiple states, the calculations are done at the regional level and the regional rates are mirrored in each study area. For individual study areas, the calculations are done at the study area level. An overview of the methodologies necessary for reducing terminating end office access rates is as follows:

- 1. Establish the 2011 Baseline Composite Terminating End Office Access Rates, which reflects interstate rates and demand.
- 2. Calculate the 2015 Target Composite Terminating End Office Access Rate by reducing the 2011 Baseline Composite Terminating End Office Access Rate by two-thirds of the difference between the 2011 Baseline Composite Terminating End Office Access Rate and \$0.0007.
- 3. Calculate the individual Interstate Terminating End Office Access rate levels so that the reduced rates and demand will equal to the 2015 Target Composite Terminating End Office Access Rate.
- 4. Set Intrastate Terminating End Office Access rates equal to their functionally equivalent interstate rates.
- 5. Prepare intrastate and interstate tariff filing documents as required by each tariff jurisdiction.

	USOC	MONTHLY RATE
• End Office Dedicated Trunk Port,[1] per trunk	P4TWX	\$4.23 (R)

[1] The End Office Dedicated Trunk Port rate was calculated assuming a 50/50 split of the originating and terminating traffic using this flat-rated port. The FCC in their FCC 11-161 ICC Transformation order in section 51.907(d)(1) allowed Price Cap Carriers to use an equal split to divide the charge between originating and terminating elements. When the terminating portion of the rate is reduced and then combined with the originating portion of the rate a single flat rate is generated for billing purposes. The Originating portion of the charge is \$3.00.
