Purpose of Workshop

The workshop is one of several steps required to understand the drivers of interconnection delays for CSP projects, improve transparency for stakeholders, and mitigate project development delays in the future. Staff hopes this workshop will provide all parties with greater transparency and an opportunity for collaboration. Following a presentation by PacifiCorp staff, stakeholders and project developers will have an opportunity to comment and discuss their perspectives. Attendees will be able to ask questions and provide clarifying information.

Agenda

Section	Time
Welcome and Introductions – Joe Abraham, Senior Utility Analyst, OPUC	10:30 – 10:40 am
