Federal Communication Commission ("FCC") rules require National Exchange Carrier Association ("NECA") members companies to adjust their capped interstate switched access rates for July 1, 2015. NECA has informed its member companies that pool election changes for the upcoming tariff year will increase rates by 1.454 percent. Around June 15, 2015 NECA will file with the FCC modified rates for interstate, intrastate terminating access rates (which will be in parity with interstate rates) and the required end office element rate step-down in accordance with FCC WC Docket No. 15-75.

As a result, NECA adjusted both interstate and intrastate switched access rate levels for those companies with intrastate rates at parity with interstate rates and recalculated the end office rate step-down and interstate switched access revenue for test period 2015-16 in the CAF ICC data collection.

The state terminating switched access rate changes match the CAF ICC Intrastate Tariff Rate Plan (TRP), which are proposed for July 1, 2015.

Other than noted above, this filing will not increase any rate or charge, cause the withdrawal of service, or conflict with other schedules. This filing is revenue neutral for these Companies.

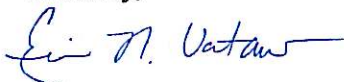

It is requested that this filing become effective July 1, 2015.

The backup support for each company has already been provided to Roger White.

Please date stamp a copy of this transmittal and return it to us for our records.

Please call me at 209.955.6116 or email Eric.Votaw@mossadams.com if you have any questions about the content, or Carol Bonell at 209.955.6194 for questions on the PDF filing.
