**UM 1843(2)**

In the Matter of Idaho Power Company's  
Application for Deferred Accounting of Certain  
Costs Associated with Boardman Operating  
Life Adjustment Variances

**APPLICATION**

**I. INTRODUCTION**

Pursuant to ORS 757.210, ORS 757.259, and OAR 860-027-0300, Idaho Power Company ("Idaho Power" or "Company") hereby requests an accounting order reauthorizing Idaho Power to defer decommissioning revenues collected and decommissioning costs incurred pursuant to Order No. 12-235 and Idaho Power Tariff Schedule 92. Schedule 92 is an "automatic adjustment clause" as defined in ORS 757.210. Idaho Power seeks reauthorization for this deferral effective as of June 1, 2019. In support of this Application, Idaho Power states:

1. Idaho Power is a public utility in the state of Oregon and its rates, services, and accounting practices are subject to the regulation of the Public Utility Commission of Oregon ("Commission").
2. This Application is filed pursuant to ORS 757.259, which allows the Commission, upon application, to authorize the deferral of certain items for later inclusion in rates.
3. Communications regarding this Application should be addressed to:

1 **II. OAD 860-027-0300(3) REQUIREMENTS**

2 **A. Description**

3 With this deferral application, Idaho Power seeks reauthorization from the Commission  
4 to defer, for future true-up, decommissioning revenues collected and decommissioning costs  
5 incurred, pursuant to Tariff Schedule 92, in accordance with Order No. 12-235.

6 **B. Reasons for Deferral**

7 On September 26, 2011, Idaho Power filed an application with the Commission  
8 requesting approval of the establishment of Schedule 92, the balancing account whereby  
9 incremental costs and benefits associated with the early shutdown of the Boardman power  
10 plant ("Boardman") will be tracked and recovered from Oregon customers (Docket No. UE  
11 239). In June 2012, the Commission issued Order No. 12-235, approving the Company's  
12 proposed balancing account and method for recovering costs associated with the shutdown  
13 of Boardman. The approved balancing account tracks costs associated with (1) a return on  
14 undepreciated existing Boardman capital investments, (2) the accelerated depreciation of  
15 existing Boardman investments and (3) decommissioning costs related to the Boardman  
16 shutdown through Schedule 92, smoothing revenue requirement impacts of the early  
17 Boardman retirement over the remaining years of the plant's life and allowing for full recovery  
18 of Boardman-related costs by Boardman life end.

19 On May 12, 2017, Idaho Power filed revisions to Schedule 92, adding language  
20 indicating the Boardman Operating Life Adjustment is an automatic adjustment clause  
21 ("AAC") to promote consistency among similar AACs. Likewise, the AAC requires Idaho  
22 Power to file a deferral request. The deferral is intended to provide for the deferral and  
23 tracking of decommissioning revenues collected and decommissioning costs incurred until  
24 decommissioning activities are concluded, and is filed pursuant to Order No. 12-235 and  
25 ORS 757.259(2)(e). In addition, this deferral will match appropriately the costs borne by and  
26 benefits received by customers.

1           **C.     Proposed Accounting**

2           Idaho Power accounts for estimated decommissioning costs as an Asset Retirement  
3     Obligation ("ARO") under Accounting Standards Codification ("ASC") 410. Idaho Power  
4     records, as a regulatory asset, the cumulative financial statement impact resulting from the  
5     Company's implementation of ASC 410 with respect to Boardman-related ARO's, and the  
6     ongoing annual differences between the ASC 410 depreciation and accretion expenses and  
7     the annual decommissioning revenues that are currently authorized by the Commission in  
8     Docket No. UE 239. Upon receiving approval of a deferral, Idaho Power proposes to continue  
9     recording the revenues collected to cover these ARO related liabilities to the balancing  
10    account, Federal Energy Regulatory Commission Account 182 (Regulatory Assets), until  
11    decommissioning activities are concluded. After decommissioning activities are concluded,  
12    amounts in the deferral account, either positive or negative, will be recovered or refunded in  
13    customer rates through a surcharge or credit, as appropriate.

14           **D.     Estimate of Amounts**

15           Order No. 12-235 approved an Oregon jurisdictional revenue requirement increase of  
16    \$107,223 associated with the recovery of the annual incremental return on and accelerated  
17    depreciation of existing Boardman investments, and decommissioning costs related to the  
18    Boardman shutdown. On March 14, 2019, Idaho Power filed its annual update of the  
19    incremental revenue requirement and review of the Boardman balancing account for 2018.  
20    The Company did not propose a change to the Oregon jurisdictional incremental revenue  
21    requirement approved with Advice No. 17-04 which updated the decommissioning cost  
22    estimate based on a new decommissioning estimate, decreasing the annual incremental  
23    revenue requirement to \$102,011. Idaho Power estimates the deferral account will contain  
24    the Oregon jurisdictional share of decommissioning costs, approximately \$521,000, at  
25    December 31, 2020. Because deferred amounts associated with decommissioning costs are  
26

1 dependent on factors that cannot be precisely forecasted, Idaho Power cannot provide a  
2 precise estimate of the total deferred amount.

3 **E. Notice**

4 A copy of the Notice of Application for Deferred Accounting of Costs Associated with  
5 the Boardman Operating Life Adjustment and a list of persons served with the Notice are  
6 attached to the Application as Attachment A.

7 **III. OAR 860-027-0300(4) REQUIREMENTS**

8 **A. Entries in the Deferred Account to Date**

9 Attached to the Application as Attachment B is a description and explanation of the  
10 entries specific to decommissioning expenses in this deferred account as of the date of the  
11 Application.

12 **B. Reason for Continuation of Deferred Accounting**

13 As discussed in detail above, this deferral is intended to capture decommissioning  
14 revenues collected and decommissioning costs incurred, pursuant to Tariff Schedule 92, in  
15 accordance with Order No. 12-235.

16 **IV. CONCLUSION**

17 Reauthorization of deferred accounting treatment is an appropriate, just, and  
18 reasonable means of implementing Order No. 12-235 and Idaho Power Schedule 92.

19 For the reasons stated above, Idaho Power requests permission to defer  
20 decommissioning revenues collected and decommissioning costs incurred beginning June  
21 1, 2019, pursuant to Order No. 12-235 and Idaho Power Schedule 92.
