

**BEFORE THE PUBLIC UTILITY COMMISSION  
OF OREGON**

LC 68

In the Matter of

IDAHO POWER COMPANY,

2017 Integrated Resource Plan.

MEMORANDUM

Idaho Power Company will present its 2017 Integrated Resource Plan (IRP) at the Commission's September 26, 2017 Public Meeting. The public meeting will serve to initiate the review stage of the IRP process, which will conclude with a scheduled final Commission decision in April 2018.

At this introductory event, Idaho Power is asked to provide a high-level overview of its 2017 IRP, followed by more in-depth discussion of key issues in the company's plan. The Commissioners may ask initial questions of the company during its presentation. As time allows, intervenors and members of the public may be given opportunity to briefly address the Commission to highlight their support for, or concern with, aspects of the company's plan.

The Commission will subsequently hold a public comment hearing in Ontario, Oregon, tentatively scheduled for the evening of November 2, 2017. That event is designated exclusively to provide members of the public the opportunity to address the Commission on Idaho Power's IRP.

Dated this 22<sup>nd</sup> day of August, 2017, at Salem, Oregon.
