RE: PGE Advice No. 20-09, Schedule 136 Oregon Community Solar Program Cost Recovery Mechanism, updates title of schedule and the type of costs to recover to include payments to participants, Docket No. ADV 1112

To the Public Utility Commission of Oregon:

Thank you for guiding the implementation of the Oregon Community Solar Program (the "CSP"). Sesqui-C Solar, LLC is developing a single 2.5 MW project in the service territory of Portland General Electric Company ("PGE") that has been submitted and is looking forward to proceeding in the CSP.

Sesqui-C Solar understands that PGE has proposed a tariff that would change the allocation of CSP costs across PGE's customer base. Sesqui-C Solar believes that the CSP furthers decarbonization of energy supply in Oregon and provides a public benefit and a public good that benefits all customers. Sesqui-C Solar does not take a position on PGE's proposed tariff, but does support the Commission and PGE considering responsibility of program costs.

Sincerely,

A handwritten signature in cursive script that reads "Jonathan Nelson".
