Subject: UM 1930 supporting Neighborhood Power community solar projects

Dear Oregon Utility Commission,

I am a electrician with Shaw West Electrical Contractors. A majority of my work is done inside of PGE jurisdictions.

I am supportive of renewable energy efforts and I believe it is good for both our environment and our local economy.

This email is a request for approval of Neighborhood Powers projects so that my company, my family, and myself are able to participate in the access to renewable energy programs.

Thank you for your consideration,

Ronald Romero
