Application for Authorization of Deferred
Accounting Related to a Change in Annual
Regulatory Fees Payable to the Public Utility
Commission of Oregon.

**APPLICATION FOR
REAUTHORIZATION OF
DEFERRED ACCOUNTING**

I. INTRODUCTION

In accordance with Oregon Revised Statutes (ORS) 757.259(2)(e) and Oregon Administrative Rules (OAR) 860-027-0300, PacifiCorp d/b/a Pacific Power (PacifiCorp or the Company) applies to the Public Utility Commission of Oregon (Commission) for an order reauthorizing deferral of the increase in the annual regulatory fee due to the Commission-ordered increase in the annual fee rate to 0.43 percent. For administrative ease, PacifiCorp also requests to amortize the deferred amounts through its existing property sales balancing account.

PacifiCorp requests to defer costs associated with the increase in the annual fee rate until the increase in the annual fee rate is included in the Company's base rates.¹

III. BACKGROUND

In accordance with OAR 860-021-0033, electric utilities are required to pay regulatory fees to the Commission each year by April 1. The fee payable by the electric utility is an annual fee rate multiplied by the utility's gross operating revenues derived within Oregon for the previous calendar year. The annual fee rate is set by Commission order entered on or around March 1 of each year.

PacifiCorp initially applied for deferral of the change in annual fee rate level from the previous 0.25 percent maximum rate on March 11, 2016, docketed as UM 1764.² In that docket, PacifiCorp requested the use of deferred accounting for the costs related to the change in annual fee rate from the previous 0.25 percent maximum rate, then represented in PacifiCorp's rates, and the annual fee rate established for 2016 of 0.275 percent in Order No. 16-067. The Commission authorized Staff's recommendation and approved the deferral for the 12-month period beginning March 11, 2016, in Order No. 16-153. Staff's recommendation supported PacifiCorp's decision to amortize the deferred amounts through

² Senate Bill (SB) 329, enacted in 2015, allows the Commission to set the annual fee to a percentage not to exceed 0.3 percent of utilities' gross operating revenue.

its existing property sales balancing account and also recommended that deferred amounts not be subject to an earnings test. PacifiCorp has filed for annual reauthorizations since, which the Commission has approved. The most recent update to the annual fee occurred on December 18, 2020, in Order No. 20-473, which incorporated a 0.35 percent annual fee in PacifiCorp's rates effective January 1, 2021.

On February 24, 2022, the Commission issued Order No. 22-062, setting the annual fee rate for 2022 at 0.43 percent of 2021 gross operating revenues. PacifiCorp respectfully requests reauthorization under ORS 757.259(2)(e) to defer the costs related to the increase in the annual fee rate for the 12-month period beginning March 11, 2022, and to amortize these costs through PacifiCorp's tariff Schedule 96, Property Sales Balancing Account.³ Further, because the collection and payment of the annual fee is a direct pass-through to the Commission, PacifiCorp proposes that this deferral not be subject to an earnings test.

IV. OAR 860-027-0300(3) REQUIREMENTS

A. Description of Utility Expense

PacifiCorp is requesting to defer approximately \$1,116,300 in 2022 associated with the increase in the regulatory fee rate for 2022, calculated as shown in the following table. This amount reflects the calculated difference between PacifiCorp's annual fee at the new rate of 0.43 percent and the annual fee of 0.35 percent included in the Company's Oregon rates.⁴

³ The Company's property sales balancing account is evaluated and reported annually to the Commission. Any rate changes necessary to the property sales balancing account will be requested and determined in a subsequent filing.

⁴ The 0.35 percent annual fee approved in Order No. 20-054 was included in PacifiCorp's recent general rate case, Docket No. 374.

	Current Rate per Order No. 22-062	Previous Rate per Order No. 21-006	Estimated for deferral
2021 Revenues*	\$1,395,348,837	\$1,395,348,837	
Annual Fee Rate	0.43%	0.375%	
Annual Regulatory Fee*	\$6,000,000	\$4,883,700	\$1,116,300

* 2021 revenues are preliminary estimates; PacifiCorp has not yet released its final 2021 results.

B. Reasons for Deferral

As discussed above, PacifiCorp requests reauthorization to defer the costs associated with the increase in the annual regulatory fee rate that is higher than the previous statutory-maximum rate. ORS 757.259(2)(e) allows the deferral of identifiable utility expenses in order to minimize the frequency of rate changes or the fluctuation of rate levels or to match appropriately the costs borne and received by customers. In this application PacifiCorp seeks to match the costs borne and benefits received by customers. The concurrent proposal to amortize deferred amounts through the existing property sales balancing account also provides for administrative efficiency by minimizing the rate changes required to address the change in annual fees.

C. Proposed Accounting

If this application is approved, PacifiCorp will record deferred amounts by crediting Commission fees recorded in FERC Account 928—Regulatory Commission Expenses and debiting the property sales balancing account, in FERC Account 254—Other Regulatory Liabilities. If this application is denied, the increase in regulatory fees will remain in Regulatory Commission Expenses, FERC Account 928.

D. Estimate of Amounts

The Company estimates that the Oregon cost related to the increase in the annual fee rate is \$1,116,300 for the 2021 annual fee that will be paid on or before April 1, 2022.

E. Notice

A copy of the Notice of Application is included as Exhibit A. This notice will be served to the service list in dockets UE 374 and UM 1764.

V. OAR 860-027-0300(4) REQUIREMENTS

A. Entries in the Deferred Account to Date

Exhibit B provides the current history of PacifiCorp's Oregon property sales balancing account.

B. Reasons for Continuation of Deferred Accounting

Reauthorization of deferred accounting will allow PacifiCorp to continue to match the costs borne and benefits received by customers. The concurrent proposal to amortize deferred amounts through the existing property sales balancing account also provides for administrative efficiency by minimizing the rate changes required to address the change in annual fees.

VI. CONCLUSION

For the reasons set forth above, PacifiCorp respectfully requests that, in accordance with ORS 757.259(2)(e), the Commission authorize the Company to defer the costs described in this application, and to amortize these costs through tariff Schedule 96, Property Sales Balancing Account.

Respectfully submitted this 10th day of March 2022.
