Phone Conference ID: 210 527 693#

This workshop intends to provide a discussion on the main topics, questions, and positions regarding QTS and PGE's petition to increase green tariff customer supply option capacity. Parties are welcome to provide their general thoughts, questions, or concerns so that everyone can gain a level understanding of the relevant issues.

Please note that the workshop is scheduled for one hour. Since this meeting is generally focused on gathering a base-level understanding of the issues, statements can remain relatively brief in order to hear from all relevant parties that wish to engage.

Staff will circulate a proposed agenda closer to the specified workshop date.
