5.4.7 INTRACALL SERVICE

A. Description

The *INTRACALL* Service provides a special calling feature to a residence or business line. It allows customers to use their standard residence or business telephone line to provide an intercom system between their primary telephone and any extension telephone. This is accomplished by the customer dialing an access code, hanging up, letting the telephone ring, and allowing both primary and extension to talk to each other. The ringing supplied to the line is a special ringing circuit which allows the customer to distinguish between a normal incoming call and an *INTRACALL*.

B. Terms and Conditions

1. The access code may be the customer's own telephone number or a special three digit code depending upon the type of central office from which the customer is served.
2. Interaction between *INTRACALL* Service and other Custom Calling type features will depend upon the type of central office from which the customer is served.
3. *INTRACALL* Service is not available to lines in a Hunt Group.

C. Rates and Charges

• <i>INTRACALL</i> Service, per line

^[1] The nonrecurring charge is the same as the Custom Calling nonrecurring charge (See 5.4.3, preceding, Custom Calling Services). If the service is ordered at the same time as a Custom Calling or *CENTRAFLEX*, only the Custom Calling or *CENTRAFLEX* nonrecurring charge will apply.
