#### 5.5 PUBLIC COMMUNICATIONS SERVICE - COIN AND COINLESS

##### 5.5.7 PUBLIC ACCESS LINE SERVICE

###### A. Description

1. Public Access Line (PAL) Service provides telephone service to all Payphone Service Providers (PSP) pay telephones with or without coin collecting devices. Basic PAL access to the network will be provided as either a two-way or outgoing only flat-rated line, and a basic measured or measured line with 300 call allowance. Coinless Subscriber Service is also available.
2. Fraud Protection Service for Basic PAL Service offers three levels of protection: incoming, outgoing, and incoming & outgoing as described below.
  - Incoming Fraud Protection, or Billed Number Screening (BNS), prohibits collect and/or third number billed calls from being charged to Incoming Fraud Protected numbers. Callers attempting to place a collect or third number billed call using an Incoming Fraud Protected number for billing will be advised by an operator that such billing is unauthorized and the call will not be completed until other payment or billing arrangements are made.
  - Outgoing Fraud Protection restricts outgoing toll calls to only collect, third number billed and calling card.
  - Incoming & Outgoing Fraud Protection is a combination of the two aforementioned Fraud Protection Services.

Fraud Protection Service is subject to the availability of facilities with Basic PAL Service. Operator assisted, collect and/or third number billed calls originating from locations that do not have screening capabilities may not be capable of being intercepted and denied and will be billed, e.g., International calls and calls that do not go through the Billing Validation Authority database. Provision of Fraud Protection does not alleviate customer responsibility for completed toll calls. Rates and Charges for this service are set forth in 5.5.7.C.4., following.
