Re: Status Report
OPUC Docket UM 1745 – Mt. Shadows Utilities Company

Dear ALJ Power:

The utility and homeowner association has made substantial progress and have reached an agreement. They are prepared to provide details of their agreement and explain how it will effect the utility customers in the snowbird development.

At the time of this report, there has been a system failure involving the only well and its pump. Repairs are underway. Backup water supply has not been utilized as it would involve surface water sources that would likely require treatment.

At the time of this report, the PUC has not received complaints regarding the service outage. The utility has been responsive to staff inquiries and the utility reports that customers have been notified and that steps have been taken by the utility to make necessary repairs.

This is the final scheduled status report. The parties request a third prehearing conference be scheduled in order to exchange information and clarify time needed to finalize the agreement.

Sincerely,

Jason W. Jones
Sr. Assistant Attorney General
