Salem, OR 97301

RE: Frontier Communications Northwest Inc. – Docket No. UM 1895 Price Plan

Frontier Communications Northwest Inc. (Frontier) hereby submits for filing an electronic copy of the enclosed revised tariff sheets.

On August 7, 2018, the Commission issued an order in Docket No. UM 1895 adopting the stipulation among Frontier Communications Northwest Inc. (Frontier NW), Citizens Telecommunications Company of Oregon (Citizens), Commission Staff and Citizens' Utility Board (CUB) thereby establishing a new price plan for Frontier NW and Citizens. Section 8 of the price plan authorizes Citizens to make a filing to move the services for which the Commission granted pricing flexibility to a Price List. The price plan provision anticipates that Frontier will file amendments to its Tariff reflecting those services that remain subject to Commission price regulation, including all services for which the Plan imposes a price cap.

This filing also moved Line Extension Charges from the Statewide Price List, Section 3 into the Tariff, Section IV and reflects the \$2,000 allowance and ability to waive the charge as described in Section 11 of the price plan and includes minor housekeeping changes correcting Tariff/Statewide Price List and section references. The filing also includes tariff changes to fully recover the privilege tax (as permitted in Section 6a of the Price Plan) as a separate line item on customer bills.

The Matrix identifying services that remain in the tariff and services that were moved into the Statewide Price List will be sent to staff in a separate email.

It is respectfully requested that this filing become effective on November 5, 2018.

Please direct any questions or notifications of action taken on this filing to Leslie Zink at (585) 777-4717, or Leslie.zink@ftr.com.

Sincerely,

A handwritten signature in black ink that reads "Leslie Zink".

Original Sheet 20

GENERAL REGULATIONS

TAXES, FEES AND SURCHARGES

(T)

Frontier may recover mandatory taxes and fees imposed by federal, state or municipal government as a separate line item on customer bills.

(N)
(N)

City Taxes

The aggregate amount of all business or occupation taxes, license, franchise, or operating permit fees, or other similar exactions imposed on the Company by a city shall be charged pro rata to users of exchange access services within the municipality, and separately itemized on the customers' bill, or billed separately.

(C)

Gross revenues are those revenues derived from exchange access services, as defined in ORS 401.710, less net uncollectibles from such revenues.

County Taxes

In the event any county, other than a city-county, should impose upon the Company any new taxes, or license, franchise, or operating permit fees, or increase any such taxes or fees, the Company shall collect from its customers within the county imposing such taxes or fees the amount of the taxes or fees, or the amount of increase in such taxes or fees provided, however, that should the taxes or fees cover the operations of the Company in only a portion of a county, then the Company shall recover the amount of the taxes or fees or increase in the amount thereof from customers in the portion of the county which is subject to the taxes or fees. Taxes, as used here, mean sales, use, net income, gross receipts, payroll, business or occupation taxes, levies, fees, or charges other than Ad Valorem taxes.

The amount collected from each customer pursuant to the foregoing paragraph shall be separately stated and identified on all customer billings.

This rule shall apply to new or increased taxes imposed on and after December 16, 1971, including new or increased taxes imposed retroactively after that date.

The above provisions are based on Chapter 860, Division 22 Oregon Administrative Rules; 22-040, relating to City Fees, Taxes, and Other Assessments, and 045, relating to Local Government Fees, Taxes, or Other Assessments.

LOCAL SERVICE

NETWORK ACCESS RATES

CONDITIONS - GENERAL

Network Access service is provided through facilities owned and maintained according to the standards of the Company. The territory served is shown on maps filed with the Commission by the Company. This territory is referred to as exchanges and wire centers.

The application of residence rates is determined by the actual or obvious use made of the service by the customer. Where only one Network Access line is provided at a location, which is both business and residence, the business rate will apply as shown in the Statewide Price List, Section 3. Flat rate service will not be installed on premises of a public or semi-public character in a location where the telephone would be accessible for use by the patrons of the customer or by the public in general.

(D)
(N)
(N)

The Network Access Line rates shown in this tariff do not include a telephone.

While the Company's Local Exchange Network Access Line Service may be used by the customer for dial-up access, the advertised speeds of the customer's modem may not be attainable with this service and are not guaranteed by the Company.

Network Access Charge - Network access is the element of local service that represents the ability of the customer to access the network and to receive calls. This charge applies to each customer line accessing the network. The Network Access Charge does not apply to or represent actual usage of the network (placement of outgoing calls).

Network Access and Local Exchange Usage Charge - This charge represents the ability of the customer to access the network, receive calls, and to make unlimited calls within the customer's own exchange.

Flat Rate Extended Area Service (EAS) Usage Charge - When the local service area includes more than one exchange, additional charges apply to the flat rate service for the extended calling capability. EAS Rate Increments for flat rate service are determined by the rate group size of each exchange.

Measured Usage Rates - Measured Usage Rates apply to local calls that are not flat-rated. These calls may be within the EAS network, within the customer's own exchange, or both, depending on customer choice of local calling options. Calls are rated based on frequency, duration, and distance.

Basic Calling Service - Customers choosing Basic Calling Service pay a Network Access Charge to gain access to the network. All outgoing local calls are subject to Measured Usage rates (local exchange and EAS).

Community Calling Service - Customers choosing Community Calling Service pay a Network Access and Local Exchange Usage Charge to gain access to the network and have the ability to make unlimited directly dialed calls within the same exchange. All outgoing EAS calls are subject to Measured Usage rates.

Premium Calling Service - Customer choosing Premium Calling Service pay a Network Access and Local Exchange Usage Charge to gain access to the network and have the ability to make unlimited outgoing calls within the same exchange. In addition, flat rate EAS usage charges apply where an EAS network exists.

LOCAL SERVICE

NETWORK ACCESS RATES

MEASURED USAGE RATES (Continued)

Measured Usage is only available on one party lines. Flat Rate service offers unlimited calling at a premium monthly rate to points within an exchange, including EAS, while Local Service Options with Measured Usage offer a lower monthly rate with measured usage charges billed on all exchange and EAS calls or just EAS calls, depending on the service option chosen. These local call usage charges encompass the frequency and duration of completed outgoing calls based on the distance of the called point and the time at which the call is placed.

RATES ¹

Usage Rates: Residence	Per <u>Minute</u>	(T)
Zone 0 (Intra-Exchange)	\$.02	
Zone 1 (Inter-Exchange)	\$.04	(T)

Usage will not be charged on calls placed to Operators, 911 (Emergency Service), Directory Assistance (tariffed and/or Price Listed rate applies), Company Service or Repair Offices, nor on calls that access Interexchange Carrier lines/trunks that have been registered with the Company for the purpose of placing long distance calls.

¹ These rates are not applicable to Public Access Line (PAL) Service.

LINE EXTENSION CHARGES

(T)(M)

CONDITIONS

(M)

General

Line extension charges are applicable in connection with all classes, types, and grades of service when established by means of an extension to the Company's plant consisting of buried wire, pole construction, or power line carrier and including extensions by means of poles to be owned by the Company jointly with others and by means of contacts or contact space on poles of others.

The Company will furnish temporary, seasonal, or intermittent service or service to speculative projects under the following conditions:

- A. The terms and conditions set forth herein are intended to afford protection to the Company against loss of revenue from speculative development of either a temporary or financially hazardous nature and to compensate the Company for the abnormal costs it may incur in connection with the furnishing of such services.
- B. Each applicant for such service may be required to pay the Company in advance or otherwise as the Company may elect, the net cost of installing and removing any facilities necessary in connection with furnishing such service.
- C. Each applicant for service may be required to pay a deposit with the Company before service will be furnished as provided in (cite OAR on deposit).
- D. Nothing in this rule shall be construed as limited or in any way affecting the right of the Company to collect from the customer any other or additional sum of money, which may become due or payable to the Company from the customer by reason of the service furnished or to be furnished hereunder.

(T)

All line extensions will be owned and maintained by the Company. The applicant, however, if he so elects, may furnish and set the required poles in excess of the distance for which there is no charge in accordance with construction standards of the Company, in lieu of the charges applicable, but in all instances the ownership of facilities shall be entirely vested in the Company.

When the proposed construction over private property is to be used to serve customers in general or the private property routing is selected by the Company in lieu of routing on public highways, such construction will be treated as being on public highways.

Calculation of Line Extension Charges

Line extension charges apply for extensions to plant to the extent the cost exceeds \$2,000.

(C)

(C)

Payment of Charges

Line extension charges may be paid in a lump sum or, when mutually agreeable, in equal monthly installments for a term of two years.

LOCAL SERVICE

LINE EXTENSION CHARGES

(T)(M)

CONDITIONS (Continued)

(M)

Disconnects

When a customer on a project disconnects his service, no refund is made of the line extension charges.

On disconnection of service, those customers making monthly line extension charge payments are required to pay an amount equal to the total of the monthly line extension charge payment for the unexpired life of the contract.

Charges to remaining customers are not affected by disconnects.

Unusual or Special Construction

A departure from the rates and special conditions specified in this schedule may be made on behalf of the Company when a line extension involves unusual or disproportionately large construction expenditures as compared with the usual types of plant construction.

Customers Added to the Line Extension

Customers connected to a line extension within two years of its construction will incur a liability equal to that of each original applicant, less 1/24th for each whole month since inauguration of service to original applicants on the line.

This amount may be paid in a lump sum or in equal monthly installments over the remaining months up to the end of the two year period following the line's construction. Such monthly payments will be exactly the same as payments being made by original applicants who chose monthly installments over the two-year period.

At the end of the two year period following construction of the line extension, charges collected from customers in excess of its original computed amount will be refunded to customers on the line at that time. Such refund will be based on the number of whole months each customer has been on the line.

To determine the refund, the excess amount collected will be divided by the number of customers on the line times the number of whole months (based on regular billing dates) they have been connected. Individual refunds will be that resulting amount times the number of whole months the customer has been connected.
