

**BEFORE THE PUBLIC UTILITY COMMISSION
OF OREGON**

LC 74

In the Matter of

IDAHO POWER COMPANY,

2019 Integrated Resource Plan.

MEMORANDUM

On July 31, 2020, Idaho Power provided an update on its 2019 Integrated Resource Plan (IRP). Idaho Power conducted an IRP internal review process and identified changes to the model inputs. Idaho Power requested that the procedural schedule resume after completing and filing its final report.

In expectation of the October 2, 2020 IRP Final Report, I am requesting that the stakeholder participants, upon reviewing the filing, collectively decide and submit a date for a prehearing conference. In the alternative, the parties may submit an agreed-upon, proposed schedule without holding a prehearing conference for consideration.

Dated this 1st day of October, 2020 at Salem, Oregon.

Christopher J. Allwein
Administrative Law Judge
