Advice No. 2136

Oregon Public Utility Commission  
201 High St. SE  
Salem, OR 97301-3612

Attention: Joan Grindeland, Tariff Coordinator

Dear Commissioners:

Pursuant to Qwest's Price Plan under ORS 759.255 and in Compliance with Docket UM 1354, Qwest Corporation d/b/a CenturyLink QC is filing changes to its Access Service Tariff No. 32. The changes proposed in this filing will remove Uniform Service Order Codes (USOCs) and Field Identifier Codes (FIDs) the tariff. These codes are being removed as part of the consolidation and alignment of CenturyLink's billing system. No rates, terms or conditions will be impacted by the removal of these codes.

CenturyLink is also revising terms associated with cancellation of customer orders contained in this Tariff. Current language is not clear as to what happens to the customer's order when the customer fails to respond to company inquiries within 30 days after the original service date. Company processes differ by legacy company on when billing begins and when the orders should be cancelled and there is a strong desire to have standard company processes. Accordingly, Service date Change Language is being revised to a standardized format and language surrounding the number of days the existing service orders can be delayed is being set at 60 days. The sheets being replaced are listed on Attachment A.

Qwest Corporation d/b/a CenturyLink QC plans to make this filing effective on May 6, 2017.

Yours very truly,

A handwritten signature in blue ink that reads "Mark Brinton".

**1.4 TARIFF FORMAT (Cont'd)**

**1.4.3 RATE TABLES**

Within rate tables, four types of entries are allowed:

- Rate Amount

The rate amount indicates the dollar value associated with the service.

- A dash "-"

The dash indicates that there is no rate for the service or that a rate amount is not applicable under the specific column header.

- A footnote designator "[1]"

The footnote designator indicates that further information is contained in a footnote.

- ICB

The acronym "ICB" indicates that the product/service is rated on an individual case basis.

(T)

2. GENERAL REGULATIONS

2.6 DEFINITIONS (Cont'd)

Extended Area Service (EAS)

The term "Extended Area Service" denotes mandatory, two-way, seven-digit local calling service between exchanges that provides the ability to call from one exchange to another exchange without incurring a toll charge.

Facility Signaling Point of Interconnection (FSPOI)

The term Facility Signaling Point of Interconnection (FSPOI) denotes a Company designated ordering point within a Company LATA to which customers may establish SS7 Signaling connections.

(D)  
—  
(D)

First-Come, First-Served

The term "First-Come, First-Served" denotes a procedure followed when the first Access Service Request (ASR) received will be the first order processed.

First Point of Switching (FPOS)

The term "First Point of Switching" denotes the first Company location at which switching occurs on the terminating path of a call proceeding from the customer's premises to the terminating end office and, at the same time, the last Company location at which switching occurs on the originating path of a call proceeding from the originating end office to the customer's premises.

555 Service Provider

The term "555 Service Provider" denotes a telecommunications company, including Exchange and Interexchange Carriers, that orders 555 Access Service from the Company.

1st Revised Sheet 88  
Cancels Original Sheet 88**

**2. GENERAL REGULATIONS**

**2.6 DEFINITIONS (Cont'd)**

(D)  
—  
(D)

V and H Coordinates Method

The term "V and H Coordinates Method" denotes a method of computing airline miles between two points by utilizing an established formula which is based on the vertical (V) and horizontal (H) coordinates of the two points. Mileage measurement is described in 6.7.11, following.

WATS Serving Office

The term WATS Serving Office (WSO) denotes a Company designated end office switch which is capable of performing routing, screening and recording functions in connection with the closed-end of an 800/800-type call, WATS and similar services. Designation of an end office switch as a WSO is based upon the capability and capacity of the end office switch to provide WATS Access Line Service arrangements. WATS Access Service Arrangements and WATS Access Service Options, as described in 6.3.1, following, may not all be available at all WATS Serving Offices.

Wire Center

The term "Wire Center" denotes a building in which one or more local switching systems (or a portion thereof), used for the provision of Telephone Exchange Services, are located.

1st Revised Sheet 13  
Cancels Original Sheet 13

**5. ORDERING OPTIONS FOR SWITCHED SERVICES**

**5.2 ACCESS ORDER**

**5.2.2 ACCESS ORDER MODIFICATIONS (Cont'd)**

**A. Service Date Change**

Access Order Service Dates for the installation of new services or rearrangements of existing services may be changed, but the new Service Date may not exceed the original Service Date by more than 60 calendar days. When, for any reason, the customer wishes to change the Service Date, the customer should notify the Company before the original Service Date to request a different service date. If the customer requested Service Date is more than 60 calendar days after the original Service Date, the order will be canceled by the Company and reissued with the appropriate cancellation charges applied, unless the customer indicates that billing for the service is to commence as set forth in 5.2.3, following.

(C)

(C)

A new Service Date may be established that is prior to the original Standard or Negotiated Interval service date if the Company determines it can accommodate the customer's request without delaying service dates for orders of other customers.

If the Service Date is changed to an earlier date, the customer will be notified by the Company that Expedited Order Charges as set forth in the Private Line Services Tariff, will apply.

**B. Partial Cancellation Charge**

Any decrease in the number of ordered Switched Access Service facilities, lines, trunks or EICTs will be treated as a partial cancellation and the charges as set forth in 5.2.3, following will apply.

(T)

**5. ORDERING OPTIONS FOR SWITCHED SERVICES**

**5.2 ACCESS ORDER**

**5.2.2 ACCESS ORDER MODIFICATIONS (Cont'd)**

C. Design Change Charge

The customer may request a design change to the service ordered. A design change is any change to an Access Order which requires engineering review. An engineering review is a review by Company personnel of the service ordered and the requested changes to determine what change in the design, if any, is necessary to meet the changes requested by the customer. Design changes include such things as a change of end user's premises within the same SWC, the addition or deletion of optional features, functions, BSEs or a change in the type of Transport Termination (Switched Access only), type of channel interface, type of Interface Group or technical specification package.

Design changes do not include a change of customer's premises, end user's premises to a different SWC, end office switch, Switched Access Service type or EICT type. Changes of this nature will require the issuance of a new order and the cancellation of the original order with appropriate cancellation charges applied.

The Company will review the requested change, notify the customer whether the change is a design change, if it can be accommodated and if a new service date is required. If the customer authorizes the Company to proceed with the design change, a Design Change Charge will apply.

A Design Change Charge will apply, on a per order, per occurrence basis. This charge will also apply to change an incorrect address as long as the new address is in the same wire center as the incorrect address and the change is made prior to the issuance of the Design Layout Report (DLR). If a change of end user's premises within the same SWC is requested, Expedited Order Charges may also apply as set forth in the Private Line Services Tariff. The applicable design charge is:

**5. ORDERING OPTIONS FOR SWITCHED SERVICES**

**5.2 ACCESS ORDER (Cont'd)**

**5.2.3 CANCELLATION OF AN ACCESS ORDER**

A. A customer may cancel an Access Order for the installation of service at any time prior to notification by the Company that service is available for the customer's use. The cancellation date is the date the Company receives written or verbal notice from the customer that the order is to be canceled. The verbal notice must be followed by written confirmation within ten days. If a customer or a customer's end user is unable to accept Access Service within 30 calendar days after the latest agreed upon Service Date, the following will occur:

(C)  
(C)

- The Access Order shall be canceled and charges as set forth in D. and E., following, will apply if the service has not been fully provisioned, or
- The Access Order will be completed and billing for the service will commence if the service has been fully provisioned or the customer has indicated that billing for the service should begin.

**6.8.2 LOCAL SWITCHING**

A. Local End Office Switching

	<b>RATE PER ACCESS MINUTE</b>	
• Originating	\$0.003479	
• Terminating	0.000700	
• End Office Shared Port		
Originating	0.000902	
Terminating	0.000000	
	<b>MONTHLY RATE</b>	<b>(T)</b>
• End Office Dedicated Trunk Port,[1] per trunk	\$3.00	<b>(T)</b>

[1] The End Office Dedicated Trunk Port rate was calculated based upon a 50/50 split between originating and terminating traffic using this flat-rated port. The FCC in their FCC 11-161 ICC Transformation order in section 51.907(d)(1) allowed Price Cap Carriers to use an equal split to divide the charge between originating and terminating elements. When the terminating portion of the rate is reduced and then combined with the originating portion of the rate a single flat rate is generated for billing purposes. The Originating portion of the charge is \$3.00.

**13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND  
MISCELLANEOUS SERVICES**

In this section, normal business hours are from Monday through Friday, 8:00 a.m. to 5:00 p.m. Hours before 8:00 a.m. and after 5:00 p.m., Monday through Friday, and all day Saturday, are considered overtime. Sundays and Holidays are premium time.

**13.1 ADDITIONAL ENGINEERING**

Additional Engineering will be provided by the Company at the request of the customer only when:

- A customer requests additional technical information after the Company has already provided the technical information normally included on the Design Layout Report (DLR) as set forth in 6.1.4, preceding.

The Company will notify the customer that additional engineering charges, as set forth in A., following, will apply before any additional engineering is undertaken.

**A. Charges for Additional Engineering**

The charges for Additional Engineering are as follows:

<b>ADDITIONAL ENGINEERING PERIODS</b>	<b>NONRECURRING CHARGE</b>	<b>(T)</b>
• Basic Time, per engineer		
- First 1/2 hour or fraction thereof	\$22.00	(T)
- Each additional 1/2 hour or fraction thereof	22.00	(T)
• Overtime, per engineer		
- First 1/2 hour or fraction thereof	28.00	(T)

MISCELLANEOUS SERVICES**

**13.2 ADDITIONAL LABOR**

Additional labor is that labor requested by the customer on a given service and agreed to by the Company as set forth in 13.2.1 and 13.2.2, following. The Company will notify the customer that additional labor charges as set forth in 13.2.3, following, will apply before any additional labor is undertaken.

**13.2.1 OVERTIME INSTALLATION**

Overtime installation is that Company installation effort requested by the customer outside of normal business hours.

**13.2.2 OTHER LABOR**

Other labor is that additional labor not included in 13.2, preceding, and labor incurred to accommodate a specific customer request that involves only labor which is not covered by any other section of this Tariff.

**13.2.3 CHARGES FOR ADDITIONAL LABOR**

**A. Installation**

The charges for additional labor are as follows:

<b>ADDITIONAL LABOR PERIODS</b>	<b>NONRECURRING CHARGE</b>	<b>(T)</b>
• Overtime, per technician[1]

**C. Regulations (Cont'd)**

- 6. When performing a service under TSP, the Company may not be in a position to notify the customer in advance of circumstances which require additional labor and for which additional labor charges apply. The TSP subscriber recognizes that quoting charges and obtaining permission to proceed would cause unnecessary delays that would be contrary to the objectives of the TSP System. In subscribing to the TSP system the customer recognizes this condition and grants the Company the right to quote charges after work has been completed.
- 7. Other regulations, rates and charges for services such as expedited service, special construction, due date change, Maintenance of Service, etc., may apply as specified elsewhere when provided in conjunction with the TSP System.

**D. Rates and Charges**

The following rates and charges are per point of termination or per access line and apply when the Company is either a Prime Service Vendor or a Subcontractor to a Prime Service Vendor of the TSP System. These rates and charges are in addition to all other rates and charges that may be applicable for services which operate in conjunction with the TSP System.

	<b>NONRECURRING CHARGE</b>	<b>MONTHLY RATE</b>	<b>(T)</b>
Priority Installation (PI)[1]			
• PI Invocation			
Includes System Development, Verification and Confirmation			
- Prime Service Vendor	\$128.00	-	(T)
- Subcontractor	128.00	-	(T)

[1] When a service is ordered with both PI and PR, the associated nonrecurring charge for PR applies.

**13.3 MISCELLANEOUS SERVICES (Cont'd)**

**13.3.4 STANDARD JACKS - REGISTRATION PROGRAM**

Standard jacks are provided by the Company to connect Registered Equipment to those services that are subject to the Registration Program. The use of jacks is covered in Part 68 of the F.C.C.'s Rules and Regulations. Specific jacks are described in the document on file with the F.C.C. entitled "Descriptions of Standard Registration Program Connection Configurations Supplementing Configurations Described in Subpart F of Part 68 of the F.C.C.'s Rules and Regulations."

These jacks are used to terminate services provided by the Company. Other services or facilities provided by the Company or by others may also be terminated in any spare capacity of the jacks remaining after installation without additional charge for the use of such capacity.

The nonrecurring charges, which include installation, for standard jacks and their typical uses are set forth following:

	<b>NONRECURRING CHARGE</b>	<b>(T)</b>
<b>A. Standard Voice Jacks</b>		
<b>1. Miniature six-position jacks for connection of terminal equipment as follows:</b>		
• Single line telephone set surface or flush mounted.	\$5.35	(T)
• Single line telephone sets wall mounted.	9.92	(T)
• Two-line nonkey telephone sets surface or flush mounted.	5.35	(T)
• Single-line bridged 4-wire exchange 2/RT, T1/R1.	5.35	(T)

b. Automatic Scheduled Testing (AST)

The three tests as set forth in (1), following, represent the minimum offering, i.e., an order for testing must, at a minimum, consist of twelve 1004 Hz Loss Tests per transmission path, twelve C-Message Noise Tests per transmission path and one Return Loss (Balance) Test per transmission path, per year. The Additional Tests as set forth in (2), following, may be ordered by the customer, at additional charges, 60 days prior to the start of the customer prescribed schedule. The customer may also specify a more frequent schedule of tests 60 days prior to the start of the customer prescribed schedule.

(1) Basic Tests[1]

<b>TO FIRST POINT OF SWITCHING</b>	<b>MONTHLY RATE</b>	<b>(T)</b>
<ul style="list-style-type: none"> <li>• 1004 Hz Loss Tests performed within a one-year period, per test ordered, per transmission path</li> </ul>	\$0.0140	(T) (T)
<ul style="list-style-type: none"> <li>• C-Message Noise Tests performed within a one-year period, per test ordered, per transmission path</li> </ul>	0.0140	(T)
<ul style="list-style-type: none"> <li>• Return Loss (Balance) Tests performed within a one-year period, per test ordered, per transmission path</li> </ul>	0.0337	(T)
