RE: UM 1752 Revised Schedule 201 Qualifying Facility Information

Portland General Electric (PGE) submits this filing pursuant to Oregon Revised Statutes 758.525; Oregon Administrative Rules 860-029-0001 through 860-029-0100; Order No. 11-505; and Order No. 14-058, with a new requested effective date of **January 27, 2016**.

PGE initially submitted the Application on December 3, 2015 with revisions to Schedule 201, Qualifying Facility Power Purchase Information for Qualifying Facilities 10 MW or Less, consistent with PGE's 2013 Integrated Resource Plan (IRP) Update. PGE submits this Supplemental Filing requesting an extension of the effective date from January 13, 2016 to January 27, 2016, to allow additional time for review. PGE understands that this matter will be removed from the January 12, 2016 public meeting agenda. PGE will supplement Schedule 201 within the next few business days to remove production tax credits (PTC) from the calculation of avoided costs consistent with the phasing out of the PTC for wind projects that will begin construction after 2019 as described in the Consolidated Appropriations Act, 2016. The Act was signed into law after PGE's initial filing in this docket. In addition, PGE plans to submit comments that: (1) respond to the comments of other parties, and (2) provide an explanation and support to show that PGE's filing reflects a significant change in avoided cost pricing.

Should you have any questions or comments regarding this filing, please contact Rob Macfarlane at (503) 464-8954. Please direct all formal correspondence and requests to the following email address pge.opuc.filings@pgn.com

Sincerely,
