III. Non-Radio Frequency Metering Accommodation (continued)

The Company may revoke the meter exchange accommodation of a non-radio frequency meter by reinstalling the Company's standard radio frequency meter for any of the following conditions:

- a. Meter tampering;
- b. Impeding Company access to the meter to obtain monthly meter readings, perform maintenance or to disconnect meter for non-payment of electric service; or
- c. Service has been disconnected for non-payment of electric service twice within a 12-month period.

Customers opting-out of the Company's standard metering and are metered by a non-standard meter and are otherwise eligible for service under Schedule 4 Residential Service or have a meter without a demand register and are eligible for service under Schedule 23 General Service, Small Non-Residential may contract with the company for a quarterly meter reading schedule. Meter readings will be three times a year and monthly billings between meter readings will be based on estimated usage assumptions. At the discretion of the Company, meter readings may be more frequent without any additional charge to the Customers. Customers are required to pay the triennial meter reading fee as stated in Schedule 300, and enroll in the Company's Equal Payment Plan as described Rule 10 of this tariff.

The Company reserves the right to remove a Customer from the triennial read program for any of the following reasons:

The Customer is disconnected for nonpayment of bills,
The Customer fails to abide by the terms of the Equal Payment Plan, or
Safe and unobstructed access is not provided to the Company.

This option is not available for service in conjunction with net metering or time-of-use schedules.
