**Re: Withdrawal of Tariff Advice No. 16-17  
Docket No. UE 316 – In the Matter of the Application of IDAHO POWER  
COMPANY for Authority to Increase Its Rates for Electric Service to Recover  
Costs Associated with the North Valmy Power Plant.**

Attention Filing Center:

On December 28, 2016, Idaho Power Company (“Idaho Power” or “Company”) filed revised Schedule 92, Coal Plant Operating Life Adjustment, pursuant to the Procedural Schedule adopted in Docket No. UE 316, Idaho Power’s request for authority to incorporate the revenue requirement impacts associated with the North Valmy Power Plant. The tariff sheet reflected the rates resulting from Idaho Power’s proposed increase in the Company’s Oregon jurisdictional revenue requirement of \$1,056,800. On June 12, 2017, the Public Utility Commission of Oregon Staff, the Citizens’ Utility Board of Oregon, and Idaho Power filed a stipulation resolving all issues associated with Idaho Power’s request, agreeing to an increase in the Oregon jurisdictional revenue requirement of \$1,056,800 effective July 1, 2017. Because the stipulation states that the Oregon jurisdictional revenue requirement will be collected from customers through base rates rather than Schedule 92, the Company is withdrawing Tariff Advice No. 16-17 and will submit a compliance filing to update base rate tariff sheets resulting from the final order in this docket.

If you have any questions regarding this withdrawal, please call Senior Regulatory Analyst Courtney Waites at (208) 388-5612.

Very truly yours,
