RE: UM 1167 – In the Matter of Idaho Power Company's Application for an
Accounting Order Regarding the Treatment of Certain Asset Retirement Obligations

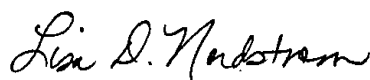

Attention Filing Center:

On October 7, 2004, the Public Utility Commission of Oregon ("Commission") issued Order No. 04-585 approving Idaho Power Company's ("Company" or "Idaho Power") implementation of a new accounting methodology regarding the treatment of certain asset requirement obligations ("ARO") under Statement of Financial Accounting Standards 143 (now codified as Accounting Standards Codification ("ASC") 410). In addition, the Commission ordered the Company to provide Staff with all journal entries made under the requirements of ASC 410 and any journal entries that true-up the ASC adjustments to historical regulatory accounting in order to remove rate impacts of the accounting treatment. The Commission ordered the entries filed at any time Idaho Power files a rate change, including general rate filings and Power Cost Adjustment filings.

On September 26, 2011, Idaho Power filed an application requesting authorization to increase its rates for the early closure of the Boardman power plant ("Boardman"). On June 26, 2012, Order No. 12-235 was issued authorizing the Company to begin recovery of incremental costs related to the early closure of Boardman and established the Boardman balancing account which tracks the difference between costs and revenues, including Boardman-related ARO balances. In addition, Order No. 12-235 exempted Boardman-related ARO balances from the deferral treatment required under Order No. 04-585.

Pursuant to Order No. 04-585, attached please find all journal entries made under the requirements of ASC 410. If you have any questions regarding this filing, please contact Senior Regulatory Analyst Courtney Waites at (208) 388-5612 or cwaites@idahopower.com.

Sincerely,

Lisa D. Nordstrom
